The 1996
CUTLASS SUPREME
Practicality and performance.

Series I — Standard features include a 300 HP V6 engine, 6-speed electronic-shift automatic transmission, 8-wheel anti-lock disc brakes, dual air bags, air conditioning, power windows, automatic temperature control, power door locks, power outside mirrors, P70R25 vehicle security system, cruise control, TILS/Navigation system, illuminated entry system, foglamps, and an AM/FM stereo with cassette player and extended-range speakers.

An added measure of style and convenience.

Series II — Additional standard features include a remote-controlled hatch panel system, distinctive and sporty 56-inch aluminum wheels (5-spike style standard on coupe; "starfish" style standard on sedan), and a Sport Luxury Package including performance tires and leather-wrapped steering wheel and shifter.

Equipped to set new standards.

Series III — Additional standard features include variable-effort steering, 6-speaker Dimensional Sound system, power antenna and split-folding rear seat back.

The ultimate expression of Supreme luxury.

Series IV — Additional standard features include leather-trimmed steering wheel, dual-zone automatic climate control, steering wheel touch controls, 6-way power driver's seat, and an AM/FM stereo with both compact disc and cassette players.
Driving pleasure meets practicality —
in beautiful style.

The Cutlass Supreme sedan combines sophisticated performance with functional utility.

In the boldly aggressive Cutlass Supreme, expressive styling and the sheer fun of driving blend seamlessly with family-style utility. Ample power from an advanced V6 engine and the sure-footed agility of 4-wheel independent suspension make Cutlass Supreme a true driver's machine. Dual air bags, anti-lock brakes and a spacious interior round out a very impressive package. And with its four Series to choose from, you can have a well-equipped Cutlass Supreme that's sure to fit your budget.

Wrapped rear glass, rear-mounted door handles and mini-quad headlamps give the Cutlass Supreme coupe an aggressive look.

STRAIGHTFORWARD BUYING
Oldsmobile is making it easier to buy your Cutlass Supreme by packaging the most popular features into four comprehensive series. There's no need to make through endless lists of options. And to make it easier still, Oldsmobile Sales Consultants are specially trained to answer your questions and make your buying experience enjoyable.
Welcome to your home away from home.

Settle into the Cutlass Supreme's spacious and accommodating interior, and "competitive" cars don't seem very competitive. Cutlass Supreme features supportive, contoured front bucket seats and a gracefully sculpted, easy-to-read instrument panel. All controls have been located precisely for convenience and ease of use. And to enhance your driving pleasure, Cutlass Supreme Series IV features standard steering wheel touch controls. Let the sunshine (or moonlight) in with the power sliding moonroof. This feature is available on Series IV coupe and sedan.

Other features that contribute to Cutlass Supreme's interior comfort include air conditioning, power windows, mirrors and doors locks, center storage console, cruise control, TILT/WHB adjustable steering column, illuminated entry system, and an AM/FM stereo with cassette player.
Cutlass Supreme Series IV with seating shown trimmed in Medium Beige Leather.
One touch of the pedal will convince you these engines are built for the road.

Advanced engineering makes Cutlass Supreme the kind of car you want to drive just for the fun of it. But it also makes it a car that you can depend on. For 1996, the standard 3100 SFI V6 is quieter and more maintenance-free with 100,000-mile tune-up intervals, long-life engine coolant and durable platinum-tipped spark plugs. The available 3.4-liter DOHC V6 injects a healthy dose of adrenaline into your daily drive equipped with advanced features like 4-valves per cylinder and a pentroof combustion chamber design, it makes a strong case for taking the long way home.

The potent 3.4-liter DOHC V6, breathing through 4 valves per cylinder, produces an impressive 215 horsepower at 5200 rpm and 255 ft-lb of torque at 4000 rpm.

Cutlass Supreme performance features include a 3100 SFI V6 engine, 4-wheel independent suspension, anti-lock brakes, and an electronically controlled 4-speed automatic transmission. The available 3.4-liter V6 engine package includes dual exhaust, variable-effort power steering, rear sway bar (cooper) and special performance suspension and tires.
A reliable ally in a hostile world.

When a collision is imminent, it’s too late to go back to the drawing board. That’s why Cutlass Supreme is engineered with painstaking care as a total system — to help the driver avoid a hazard if at all possible, and just as important, to provide a protective environment for the passengers should an impact occur. To enhance collision avoidance, Cutlass Supreme features anti-lock brakes and the stability and traction of front-wheel drive. And to help protect the occupants, standard features include dual air bags, crush zones and safety cage construction.

The remote-controlled keyless entry system (standard on Series IL, IS, and IQ) can unlock the doors from up to 30 feet away.

Other features that contribute to Cutlass Supreme’s safety include 4-wheel anti-lock disc brakes, side window and electric rear window defoggers, halogen headlamps, foglamps, and 3-point safety belts for front and rear outboard occupants.

Always wear your safety belts, even with air bags.
