The 1996
SILHOUETTE
A versatile minivan with powerful performance.

Series 1 — Standard features include an all-new 300-hp 3400 V6 engine with sequential port fuel injection, 6-speed electronic-shift automatic transmission, driver's side air bag, anti-lock braking system, power rack-and-pinion steering, 7-passenger modular seating, air conditioning, power windows, automatic programmable power door locks, 6-way power driver's seat, remote-controlled keyless entry system, 15-inch aluminum wheels, and an AM/FM stereo with cassette player.

And one that features unexpected luxuries.

Series II — Additional standard features include luxurious leather-trimmed seating surfaces, remote-controlled power sliding side doors, and steering wheel audio controls for the audio system.
A people carrier with an unexpected level of performance.

Silhouette gives you everything you want in a minivan — safety, contemporary styling, comfort and versatility. It also gives you something you need — a powerful, low-maintenance engine designed with your busy lifestyle in mind. You don't have time for unnecessary maintenance and service problems, so the new 3.4L V6 engine features oil and coolant sensors that alert you to problems that might occur before they become critical.

In addition, the engine uses long-life coolant that lasts up to 100,000 miles or five years, and the transmission fluid is "filled for life."
A conveniently spacious interior as well as a luxuriously comfortable one.

Besides extra-roomy, 7-passenger seating, Silhouette is appointed with a number of amenities that add to your driving comfort. For instance, all of the seats are individual buckets for the comfort of each occupant.

To help keep everyone cool, Silhouette uses solar glass for the windshield and deep-tint glass behind the front doors. And for convenience, power accessories, including power windows with driver's-side auto-dow feature, are standard equipment. Series II models even add steering wheel touch controls for the audio system.

Other standard features that enhance Silhouette's comfort and convenience include a memory power driver's seat, air conditioning, TILT/WHEEL adjustable steering column, reading lamps, center consoles with locking storage area and dual cupholders, and deluxe wall-to-wall carpeting.

Appreciated for its practicality and innovation.

One of Silhouette's top priorities was the ability to handle a lot of cargo and provide plenty of space for its occupants. Silhouette seats seven or, with all five rear modular seats removed, it provides over 112 cubic feet of unobstructed cargo area. You can quickly and easily reconfigure the balance of seating to cargo area, thanks to the lightweight modular seats that weigh only 34 pounds each — and you need no tools to remove them.

For added utility, Silhouette features a rooftop luggage carrier and an available remote power sliding side door (standard on Series II) that makes loading and unloading as easy as pushing a button.

A convenient and versatile air inflation kit is part of the touring equipment and the 3000-pound towing package available on Silhouette.

Other features that enhance Silhouette's versatility include a convenience net and 12-volt auxiliary power outlet in the cargo area, a lower center console with locking storage area and dual cupholders, and an integrated roof antenna.
Advanced safety features for your peace of mind.

Silhouette is designed with a variety of safety systems. Some of these help the driver avoid a collision. That's why Silhouette is equipped with a responsive engine to quickly get you out of a dangerous situation, front-wheel drive for stability and traction, and anti-lock brakes for optimum control under maximum braking. Other safety systems are designed to help minimize occupant injuries should a collision occur. In Silhouette, these include a standard driver air bag; sturdy safety-cage construction, and front and rear crush zones that help absorb and guide impact energy away from the passenger cabin.

The standard remote-control push-button entry system allows in your security.

Available integrated single or dual child safety seats help protect small children.

Other safety and security features include a brake/transmission shift interlock, 3-point front and rear outboard safety belts plus center postion lap belt, bulgeless headlamps, foglamps, side and rear window defoggers, child-security sliding door locks, and deep-tint privacy glass.

Upgrade your safety belt, even with air bag.
SAFETY

In Silhouette, you and your family will feel surrounded by features that go beyond occupant protection. Every Silhouette is equipped with standard automatic programmable power door locks and an illuminated entry system to help ensure your personal security.
