A Word About This Catalog

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes in design features, materials or workmanship of any alterations by such suppliers. We sometimes find it necessary to change, improve or discontinue any product for any reason, or to start and end model years at different times. Some photos in this catalog show vehicles with optional equipment. Any customer verification of optional features in your vehicle should be done at the dealership.

A Note On Trailering

When loading a trailer, be sure that your vehicle includes the equipment you ordered or, if there are changes, that they are consistent with your specifications. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify before you take delivery.

A Note On Child Safety

Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat manufacturer’s instructions for proper child-seat installation. Remember that your child’s safety is your responsibility. You should use the appropriate seat for your child’s size and age. A child that is too young or too small for one seat may be safest in another. Be sure to check the child seat manufacturer’s instructions. The seat must be properly secured in the vehicle. See your Oldsmobile dealer for complete details.

Bravada’s potent mix of raw horsepower, traction control and road-smoothing suspension lets you take full control of any road surface. And its standard features include advancements and features that make sure they were tailored to your personal specifications.
