Since 1906, Lagonda has been the preserve of the few but the subject of desire for the many.

It has always been a marque for those that appreciate something truly exclusive, a luxurious but sporting 4-door ‘super saloon’ which gives a “Concorde” style of opulence but with a purpose. The pinnacle of engineering clothed in a beautiful form and all built in the most exclusive of numbers globally.

The Lagonda Taraf offers just that, a hand-built car able to deliver you in great comfort and style but with the capability of speed and agility that belies its form. The Lagonda Taraf has a unique character which rewards both the driver as well as the passenger.

We are offering selected customers of Aston Martin Lagonda the rare opportunity to purchase one of an extremely limited run of the last Lagonda Tarafs – the Final Edition. The following pages detail the specification of this unique addition to our range.
The Golden Age of Travel

The Final Edition Taraf features an elegant specification incorporating a theme which evokes the standard colours offered by Lagonda motorcars in the height of the Art Deco Period.

The Ultramarine Black exterior colour harks back to the time when Dark Blue was considered the signature colour for all Lagondas. Meanwhile, the crimson accents also give away an “old Masters trick” of using the smallest red element to draw the eye. In addition, Red was the colour of Le Mans-winning Lagonda M45R in 1935.

M45R images kindly supplied by The Louwman Museum, The Netherlands
The Final Edition Taraf features a number of bespoke items as well as an enhanced list of standard specification that elevate these small number of cars to unprecedented levels and enhance their value even further.
