RAM. HOW YOU’LL MASTER EVERY JOB OUT THERE.

THE CONSTRUCT. For Ram Chassis Cabs and pickups, it’s all no-nonsense from Day One. Count on a high-strength steel core with ultra-tough crossmembers working with hydroformed tubular front frame units. For Ram ProMaster® and Ram ProMaster City® models, tough unibody construction means upfit-ready interiors backed with powertrains that ensure efficient performance.

THE BOXES. High-strength steel rules, but convenience is key—which is why Ram pickups feature cargo areas engineered for payload and built for ease of operation. Advantages like CHMSL-mounted lights and available rear LED Bed Lighting are augmented by a stand-alone asset: the available and innovative RamBox® Cargo Management System.

THE PERFORMANCE. This commercial portfolio is designed with bottom-line principles. Thus, you’re looking at exponentially thousands of miles and decades of service—numbers which translate into durable strength backed with operational efficiencies.

Contributors to enviable fuel efficiency on Ram models include sculpted aerodynamic bodies, and, on pickups, available assets like wheel-to-wheel side steps and Active Grille Shutters (1500 only).

THE INTERIORS. Every worker in this portfolio delivers multiple advantages simultaneously. Capability is a given. Reliability is built-in. And driver and occupant comfort is key.

And every Ram model delivers, with interiors that reflect thoughtful and intuitive design. From window controls and door handles to the dashboard-mounted Rotary Shifter for the TorqueFlite® 8-speed automatic on Ram 1500, buttons and controls are driver- and passenger-friendly. Storage in every model is abundant, with select pickups supplying an available fold-flat cargo load floor and/or convenient in-floor removable and drainable storage bins.

From the premium leather of Ram Laramie Longhorn® and Limited models to the legendary HEMI® V8s to the formidable Cummins® Turbo Diesel powerplants.

THE INGENUITY. Our commercial team realized the power of innovation decades ago; you’re reaping the benefits of years of research and development every day you drive your Ram vehicle.

Pioneering inventiveness in the flagship Ram 1500 encompasses many areas. Among them: the class-exclusive® multilink coil spring rear suspension. The class-exclusive® available five-mode Active-Level™ Four-Corner Air Suspension System. The abundant storage from the available best-in-class® RamBox® Cargo Management System. And the introduction of the available EcoDiesel V6® powerplant.

This winning team knows business inside out. Count on capability that strives to exceed 100% 24/7/365. And count on the promise of zero compromises. For more, visit RAMTRUCKS.COM/COMMERCIAL.

*When properly equipped. †Late availability. Properly secure all cargo.
Ram Chassis Cabs: More PTO Options, Big Torque and Big Returns.

Tough, Resilient, Efficient: Ram 4500/5500 Chassis Cabs.

- **Best-in-Class** Max GCWR: Ram 4500. Put massive capability at your service. The robust Ram 4500 Chassis Cab measures up, with up to 33,500 lb of ready-to-work GCWR.
- **Unsurpassed** Gas-And-Diesel-Powered Max GVWR: Ram 4500. The 6.4L HEMI® V8 and the 6.7L Cummins Turbo Diesel both offer a GVWR up to 18,500 lb.
- **Unsurpassed** Gas-And-Diesel-Powered Max GVWR: Ram 5500. The 6.4L HEMI V8 and the 6.7L Cummins Turbo Diesel both offer a GVWR up to 19,500 lb.
- **Best-in-Class** Diesel Max Trailer Weight: Ram 4500. Towing strength from these workers is at the apex: up to 25,650 lb for Ram 4500 when equipped with the optional Cummins Turbo Diesel powerplant.
- **Best-in-Class** Gas-Powered Max Trailer Weight: Ram 5500. Towing up to 18,960 lb with the 6.4L HEMI V8 engine.
- **Best-in-Class** Maximum Front GAWR: Gas-And-Diesel-Powered Ram 4500/5500. With the standard 6.4L HEMI V8, these heavyweights are rated up to 7,000 lb. With the optional Cummins Turbo, front support rises to a super-capable 7,250 lb.
- **Best-in-Class** Oil Change Intervals: Gas-And-Diesel-Powered Ram 4500/5500. Oil changes with the 6.4L HEMI V8 can stretch up to 10,000 miles; with the optional Cummins Turbo, intervals can reach up to 15,000 miles.

*When properly equipped. Properly secure all cargo.

We examined every Power Take-Off possibility. And then we ran with it. Ram Chassis Cab is the go-to source when add-on capability gets the job done. Our available Power Take-Off functionality is the result of ongoing PTO prep research and development. Industry benefits from sheer power: PTO on 4500/5500 Chassis Cabs delivers up to 60 horsepower and 250 lb-ft of torque.

PTO options include choices from the Cummins Turbo Diesel and the gas-powered 6.4L HEMI® V8. With the available Cummins powering your Ram Chassis Cab, count on a class-exclusive 6-speed manual transmission or the Aisin Heavy-Duty six-speed automatic; the Aisin is standard on 4500/5500 with the 6.4L HEMI V8. Both engines allow the Aisin to perform to spec: the Aisin can accommodate both right-side mountings and left-side PTO accessibility.

The higher horsepower output from split-shaft PTO capability (with the Cummins only) is ideal for large generators, pumps, compressors and oil field applications. Left-side PTO (Aisin only) offers easy installation, with clearance for hydraulic or shaft-driven PTO units. The right side offers some 20% larger space for substantial transmission-mounted PTO units, with convenient in-cab floor access. Technical questions? Answers are a click away, at RamBodyBuilder.com

These PTO sending units are shown here as mounted on the Aisin Heavy-Duty six-speed automatic. Blue unit: Ram 4500 4x2 with left-side-mounted PTO and mechanical componentry. Red unit: on a Ram 4500 Chassis Cab 4x4, a right-side-mounted PTO sending unit, here with hydraulic pump componentry. Each PTO prep option is engineered to solve a wide range of ancillary needs.
AT A GLANCE, 2017 RAM CHASSIS CABS HAUL WITH CONFIDENCE. MAX GCWRs AND TOWING:

The top jobs always go to the most accomplished employees. The singular strengths of the 2017 Ram 4500/5500 Chassis Cabs are conclusive proof that these guys have what it takes to get big tasks done, and done right.

This is where advantages like best-in-class⁷ max trailer weight ratings† for gas (Ram 5500) and diesel (Ram 4500) engines outdo those of the competition. It’s where a standard 6.4-liter HEMI® V8 stands out with its available PTO-activated Multi-Displacement System (MDS) capability in static mode. It’s where available V8 gas-powered PTO capability includes available left- or right-side access. And it’s where the available 6.7-liter Cummins® High Output Turbo Diesel churns out 750 lb-ft of torque.

RAM 4500 CHASSIS CAB
MAX GVWR: 16,500 LB† • MAX GCWR: 33,500 LB†

Best-in-class⁷ diesel max trailer weight rating—up to 25,650 lb†
Best-in-class⁷ available diesel front GAWR—7,250 lb†
Upfit-ready rear frame steel strength of 50,000 psi
Invaluable available diesel hp and torque—up to 325 hp/750 lb-ft

Unsurpassed⁸ max GVWR with the 6.4-liter HEMI V8—up to 16,500 lb†
Unsurpassed⁸ max GVWR with the 6.7-liter Cummins Turbo—up to 16,500 lb†

*Ram 5500, when properly equipped. †When properly equipped.

RAM 5500 CHASSIS CAB
MAX GVWR: 19,500 LB† • MAX GCWR: 38,500 LB†

Best-in-class⁷ available dual fuel tank capacity—74 gallons
Best-in-class⁷ diesel oil change intervals—up to 15,000 miles
Work-eager diesel max trailer weight rating—up to 30,600 lb†
Upfit-ready rear frame steel strength of 50,000 psi

Huge front and rear brake rotors measure up—over 15 inches in diameter
Unsurpassed⁸ max GVWR with the 6.7-liter Cummins Turbo—up to 19,500 lb†
UP TO 325 HP/750 LB-FT TORQUE

In this iteration for the weight class, the available 6.7L Cummins® High Output Turbo Diesel for the Ram Chassis Cab family is calibrated to a robust 325 horsepower backed with up to 750 lb-ft of on-demand torque. In Ram 4500 Chassis Cab, you’ve got a best-in-class® diesel-powered max trailer weight.†
POWER TO THE PEOPLE. AND FOR THE JOB. This is how you build a Chassis Cab that excels in the field: employ the sophistication of PowerNet electrical architecture. Add the available upfitter-ready electrical module with its 50+ inputs/outputs. Provide standard alternator output of 180 amps, with available dual alternators on the 6.4L HEMI V8 ramping up max output to an indispensable 380 amps—and a best-in-class available max 440 amps with the Cummins® Turbo Diesel. Supply the Electronic Stability Control (ESC) system as standard. Top it off with the best-in-class, largest-in-segment available 8.4-inch full-color touchscreen radio display screen. To no surprise...there’s still more.

FROM UPFIT TO AMPS TO TOUCHSCREEN, THE RAM 3500 CHASSIS CAB ELECTRONICS SET THE BENCHMARK.

Few vehicles in the 3500 weight class can vie with Ram 3500 Chassis Cab. The facts are indisputable: while the many top-of-the-class figures discussed on this page leave competitive models gasping for air, a Ram 3500 Chassis Cab barely needs to take a breath between assignments.

Ram 3500 Chassis Cab simply delivers the numbers that do the job and help save valuable time. Like best-in-class oil change intervals: for diesel engines, it’s 15,000 miles; for gas, 10,000 miles. Like the 52-gallon, best-in-class largest single rear-mounted fuel tank, and the best-in-class 74-gallon available dual fuel tank capacity. Ram 3500 Chassis Cab capably demonstrates how all the right numbers add up for business success.

LOAD IT UP. YOU’RE GETTING REMARKABLE 50,000-PSI REAR FRAME STEEL STRENGTH AT YOUR SERVICE. The conventional choice used to be either payload or towing. Not with this Ram. With up to 14K* GVWR on Dually models (and 10K – 12K on SRW models), you’re now factoring in up to 31,000-lb* GCWR figures to do the job. Which is why you’ll take advantage of this maximum towing capability—yet one more area of best-in-class superiority. With the 6.4L HEMI V8, you can trailer up to 17,920 lb.* With the available 6.7L Cummins Turbo Diesel, up to 23,770 lb.* Front GAWRs are just as capable: with the HEMI V8, it’s up to 5,500 lb.* Opt for the Cummins, and it’s unsurpassed* up to 6,000 lb.*

RAM 3500 CHASSIS CAB

MAX GVWR: 14,000 LB* • MAX GCWR: 31,000 LB*

Best-in-class diesel oil change intervals—up to 15,000 miles
Best-in-class available dual fuel tank capacity—74 gallons
Available PTO with the 6.4-liter HEMI V8
"Smart" diesel exhaust brake is included with available 6.7L Cummins Turbo
Class-exclusive available 6-speed manual transmission

*When properly equipped. Properly secure all cargo.
Properly secure all cargo.
AMERICA’S LONGEST-LASTING PICKUPS

RAM HEAVY DUTY. EXERCISE SOME MAJOR PULL IN LIFE.

YOU EXPECT TOP-TIER CAPABILITY. RAM HEAVY DUTY IS KEY.
From the severe demands that only Ram Power Wagon® can fulfill—it is, after all, the most capable off-road full-size pickup15—to the daily towing requirements of industry and agriculture, Ram Heavy Duty 2500/3500 are ready for it all. Count on exceptional numbers for payload and towing, outstanding suspension options, superior snowplow ratings—and that’s just the start. MORE ON PG 11

AWESOME DIESEL TOWING
RAM 3500: UP TO 31,210 LB*
Equip a 2017 Ram 3500 with the jaw-dropping strength of the 6.7L Cummins® High Output Turbo Diesel, and you’re fast approaching 16 tons of pure towing capability. That’s Ram strength at work.

SUPERB GAS TOWING
RAM 3500: UP TO 16,370 LB*
When your towing needs are met only with gas power and heavy-duty 3500-class capability, Ram is ready: the 6.4L HEMI® V8 in Ram 3500 delivers more than 8 tons of on-demand pulling strength.

BEST-IN-CLASS® GAS TOWING
RAM 2500: UP TO 16,320 LB*
What works for Ram is providing exceptional strength that doesn’t necessitate exorbitant costs. A Ram Heavy Duty 2500 powered by the available 6.4L HEMI V8 gives you top-tier gas towing.

*When properly equipped. Properly secure all cargo.
YOU'RE LOOKING AT HUGE PAYLOADS. LET US LEVEL WITH YOU.

Only Ram Heavy Duty 2500 comes to work with the ultra-tough and class-exclusive\(^{14}\) five-link coil spring rear suspension, while Ram 3500 stands out with a robust standard Hotchkiss leaf spring rear suspension. And only Ram Heavy Duty 2500/3500 offer an available Auto-Level Rear Air Suspension System with its dual modes addressing both payload and towing.

SEE MORE ON PG 11

\(^*\)When properly equipped. Vehicle shown above does not represent max configurations. Properly secure all cargo.
The 2017 Ram Heavy Duty 2500/3500 models prove themselves with the ideal resumé of experience and capability. These job applicants are ready to provide decades of and tens of thousands of miles of unyielding support. There's no doubt whatsoever who rules the jobsite when Ram Heavy Duty is in charge. The executive summary: available 6.4-liter HEMI® V8 with its Multi-Displacement System helping boost fuel efficiency. Available 6.7-liter Cummins® High Output Turbo Diesel with its stunning 900 lb-ft of torque on 3500. Standard Electronic Stability Control (ESC)11 system. Automatic transmissions with Electronic Range Select and the Tow/Haul Mode. Tough frames, innovative suspensions and impressive GVWRs.

**THE HIGH-STRENGTH STEEL FRAME: TOUGH ENOUGH FOR TOWING AND HAULING, QUIET ENOUGH FOR COMFORT.**

An expanded and durable ladder frame also features a pumped-up front suspension crossmember, hydroformed front and rear sections, and roll-formed center rail sections in an outwardly curved position that helps improve rear spring and shock placement.

The Ram Heavy Duty frames completely measure up, with 50,000 psi steel strength and eight tough crossmembers contributing to an anticipated lifetime of towing and hauling. The hydroformed front and rear sections supply durability and mass efficiencies, while the rail contours are ideally placed for ancillary mounts.

**FOUR REAR SUSPENSIONS: ALL ENGINEERED WITH ADVANTAGES FOR THE WEIGHT CLASS AND THE JOB AT HAND.**

**2500: THE FIVE-LINK COIL SPRING REAR SUSPENSION.** Standard on Ram 2500 models is the five-link coil spring rear suspension, an ingenious design that revolutionized the heavy-duty pickup segment. Engineered to spec, it ensures superb ride/handling characteristics with ultra-dependable hauling and payload capability, even under the heaviest of loads.

**2500: THE AVAILABLE AUTO-LEVEL REAR AIR SUSPENSION SYSTEM.** This adaptation of the Air Suspension System is engineered specifically for the higher GVWRs and GCWRs of the 2500 class. Two distinctive modes are at work: Normal Load-Leveling Mode ensures a level load profile; Alternate Ride Height Mode maintains an even alignment between the trailer hitch and the trailer tongue.

**3500: THE STANDARD HOTCHKISS LEAF SPRING REAR SUSPENSION.** Long proven on the unbending 3500-class workhorses of the Ram Commercial family, the Hotchkiss leaf spring rear suspension ably meets the many requirements for payload capability and occupant comfort. With engineering calibrated for heavy-duty performance, your Ram 3500 pickup will deliver with jaw-dropping ability.

**3500: THE AVAILABLE AUTO-LEVEL REAR AIR SUSPENSION SYSTEM.** In this configuration, the leaf springs are augmented with air springs—but here, they’re mounted on top of the axle; the engineering enables the air springs and leaf springs to seamlessly work together for superb load-carrying capability. The technology is utilized on Ram 3500 single-rear-wheel and dual-rear-wheel models.

- Best-in-class** gas horsepower—410 hp
- Best-in-class** diesel oil change intervals—up to 15,000 miles
- Diesel-powered towing—up to 31,210 lb*
- Gas-powered towing—up to 16,520 lb*
- Tough payload rating—up to 7,390 lb*
- Remarkable diesel torque—up to 900 lb-ft

Ram pickups are fully compliant with SAE J2807 towing standard

---

The Ram Heavy Duty 2500/3500 models are fully compliant with SAE J2807 towing standards.
AMERICA’S LONGEST-LASTING PICKUPS

Up to 385 HP/900 lb-ft torque

The Ram powertrain arsenal reaches its peak with the available 6.7L Cummins® High Output Turbo Diesel in a Ram 3500 DRW pickup. With up to 900 lb-ft of torque, you’re looking at sheer capability: towing up to 31,210 lb,* and payloads up to 6,580 lb.*

That’s Ram and Cummins at work.

*When properly equipped. Properly secure all cargo.
RAM HD NEVER BACKS DOWN.

31,210-LB DIESEL TOWING* | 900 LB-FT DIESEL TORQUE | 7,390-LB GAS PAYLOAD*

TRAILER-TOWING MIRRORS. By design, these trucks are born and bred to pull and haul. Huge available 7 x 11-inch trailer-towing mirrors with a power-folding feature make your Ram Heavy Duty a command and control center for towing.

DRIVER INFORMATION DISPLAY. Go—and tow—in the know: the full-color high-resolution screens in select Ram models feature dozens of graphics, conveying real-time data on virtually every mechanical function.

FRAME-MOUNTED GOOSENECK HITCH ASSEMBLY. Available from Mopar®, with easy ball removal for fast flatbed conversion. Optional Fifth-Wheel/Gooseneck Prep Package includes in-bed 7-pin connector. (Ball not included in Package.)

AVAILABLE MOPAR® FIFTH-WHEEL HITCH enables super-tough trailer towing with authority. Options include a hitch with sliding rails or one that slides directly into the optional Fifth-Wheel/Gooseneck Prep Package mounts, saving time and effort.

THE RAM VIEW OF HAULING AND TOWING: CONFIDENCE AND CONVENIENCE. Don’t bother to look back to the old days. Today, Ram 2500/3500 stand out by offering an available Cargo-View Camera10 that provides an on-screen display of the cargo bed. It’s ideal for gooseneck or fifth-wheel hookups—and it gets better. Add the available ParkView® Rear Back-Up Camera10 to ease conventional trailer hookups, and you’re adding more capability; you can toggle between the two views on the available 8.4-inch touchscreen.

*When properly equipped. Vehicle shown above does not represent rear configurations. Properly secure all cargo.
SAFETY AND SECURITY
TECHNOLOGY FOR EVERY ROAD.

In a 2017 Ram pickup, road manners join comfort and capability to ride hand in hand with safety and security. Standard on every model, the Electronic Stability Control (ESC)\(^1\) system is indispensable, employing a wealth of technological advantages to keep things right. Assets include:

- **All-Speed Traction Control** helps regulate wheelspin. If slippage occurs during acceleration, automatic throttle control will reduce torque; in extremes (like accelerating from pavement to ice), it will apply the brakes and reduce the engine power to help maintain control.

- **Trailer Sway Damping\(^1\)** detects yaw and applies selective brake pressure on the tow vehicle's opposite side to counteract and reduce the sway.

The Ram braking system features optimized pedal travel to provide quick power assist. Rear wheel-speed sensors are positioned for protection against road elements. ESC\(^1\) features multiple assets for braking; it even includes vehicle control when stationary. These encompass:

- **Antilock Brake System (ABS)**. Monitoring each wheel's speed, the ABS design also incorporates back-up braking should one of the two braking circuits be compromised.

- **Electronic Brake-Force Distribution** regulates brake pressure from front to rear to minimize stopping distances.

- **Ready Alert Braking** senses the moment when the driver's foot is lifted from the accelerator; it applies an imperceptible brake force to ensure that pads and discs are lined up should an emergency stop be required.

- **Rain Brake Support** automatically and seamlessly activates when the driver turns on the windshield wipers; all brake calipers gently pulse against their respective rotors to remove water from the pads.

- **Hydraulic Boost Compensation**. Should a failure occur in the vacuum brake booster or any related line (e.g., a rupture from tough off-roading), the brake controller will run the ABS pump; our system is so sophisticated, it conveys the problem to the driver. Most important, the brakes perform as normal until the failure is serviced.

- **Hill Start Assist**. When the vehicle is angled on hills or inclines, Hill Start Assist keeps your Ram pickup stationary for two seconds after the brakes have been released or until the accelerator is depressed.

**Available ParkSense® Front and Rear Park Assist System\(^1\)** Integrated sensors use ultrasonic waves to detect objects as far as 47 inches from the bumpers. Read-outs in the gauge cluster/display along with audible chimes help notify the driver of proximity to front and/or rear objects.
Your Ram pickup is a rolling powerhouse of knowledge, instant information and state-of-the-art communications technologies. And it’s all in your command, with the available and customizable full-color seven-inch Driver Information Display with some 34 menu options, including detailed graphics that convey real-time vehicle information. Select models inform you with a six-ring instrumentation cluster, and you can always move up to the largest available 8.4-inch radio touchscreen. Add truly awesome leading-edge telematics available through Uconnect, and you’ve got it all: tunes, info, web content, vehicle control and instant data.
TECHNOLOGY: ELEGANTLY AND POWERFULLY SIMPLE.

FOR 1500 AND HD: RAMBOX® CARGO MANAGEMENT SYSTEM.

REMOTE KEYLESS ENTRY WITH THE ALLSECURE® LOCKING SYSTEM. Versatile key fobs control another invaluable advantage: the available Remote Keyless Entry System with the AllSecure Locking System, which locks/unlocks all doors, the tailgate and (if equipped) both RamBox System bed-side compartments. Available fob functions also include control of the Remote Start, the panic button and even the Entry/Exit Mode of the available Active-Level™ Four-Corner Air Suspension System for Ram 1500.

Properly secure all cargo.

ADD ON STORAGE

THE RAMBOX® SYSTEM SIDE CARGO BINS are lockable, illuminated and feature drain plugs that enable refrigeration by ice. They’re made even more capable through multiple available Accessories from Mopar® that perfectly fit within the compartments.

DIVIDE & CONQUER

THE CARGO BED EXTENDER/DIVIDER doesn’t merely let you arrange cargo. Extend it over the open tailgate to enclose larger cargo. When not in use, the thin profile component is stored at the front of the bed, just behind the passenger cabin.

LIGHT THE BED

CONVENIENT IN-BED LED ILLUMINATION augments the CHMSL-mounted overhead rear light, allowing generous latitude when loading/unloading at night. An added convenience: if you’ve got a tonneau cover, you won’t need to adjust it at all.

KEEP IT TIGHT

CARGO RAILS WITH ADJUSTABLE TIE-DOWN CLEATS let you secure cargo—and the rails are multi-purpose. Like the side bins, they expand convenience and capability by accommodating many Authentic Accessories from Mopar.

Properly secure all cargo.
Ram 1500 pioneered the available and class-exclusive Active-Level™ Four-Corner Air Suspension System along with the equally innovative, class-exclusive standard multinlink coil spring rear suspension. Power is just as impressive, encompassing the available 3.0L EcoDiesel V6† (with its 29 mpg hwy* and 420 lb-ft of torque) and the available legendary 5.7L HEMI® V8 powerhouse.

A quick look at the Laramie® and Limited trim levels—think leather trim, and lots of it—is fast proof that this full-size pickup is the go-to truck for comfort and convenience.

Ram 1500 is equipped with the class-exclusive Active-Level Four-Corner Air Suspension System, which allows for five distinct modes of operation: Comfort, Sport, Off-Road, Terra, and Level. Each mode adjusts the suspension height to provide the best ride quality for the terrain and conditions. The system is controlled by a switchbank located in the center console, allowing the driver to choose the appropriate mode for the situation.

The 3.0L EcoDiesel V6 engine delivers impressive torque and fuel efficiency, making it a popular choice among Ram 1500 owners. The 29 mpg highway rating is one of the best in the full-size pickup segment. The EcoDiesel engine is also noted for its smooth operation and quietness, providing a comfortable driving experience.

The TorqueFlite® 8-speed automatic transmission is standard on the Ram 1500, providing smooth shifts and efficient performance. It is available with the Pentastar® V6, the EcoDiesel V6, and the 5.7L HEMI® V8 engines, offering a range of power options for different driving conditions.

In conclusion, the Ram 1500 is a versatile and capable full-size pickup truck, offering a range of engines, suspensions, and features to meet the needs of various drivers. Whether you're looking for towing capability, comfort, or fuel efficiency, the Ram 1500 has you covered.
AMERICA’S LONGEST-LASTING PICKUPS.
ELIMINATE LIFE’S UPS AND DOWNS. Give your Ram 1500 major clout. The class-exclusive available Active-Level™ Four-Corner Air Suspension System delivers five modes of operation. Crucially, it makes trailering a breeze, simplifying ball/hitch alignment. The bigger picture? The system counters weight from trailering/hauling, maintains an even and level profile when loaded, and keeps constant the rake from the front end to the rear of the trailer.

DOZENS OF MENU OPTIONS include data about the available trailer brake controller. This reading signals that the brake is at 50% of total operation with a 3.5% gain. You’ll control the gain that’s right for the terrain with the center stack-mounted trailer brake controller.

STAY AHEAD OF THE GAME. LOOK BACK. Make towing a cinch. The available ParkView® Rear Back-Up Camera™ with Active Grid Lines is a natural for aligning the trailer ball with the hitch.

COVER EVERY ANGLE. Monitoring your trailer is critical. Extra-wide available trailer-towing mirrors on each side are the answer. Measuring a substantial 7” x 11 inches, they offer a maximum view, with a wide-angle mirror for peripheral traffic.

SUSPENSION MANAGEMENT is at your fingertips. The dash-mounted integrated switchbank lets you raise or lower the vehicle with the available Active-Level Four-Corner Air Suspension System, and also enables adjustments of the trailer brake gain while towing.

RAM 1500: 10,620-LB MAX TOW* — AND MORE.

RAM 1500: 10,620-LB MAX TOW* — AND MORE.

*When properly equipped. Properly secure all cargo.
WE RAISED THE BAR. AND HELPED LOWER THE COST OF OWNERSHIP.

RAM PROMASTER®. IT’S DESIGNED FOR ONE PURPOSE: CHANGE.

The single mandate to the design team? Make it versatile. They accomplished the assignment with flying colors. Ram ProMaster is a vehicle custom-made for, well, customization. You’ve got dozens of possible variations on one theme: to personalize it, and make your business go—and grow. DETAILS ON NEXT PAGE

4,430 LB OF PAYLOAD STRENGTH.†

† Short-wheelbase model. *When properly equipped.
From the first concept to completion, this interior was designed to be a benchmark for the industry. Ram ProMaster advantages give you and your upfitter enormous latitude. Here, huge flat load floors support everything from multi-refrigerator-and-stove-size boxes to future in-vehicle workbenches for a mobile workstation. Near-vertical side walls permit extensive shelving—and their presence hardly impacts the standard cubic foot measurements for that vast interior volume. Given the three-wheelbase measurements (and an extended floor design that adds further capacity to the 159-inch wheelbase), two roof heights and two available partitions, you can transform your Ram ProMaster model into a model of efficiency and capability.

Outfit your Ram ProMaster with two available assets that are invaluable when maneuvering or dealing with loading docks. The ParkView® Rear Back-Up Camera® (with grid lines displayed on the screen) is high-mounted; its strategic placement lets you back up to loading docks with the rear doors open. The ParkSense® Rear Park Assist® utilizes ultrasonic sensors discreetly integrated into the rear bumper to audibly warn the driver of rear obstructions.

Critical to road manners, handling and performance is the comprehensive Electronic Stability Control (ESC) system, which includes ABS, a Brake/Lock Differential, All-Speed Traction Control, Brake Assist, Engine Drag Control, Trailer Sway Damping® Hill Start Assist and Roll Over Mitigation.

Cutaway and Chassis Cab models complement Ram Commercial by augmenting customization and upfit capability. These cab-forward front-wheel-drive powerhouses are the go-to design of choice when you need low step-in heights and/or easy access by ramps. The 24.4-inch top-of-frame-to-ground design is a welcome asset if your business deals with dolley-reliant delivery of oversized items, or large landscaping equipment.

On ProMaster Cargo Van models, roof strength weighs in with a 330-lb rating. We employ six roof rail mounts, three on each side. And all exposed body panels on every model are galvanized for long-term corrosion protection.

The front-wheel-drive configuration utilizes a telescoping steering column that controls crisp rack and pinion hydraulic steering, for a firm, responsive and confident feel. A premium steering gear enhances drive quality and reliability, and helps contribute to an incredibly tight turning diameter: the tiny 36.3-foot diameter on the short-wheelbase models is yet another best-in-class advantage.

The body-frame integral design meets the need, delivering the strength you demand. On ProMaster Van models, a steel framework works with integrally welded components; these include crossrails, longitudinal rails, the floor pan and the side panels.

Brakes are on the performance level: Brembo® four-wheel disc; the front rotor diameter is an impressive 11.8 inches. The proven MacPherson strut front suspension features huge 62-mm twin-tube shocks for outstanding support of cargo. GVW-tuned cast-iron control arms offer notable durability.

From the first concept to completion, this interior was designed to be a benchmark for the industry. Ram ProMaster advantages give you and your upfitter enormous latitude. Here, huge flat load floors support everything from multi-refrigerator- and stove-size boxes to future in-vehicle work benches for a mobile work station. Near-vertical side walls permit extensive shelving—and their presence hardly impacts the standard cubic foot measurements for that vast interior volume. Given three wheelbase measurements (and an extended floor design that adds further capacity to the 159-inch wheelbase), two roof heights and two available partitions, you can transform your Ram ProMaster model into a model of efficiency and capability.

Best-in-Class® Highway Fuel Economy | Best-in-Class® Cargo Capacity—Up to 131.7 cu ft | Best-in-Class® Payload | Best-in-Class® Horsepower and Torque | Unsurpassed® Towing*—Up to 2,000 lb

Ram ProMaster City retains its value better than Ford, Chevy and Nissan in its segment.*

*When properly equipped. EPA estimated 21 mpg city/28 mpg hwy. Actual results may vary.
Ram ProMaster City: where you count both advantages and built-in value to bolster your bottom line. Aerodynamic, spacious and versatile, Ram ProMaster City models are built on a 122.4-inch wheelbase, with a total length of 15.6 feet; think typical mid-size sedan. It’s a layout that translates into generous passenger room and, on Cargo Van, best-in-class cargo capacity. When you factor in the outstanding residual value, this very green vehicle becomes an indispensable business partner.

Ram ProMaster City retains its value better than Ford, Chevy and Nissan in its segment. The robust 2.4L Tigershark with MultiAir is mated to the class-exclusive nine-speed automatic, churning out a best-in-class 178 horsepower and 174 lb-ft of torque and best-in-class 28 mpg highway. With unsurpassed towing (up to 2,000 lb) and best-in-class driving range with standard motor (up to 448 miles) on a tank of 87-octane regular, ProMaster City is a working model of efficiency.

**Ram ProMaster City TradeSMAN® Cargo Van.** Best-in-class payload works with vertically oriented side walls and a completely flat load floor; interior space is enormous; latitude for customization enables a wide variety of upfits. Configuration is just as efficient: rear 60/40 doors deliver 90° and 180° openings, rear lift-in height is a worker-friendly 23.3 inches, and all interiors feature tie-down rings. It’s an overall design ready-made for countless functions—including aftermarket Automobile applications.

**Let’s put this rear view into perspective.** The front-seat-only configuration of the ProMaster City Cargo Van models gives you nearly infinite possibilities for an aftermarket upfit. If your business relies on making deliveries, think big: the best-in-class cargo capacity: 131.7 cubic feet. In ProMaster City Passenger Wagon, those numbers transform into welcome and generous room for up to five occupants. The convenient side-door step-in height of 19.3 inches (Wagon model), 60/40 split rear cargo doors and super-wide dual sliding side doors deliver easy access for people and comfortable handling of cargo.

**Ram ProMaster City: where you count both advantages and built-in value to bolster your bottom line.**

**Best-in-class highway fuel economy**

**Best-in-class cargo capacity—131.7 cu ft (Cargo Van models)**

**Best-in-class max payload: 1,883 lb** (Cargo Van models)

**Class-exclusive 9-speed automatic transmission**

**Unsurpassed max towing: 2,000 lb** (Cargo Van models)

**Best-in-class horsepower and torque—178 hp/174 lb-ft of torque**

**Class-exclusive bi-link rear suspension**

**Best-in-class GVWR—5,395 lb**

*EPA estimated 21 mpg city/25 mpg Hwy and 16-gallon fuel tank. Actual results may vary. Properly secure all cargo.
America’s most efficient work van.
TOUGH TRUCKS—BUT WORKING IN THEM IS EASIER THAN EVER. If there’s one area that characterizes the commercial sector, it’s multitasking. You’re doing a dozen things at once. No surprise to find that the cabin of your Ram matches it—with comfortable seating, intelligent instrumentation, leading-edge telematics and versatile interiors that give you an office on the run—ably demonstrated in Ram ProMaster Cargo Van, above.

The Ram ProMaster® exterior is aerodynamic, sleek and functional. There are even built-in footholds in the front fascia to enable easy windshield cleaning and wiper-blade replacement. Inside, convenience rules, with soft-touch materials, standard telescoping steering column, easy-to-read instrumentation and easy-to-access controls. Storage is abundant, with oversize door pockets, triple cup holders below the center stack, and an available overhead shelf system so robust, the 2.5-liter area can actually hold up to 44 lb of materials.

ONE OF OUR BEST STRENGTHS IS A WEAKNESS FOR COMFORT.
RAM CHASSIS CABS AND PICKUPS: COMFORT, CONVENIENCE, CONTROL.

We think every worker deserves the respect of an internal performance review. The Ram pickups and Chassis Cabs ably illustrate that a dedicated on-the-job partner can contribute to top-tier performance and bottom-line functionality through comfort and convenience.

The facts speak for themselves—and quite eloquently. Every model and trim level in the portfolio provides exceptional amenities, storage, and comfort.}

In Ram pickups, the convenient under-the-seat storage built into Ram Quad Cab® and Crew Cab models provides ideal places to stash tools and valuables. Available fold-flat load-floor capability in Ram Quad Cab and Crew Cab also stands out; they’re completely flat, with no angled break like other trucks. On Ram Crew Cab pickups, the in-floor storage bins go beyond safely securing documents or valuables; drainable and removable, they’re perfect for keeping food and beverages chilled. Finally, the fold-forward rear seating of Mega Cab® also translates into instant cargo-carrying capability.

Properly secure all cargo.
The more we design, the more we improve. And the more we improve, the more comfortable you become. The interiors of Ram ProMaster® and, shown below, Ram ProMaster City models, make the point by supplying outstanding functionality that combines with exceptional occupant comfort.

Our interior designers took some important extra steps with these models, creating seating and surrounds that plan on decades of use. Seats are designed for day-in comfort and year-long durability; long-wearing and easy-to-clean fabrics are bolstered by creature comforts—like available premium cloth bucket seats with driver-side lumbar supports and height adjusters. More and more, the crowning touches to virtually all Ram interiors are a focus on beyond-state-of-the-art telematics and communications. Media centers on select Ram models in the portfolio feature available satellite radio, Wi-Fi and Internet connectivity; touchscreens, if so equipped, are full-color and customizable.
A POWERTRAIN FOR EVERY JOB.

Standard configuration

2.4L TIGERSHARK MULTI AIR® I-4
EFFICIENT POWER WITH A CLASS-EXCLUSIVE® NINE-SPEED AUTOMATIC.
Meet the singular and powerful four-cylinder gas powerplant in our arsenal of engines—and the ideal powerhouse for Ram ProMaster City Tradesman® Cargo Van and Passenger Wagon models.

The MultiAir2 technology—long proven in the field—features multiple engineering enhancements for combustion control, improved fuel efficiency and reduced exhaust emissions, all culminating in best-in-class® horsepower and torque on Ram ProMaster City. Details on its partner—the 9-speed automatic—are on the following page.

3.6L PENTASTAR V6
INDUSTRIAL-GRADE POWER ACROSS THE BOARD.
This efficient and powerful V6 powerplant has been honored with universal acclaim and multiple awards. Count on commercial-grade reliability, top-tier performance and welcome six-cylinder efficiency.

Powering two of our flagship commercial vehicles, the 3.6L Pentastar V6 is mated with the ideal transmission for each vehicle application. Specific calibrations exclusive to the vehicle are designed to ensure the best in performance and fuel efficiency.

5.7L HEMI V8
LEGENDARY MUSCLE ACQUIRES INDUSTRIAL STRENGTH.
The 5.7L HEMI V8 with Variable Valve Timing (VVT) is an offshoot of one of the major steps in transportation. (Former HEMI engine applications have ranged from prototype aircraft to muscle cars; this is truly an engine with a respectable heritage.) Today, the available 5.7-liter HEMI V8 with Multi-Displacement System (MDS) in a Ram 1500 pickup delivers capable and fuel-efficient performance.

Standard powertrain partners to the 5.7L HEMI V8 are the 8HP70 8-speed automatic for Ram 1500 and the 66RFE 6-speed automatic for Ram 2500/3500 HD SRW. All of our commercial-grade transmissions are detailed on the following pages.

6.4L HEMI V8
AWESOME POWER—AND MAJOR PTO SUPPORT FOR CHASSIS CABS.
Standard on Ram Chassis Cabs and available for Heavy Duty pickups, the performance attributes of the large-displacement HEMI V8 include the invaluable Fuel Saver Technology. These stats earn their keep: the 6.4L HEMI V8 delivers up to 410 horsepower and 429 lb-ft of on-demand torque.

**3.0L ECODIESEL V6**

**GROUNDBREAKING DESIGN, STUNNING PERFORMANCE.**

The available 3.0L EcoDiesel V6* gives Ram 1500 exceptional advantages in the light-duty pickup market. The remarkable 420 lb-ft of torque translates into outstanding takeoff from a stop. The impressive driving range (up to 754 miles† per full tank) is exceeded by superiority: the engine delivers the best fuel economy of any full-size pickup. This small-displacement high-performing turbo diesel is mated to the TorqueFlite 8-speed automatic. Count on fuel-efficient performance, B20 (biodiesel) capability, 10K oil change intervals and a top-notch (and low-maintenance) Diesel Exhaust Fluid (DEF) system.

**6.7L CUMMINS TURBO DIESEL**

**MULTIPLE ITERATIONS, INCREDIBLE TORQUE, PROVEN LONGEVITY.**

Few engines carry the industrial clout of the 6.7L Cummins Turbo Diesel. In the Ram Commercial portfolio, five specialized calibrations culminate in the available High Output version, with its work-hungry 900 lb-ft of torque for 3500 pickups. Varying Cummins iterations are available for Ram Heavy Duty pickups and Ram Chassis Cab models.

It gets better: the 6.7L Cummins High Output Turbo Diesel is mated to the formidable AISIN® Heavy-Duty 6-speed automatic transmission. Put this available powertrain in a 2017 Ram 3500 Heavy Duty pickup, and you’re talking tow ratings up to 31,210 lb‡.

Opting for the Cummins in your Ram of choice offers a myriad of assets: available dual alternators (in-tandem 220-amp units for a max 440 amps on Heavy Duty pickups and Chassis Cabs); an invaluable “auto idle-up” feature to automatically adjust when greater electrical power is needed; and “smart” diesel exhaust brake on all calibrations. When applied to the upfitter-friendly Ram Chassis Cabs with their specialized transmissions, Ram and Cummins benchmark PTO access and capability. The point that drives it home is proven durability. A Cummins in a Ram Heavy Duty adds up to quality the others can only envy: more than two million trucks in total have featured this work-ready combination.

---

*Late availability. †Manufacturer’s estimated 29 mpg hwy based on Ram 1500 EcoDiesel HFE 4x2 and 26-gallon fuel tank. Actual results may vary. ‡When properly equipped.
ACTIVE ROLES FROM SILENT PARTNERS.

**RAM PROMASTER CITY® CARGO VAN AND WAGON**

**ADVANCEMENTS IN DRIVETRAIN TECHNOLOGY.** This package is technical excellence at work: the 2.4L Tigershark® I-4 with MultiAir®2 is mated to the class-exclusive® 9-speed automatic; think power with enviable economy.

**RAM 2500/3500 PICKUPS, 3500 CC (GAS); RAM PROMASTER CARGO VAN**

**BUILT-IN VERSATILITY AND CAPABILITY.** Smart engineering allows us to adapt this component to specific applications. Ideal to the Heavy Duty weight class is the 66RFE, while the Ram ProMaster models use the 62TE transmission. All iterations include Electronic Range Select and multiple clutch packs. The 66RFE also features a dual-stage hydraulic pump with electronic control over three planetary gearsets to provide ideal wide ratio spreads for optimum performance.

**RAM 1500 PICKUP**

**THE TORQUEFLITE® 8-SPEED AUTOMATIC TRANSMISSIONS (8HP75/8HP70)**

**AUTOMATIC PARTNER FOR RAM 1500.** The objective was manifold: provide outstanding drivability and impeccable performance from highway cruising to heavy hauling while making a very real contribution to the impressive Ram 1500 fuel efficiency. Revolutionizing the transmission field, the TorqueFlite 8-speed with standard Tow/Haul Mode in Ram 1500 is standard with the available 3.0-liter EcoDiesel V6, the 3.6-liter Pentastar® V6 and the available 5.7-liter HEMI® V8.

**WORK WITH ROTARY PRECISION.** Electronically controlled. Ergonomic design. Dashboard-mounted. The innovative Rotary Shifter for the TorqueFlite 8-speed automatic offers convenient, responsive shifting for all situations.

**RAM 2500/3500 HD PICKUPS AND 3500/4500/5500 CHASSIS CABS**

**THE 6-SPEED MANUAL TRANSMISSION (668RFE/62TE)**

**MATED ONLY TO THE 6.7L CUMMINS® TURBO DIESEL,** this is the transmission for Ram Heavy Duty pickups and Chassis Cabs equipped with the 660 (on pickups)/650 (on Chassis Cabs) lb-ft versions. On Ram Chassis Cab models, the robust G56 6-speed delivers optional PTO capability. This class-exclusive® 6-speed manual transmission is invaluable when you’re looking for the ultimate combination of vehicle control and efficiency.

**RAM 2500/3500 HD PICKUPS (DIESEL)**

**DURABILITY DEFINED: THE 6-SPEED AUTOMATIC TRANSMISSION (688RFE)**

**MATED TO THE AVAILABLE 370/800 6.7L CUMMINS TURBO DIESEL.** Heavy Duty 2500/3500 models with the 370 hp/800 lb-ft calibration of the Cummins employ the 68RFE, an established partner built to handle the output. Standard Electronic Range Select (ERS) ensures optimal and quiet shifting of gears for ideal load control while towing and hauling; three planetary gearsets provide capability with precise ratio steps for optimum drivability.

**ADVANCEMENTS IN DRIVETRAIN TECHNOLOGY.** This package is technical excellence at work: the 2.4L Tigershark® I-4 with MultiAir®2 is mated to the class-exclusive® 9-speed automatic; think power with enviable economy.

**MODERN ENGINE DYNAMICS MEET HIGH-TECH TRANSMISSION ENGINEERING.** The combination has real-world and bottom-line advantages: outstanding acceleration, performance and capability—with stellar fuel efficiency.

**THE 6-SPEED AUTOMATICS (66RFE/62TE)**

**DRIVER-ADAPTIVE SOFTWARE.** By reprogramming the software, we improved overall control and efficiency. ERS—Electronic Range Select—allows the driver to manually select the gear best suited for the task at hand. The engineering shows its true mettle when mated to the 5.7L and 6.4L HEMI® V8 engines.

**STANDARD TOW/HAUL MODE.** Transmissions are designed and constructed for stout towing and robust hauling assignments, with standard Tow/Haul Mode to facilitate tough jobs and help improve performance and fuel efficiency.

**DRIVER-ADAPTIVE SHIFTING** is a virtual electronic brain at work, and further customizes the shift points; the software bases the gear transitions on driver input.

**ELECTRONIC RANGE SELECT** allows manual control for greater confidence.
The Aisin® Heavy-Duty 6-speed automatic for Ram Chassis Cab® and Ram 3500 Pickup

The compact gear train utilizes three clutches, two brakes and a refined shift control algorithm. Aisin clutches are specifically engineered to meet commercial truck applications. The Shift Control System is impressively responsive and enables continuous operation in the most fuel-efficient speed range. A patented and highly specialized heat treatment is used to develop ultra-high-strength planetary gear components—part of the reason for the long life and solid reliability.

Firmly established in the industrial world is the heavy-duty Aisin that continues to earn accolades—the tough AS69RC calibration. It's engineered to deliver absolutely peak performance with the available Cummins® High Output versions. (Available for Ram 3500 pickup and 3500/4500/5500 Chassis Cabs.)

Look for exceptionally robust inner components and casings—like this high-strength case that improves durability and reduces noise, vibration and harshness (NVH).

STRENGTH WITH INTELLIGENT PTO: THE Aisin SURPASSES EXPECTATIONS WITH FLYING COLORS.

The formidable 6.4-liter HEMI® V8 and Cummins® Turbo Diesel engines deserve a partner that can handle their respective levels of horsepower, torque and various vehicle weight ratings. The available Aisin® Heavy-Duty 6-speed automatic is calibrated for ideal performance with each of these commercial-grade powerplants.

Notable strengths of all Aisin® 6-speed transmissions show the commitment and thought put into these formidable components. Among the industrial-grade assets are: full electronic control of shifting, including electronic operation of the torque converter clutch; tough clutches, upgraded for commercial truck applications; a highly sophisticated Transmission Control Module (TCM), which even communicates with the engine controller to momentarily turn off the exhaust brake (on Cummins powered models) while shifting to protect the friction material; and a vigorous Tow/Haul Mode that delivers an aggressive downshift schedule to meet industrial-level hauling demands.

This engineering is focused on durability and efficient operation. Included are six forward ranges (including two overdrive gears for ultra-efficient performance), wide overall gear ratios, a refined Shift Control System and low 1st-gear ratio of 3.75:1. In both iterations, the Aisin® AS66RC and the AS69RC deliver superb performance with outstanding vehicle launch ability—an absolute mandate for long-term towing assignments.

RAM CHASSIS CAB: COUNT ON A GAS-POWERED V8 WITH AVAILABLE PTO.
Select 2017 Ram Chassis Cabs equipped with the 6.4-liter HEMI® V8 deliver it all. The available PTO capability from this powertrain carries true authority, delivering up to 60 horsepower and 250 lb-ft of torque.

DUAL-ACCESS PTO DOUBLES YOUR EFFICIENCY.
Choose your side—and your engine—and get the job done with fluent proficiency. Aisin® dual-access PTO capability with the 6.4L HEMI V8 and Cummins® Turbo Diesel is the solution. On Chassis Cab models, left-side access is reserved for hydraulic or higher-output/shaft-driven power take-off. This engineering focuses on cost-effective operations that help reduce costs of ownership, dispensing with the common floor-mounted patch plate; the design eliminates the need for (and expense of) upfitters working around the exhaust system on diesel-powered models.

EXCLUSIVE PTO CAPABILITY WITH BUILT-IN FUEL EFFICIENCY.
The Aisin® design is intelligent, with technology that adapts to the 6.4-liter HEMI® V8 Multi-Displacement System (MDS) Fuel Saver Technology. While in stationary mode, the PTO with the Aisin® AS66RC is modified to operate using only four cylinders rather than all eight; the efficiency is measurable.

MASSIVE TORQUE CONVERTER.
The torque converter of the Aisin® AS66RC Heavy-Duty 6-speed is sized for the task, measuring over 12 inches in diameter, with a multiple disk friction pack to help improve slip control and shift quality.

BusinessLink

The fast lane for small business.

downtime is costing you money. Your BusinessLink dealer is committed to providing you, the small business owner, with the vehicle support you need for your business. From servicing all makes and models of your existing vehicles to selling you the right vehicles needed to perform the work that you do. Your BusinessLink dealer provides next-available-bay service because we know your business needs flexibility. Your BusinessLink dealer has sales professionals trained to properly "job-rate" the right vehicle for your work application along with providing commercial finance options. New vehicle sales to qualified small business owners also include a free alternate transportation contract, in the event your vehicle is in for service.

Membership in the BusinessLink program is complimentary. Membership helps us to identify you as a small business owner so we can provide you with both the service you deserve and update you with offers that can help reduce the cost of doing business. For your free registration, see your BusinessLink dealer today.

INCENTIVES FOR SMALL BUSINESSES.

Running a business presents plenty of challenges. Like cutting costs, not corners. Like saving time and money and eliminating hassles. The ON THE JOB® program provides assistance in customizing and servicing your business vehicles.

A commercial line of credit from Chrysler Capital is ideal for qualified business customers looking for a flexible, easy way to manage growing vehicle needs. Chrysler Capital streamlines the process—and with prequalification, you're ready to buy a vehicle when you need it. Ask your BusinessLink dealer for details.

Our most popular ON THE JOB® incentives are:

- COMMERCIAL EQUIPMENT/UPGRADES. $500/$1,000 Allowances for Upfits, $1,000 Box-Off Allowance, $500 RamBox® Cargo Management System Allowance.
- COMMERCIAL GRAPHICS ALLOWANCES. $250/$500/$1,000 Commercial Graphics Allowances.
- BOSCH® TOOL OFFER. Select of 5 current Bosch Power Tool Packages.
- 2-YEAR LUBE/OIL/FILTER. For all Chrysler, Dodge, Jeep, and Ram vehicles (includes gas and diesel engines).
- MOPAR®, SERVICE CONTRACTS. $500/$1,000 and Oil Change options available.

See your dealer for specific program rules and details or call us toll-free at 877-ONTHEJOB (877-668-4356).
