

A5

Audi A5 Coupe | A5 Cabriolet

Audi
Truth in Engineering

IF THE TRUTH THEN THE TRUE A5 CARRIES

Inspirations that build an icon.

The alchemy needed to build an automotive icon is elusive. Sure, it's found, partly, on an assembly line, with committed artisans taking pride in every stitch they oversee. It's also on a drafting board, sketched by visionaries looking to further expand what we look for in automotive design lines. But it's also in the countless inspirations, ones little and large, that not only capture a bold thought or striking idea, but execute them. Examples of these can be found in the foundational stories we tell about our company and our vehicles. These stories show how an abstract idea can turn into a powerful, sculpted machine, and then how that machine can help forge an iconic reputation for a brand. Out of the inspirations we find in engineering, art and the large world of ideas, we have created a fearless, iconic company of substance and luxury: Audi.

ENGINEERING LESS THAN AN

IS **IN** STYLE,
STYLE OF THE
ITSELF WITH
TOTAL HONESTY.
SPORT-DRIVEN
THAT IS NEVER
HONEST ICON.

Design

We do not follow design trends. We set them.

**We don't take chances,
we make strides.**

Nothing captures the imagination like an automobile that turns heads. That's why every double-take the Audi A5 gets is a testament to the adventurous spirit and bold sensibilities of both Audi designers and drivers alike. And that's why there is such a strong response to the sophisticated lines that sweep across the A5, as well as to the seductive punch of its acceleration. Everything we build into the A5, even the way we hide the B-pillar, is meant to give it a sense of movement. Something you might notice even when it is standing still. Heads turn because we pay attention to every detail, from the precision handling to the striking headlights with LED daytime running lights, which seem to stare back at the attention of onlookers. Available in Coupe and Cabriolet, there is an A5 crafted to provoke emotion, and maybe even a little envy, in every person who looks as you drive by.

Enlighten

A new light on illumination just happened to be a design boon.

Thrill and be thrilled.

It may be, as has been suggested, that the Audi A5 is a polarizing vehicle. Then again, magnets are like that. Of course, we know what draws people in. The unmistakable look, to start, but the power too. LED daytime running lights introduce inviting illumination, and the tapered Singleframe® grille adds a bold sense of daring and an iconic look to the front fascia. But one gathers the possibility of more, such as the power distributed by the impressive 2.0-liter turbocharged TFSI® engine and optimized by the quattro® all-wheel drive system. The details tell the story—sharpened design lines streamline the body, continually pushing the envelope of style while embracing the spirit of our Audi Sport® heritage. In short, the more we tried to thrill onlookers, the greater thrill we experienced ourselves.

2015 AUDI A5 COUPE PRESTIGE SHOWN IN FLORETT SILVER METALLIC WITH AVAILABLE EQUIPMENT.

We spared no expense in bringing you delight.

The finest materials pepper the interior of every Audi A5. There may be more cost-effective ways to design a vehicle's interior, but ours are intended to stimulate more than just your sight. You'll see, feel and smell the distinctive elements inside the A5. Whether it's the finely stitched leather-wrapped multifunction steering wheel in your hands, or the scent of our finely crafted leathers that greets you when you climb into the cockpit, you'll find exactly what you've come to expect from Audi: sleek, fluid and substantively composed interiors that solidify the connection between you and your vehicle.

Panoramic sunroof

Another enhancement to your drive is the standard panoramic sunroof with tilt functionality of the A5 Coupe. An unimpeded view of the sky gives the feeling of infinite head room. If you don't want to fully engage with the environment, the retractable shade feature is there too. So let the sun drench the interior of your A5 as you enjoy a carefree driving experience.

Split folding rear seatbacks

With 12.2 cu ft of cargo space in the A5 Coupe and 10.2 cu ft of cargo space in the A5 Cabriolet with the rear seatbacks in the up position, the A5 is a capable carrier. The Cabriolet has split folding 50/50 rear seatbacks, and the Coupe features a pass-through in the split folding 60/40 rear seatbacks. You can enjoy all the benefits of a sports car and still have room for your oversized toys.

Craftsmanship

We've ensured that every stitch represents the detail that we put into every aspect of an Audi.

A bold display of interior performance.

Thanks to our three-spoke multifunction steering wheel with available shift paddles, every control you need is right at your fingertips, intuitively placed to help establish an ease of operation while you navigate any commute. Our driver-centric cockpit is more than just a design imperative, it is our way to help ensure that you're navigating the vehicle's technology with the same precision that our vehicles perform with on the road!¹

1 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

Retractable acoustic folding soft top

The top of the A5 Cabriolet invites you to take advantage of clear skies for as long as the sun is out. If clouds do come, it takes approximately 17 seconds for the top to fully deploy (even at speeds up to 31 mph). When the top is up, it also provides a great acoustic environment designed with both sound-deadening and insulation properties.

Equal parts sun, sky and dreams.

It's style that includes stars, but has nothing to do with Hollywood. It's outside, but not obsessed with waterproof hiking boots. It's the world seen and felt with the top down in your Audi A5 Cabriolet. Day or night, with wind gliding past you, discover a thrilling connection to your environment—while still being plugged into signature automobile technology. You can even stretch your top-down driving season with an available head-level heating system that helps ensure your comfort even when the temperature doesn't match your mood. The A5 Cabriolet takes design, precision and a retractable roof to turn the outside into something that's very much in.

You may not think of SPF as an automotive spec.

We've got you covered, even with the top down. The available perforated Milano leather ventilated and heated comfort front seats create a tranquil commute no matter what the weather brings. From heat-reducing pigments in the leather to an aerodynamic windblocker that helps the air flow by when you open up the drive, we've thought of everything to help ensure your comfort. Just in case you've forgotten your sunscreen, you can easily bring the roof back up, further proof that you hold a wide range of power.

Ventilated and heated front seats

Some added comforts for the top-down drive along the coast are the available heated and ventilated comfort front seats. You can get a little extra touch of warmth from the available head-level heating system vents that blow warm air directly onto your neck and shoulders.

Thermocool feature

The leather surfaces of our Cabriolet front seats are designed with special Thermocool heat-reducing pigments that, even in direct sunlight, help reduce surface temperatures, compared to untreated leathers. It's just another way we prove our commitment to your comfort.

Torque vectoring

It's a handling feature so quick that it seems to respond to your impulses instead of your steering input. An evolution of cross-axle lock, this system works within quattro®, utilizing ESC and ABS to help sense traction loss from the inside cornering tire.

Seasonal stability

There is a reason quattro® all-wheel drive is a friend in foul weather.¹ Under normal driving conditions, the center differential splits torque at a ratio of 40:60, front to rear, but as conditions change and become more challenging, the ratio is optimized to help maximize grip.

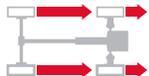

Power out

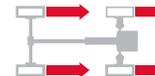

Torque vectoring distributes power to the outside wheels when turning, helping give you added control in the corners.

85:15

When accelerating, power is shifted to the rear wheels for extra rear traction.

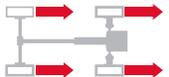

Under normal driving conditions, power slightly favors the rear axle.

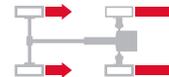

¹ When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.

**A little added confidence
can help powerfully steer
you in the right direction.**

There's an elegant sense of assurance when you are in control. In the case of quattro® all-wheel drive, the elegance is created by a sophisticated system developed by Audi engineers to help you with the ability to gain more control when road and weather conditions aren't their best. Through enhanced grip on twisting mountain roads and powder-dusted streets—to say nothing of the precision you'll feel in taking corners in perfect conditions—quattro® works with drivers who want peace of mind as much as power. Because it was built and honed to transfer the necessary amount of power to the appropriate wheels when accelerating and turning, quattro® helps enhance Audi performance, but the real story just might be how quattro® helps engineer confidence in good drivers.

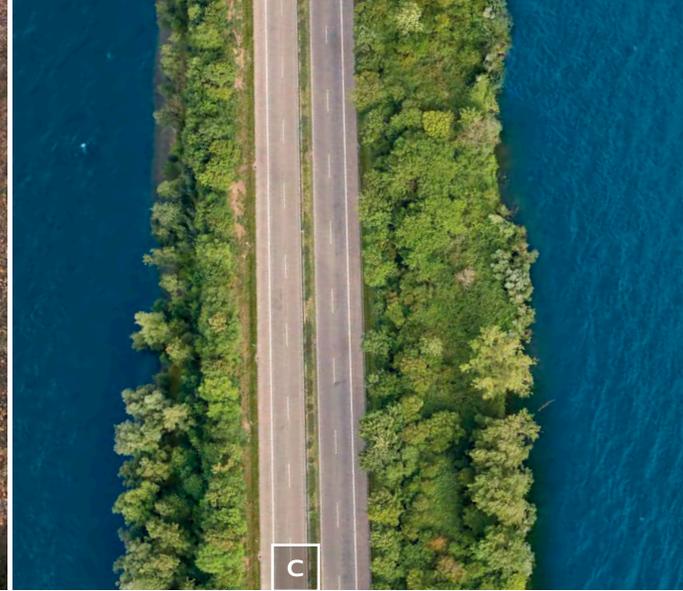

quattro® seamlessly transfers power as needed as driving conditions change.

30:70

When traction is limited at either axle, power is shifted to the axle with the most traction.

C **Comfort mode**

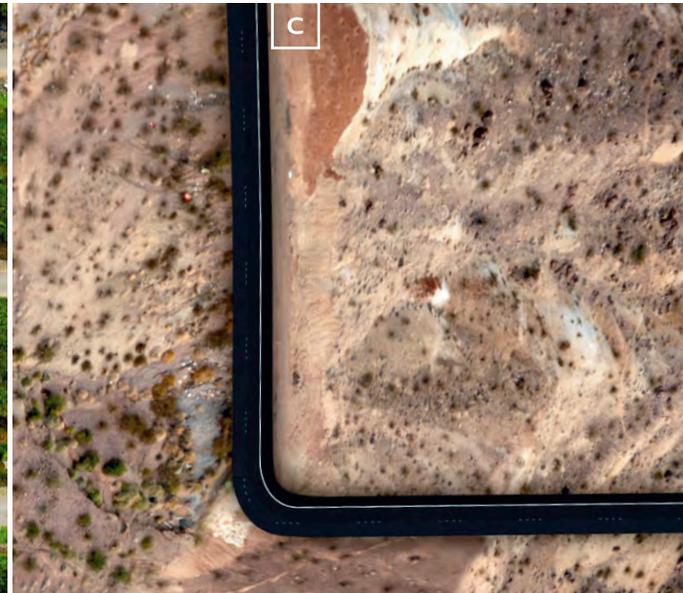

Perfect for those long highway stretches, this setting adds optimized steering and a closer shift pattern to help provide a more relaxed drive.

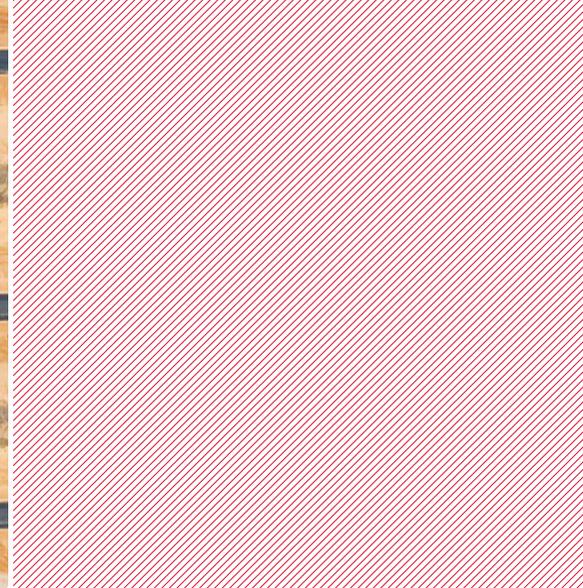

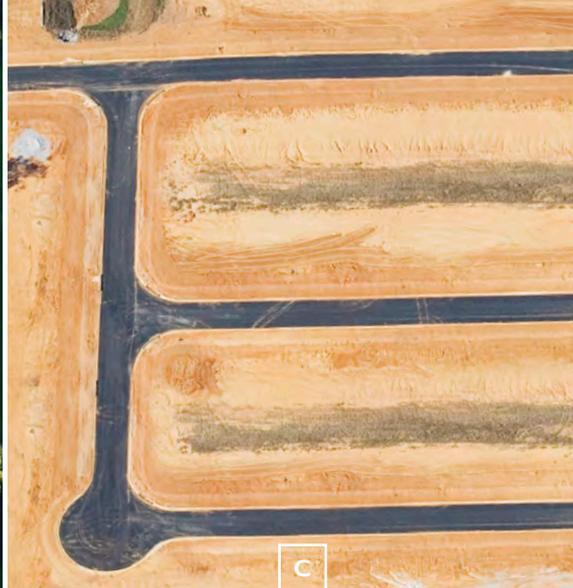

D **Dynamic mode**

Tighter steering and a more responsive throttle give this setting an aggressive feel and focused performance.

A **Auto mode**

The best of both worlds, dialed to automatically adjust settings for a seamless combination of comfort and responsiveness based on your driving style and road conditions.

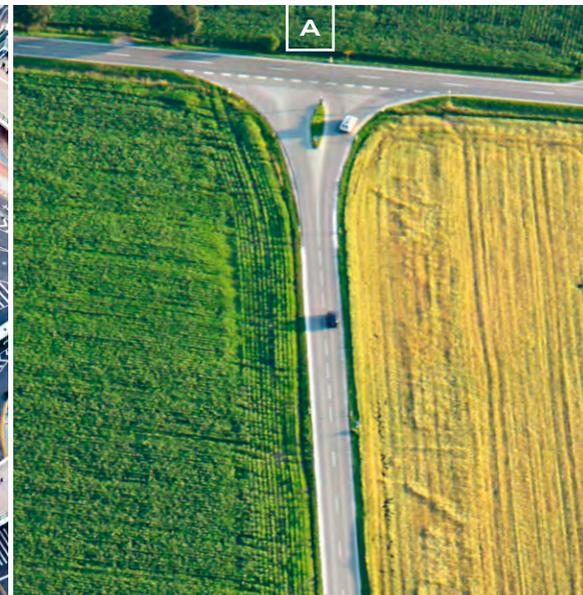

I Individual mode

Take the turn your way—this mode allows you to adjust the steering, throttle and transmission upshifts to your style.

At Audi, we believe you should be the ultimate master of your road-going domain. That's why we created the available Audi drive select system. It gives you the ability to adjust the vehicle's steering, throttle response and transmission shift characteristics with the utmost of ease. And with four modes to choose from, when almost any kind of road comes into question, Audi drive select will let you answer.

This is how power accelerates.

There is an old school of thought in the automotive world that bigger is better. More horsepower, greater displacement—these were once the hallmark of the industry. Audi, on the other hand, progressed past this antiquated notion of engine design and adopted a system that refines the driving experience. By utilizing a turbocharger, the powerful 2.0-liter engine delivers a broad torque curve and impressive off-the-line acceleration. And since more responsive vehicles breed better performance, the result is an exhilarating driving experience at every turn.

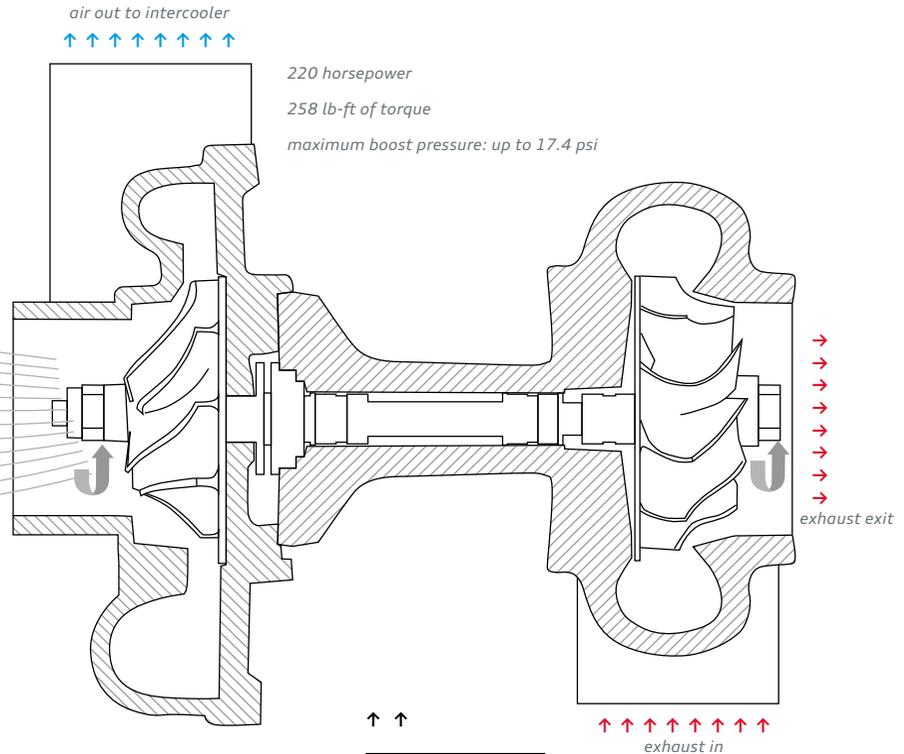

2.0 TFSI® four-cylinder

This 2.0-liter turbocharged DOHC engine produces 220 horsepower and 258 lb-ft of torque, and combines the valvelift system, FSI® direct injection and turbocharging for great power and overall performance.

220 horsepower

258 lb-ft of torque

maximum boost pressure: up to 17.4 psi

Induction-technology turbocharger

Compressing the airflow to the engine allows more air into the cylinder and, ultimately, more power from each combustion cycle, helping to improve the engine's power-to-displacement ratio.

Exhaust gas intake

Exhaust from the engine spins the turbine that is connected by a shaft to a compressor that pressurizes air. The compressor forces this pressurized air into the cylinders at boosted pressures up to 17.4 psi, thus producing more power from a smaller displacement engine.

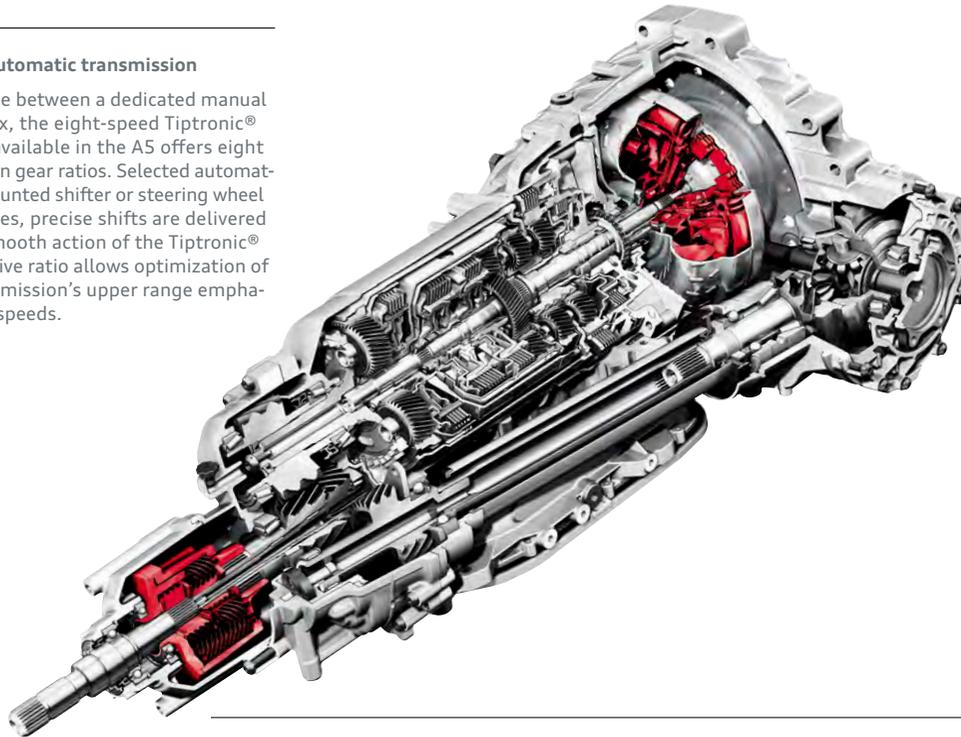

Performance

The adage “good things come in small packages” has never been more true.

Eight-speed Tiptronic® automatic transmission

As the perfect compromise between a dedicated manual and an automatic gearbox, the eight-speed Tiptronic® automatic transmission available in the A5 offers eight optimized, carefully chosen gear ratios. Selected automatically or via its console-mounted shifter or steering wheel with available shift paddles, precise shifts are delivered without sacrificing the smooth action of the Tiptronic® automatic. A high final drive ratio allows optimization of lower gears, yet the transmission's upper range emphasizes cruising at highway speeds.

| <i>gear</i> | |
|-------------|--------------|
| 1ST | 4.714:1 |
| 2ND | 3.143:1 |
| 3RD | 2.106:1 |
| 4TH | 1.667:1 |
| 5TH | 1.285:1 |
| 6TH | 1.000:1 |
| 7TH | 0.839:1 |
| 8TH | 0.667:1 |
| | <i>ratio</i> |

With efficiency comes great power.

Six-speed manual transmission

For drivers who crave engaging and dynamic response, the Audi A5 Coupe presents an available six-speed manual gearbox that delivers power with vintage Audi finesse. Its short throw and precise ratios add a contemporary element for confident performance on the road.

The Audi A5 offers two transmission choices that precisely transmit the power produced by the 2.0-liter TFSI engine. With wide gear ratios for smooth shifting and impressive performance, it doesn't matter which transmission you choose. Available steering wheel-mounted shift paddles for automatic transmissions let you shift up or down with minimal effort, while the six-speed manual transmission gives you the control that performance drivers crave. A shift has been made, and the choice is yours: choose what propels your A5.

A little insight into the things you cannot see.

With a suite of available driver assistance options, we strive to constantly up the ante on driver convenience. Available Audi side assist helps inform you of other vehicles in the lanes next to you, while available Audi adaptive cruise control helps monitor the distance between you and the vehicle ahead, and adjusts your speed appropriately to help keep you moving smoothly. There are also the simple things, like the available parking system, which adds a rear view camera and rear acoustic parking sensors to help ease you into that spot. It's another testament to the effort that Audi puts into helping ensure that you're not the only one keeping an eye on the road.

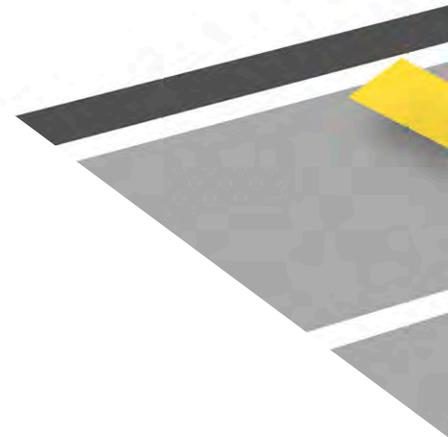

Driver Assistance

We're solving problems before you even know you have them.

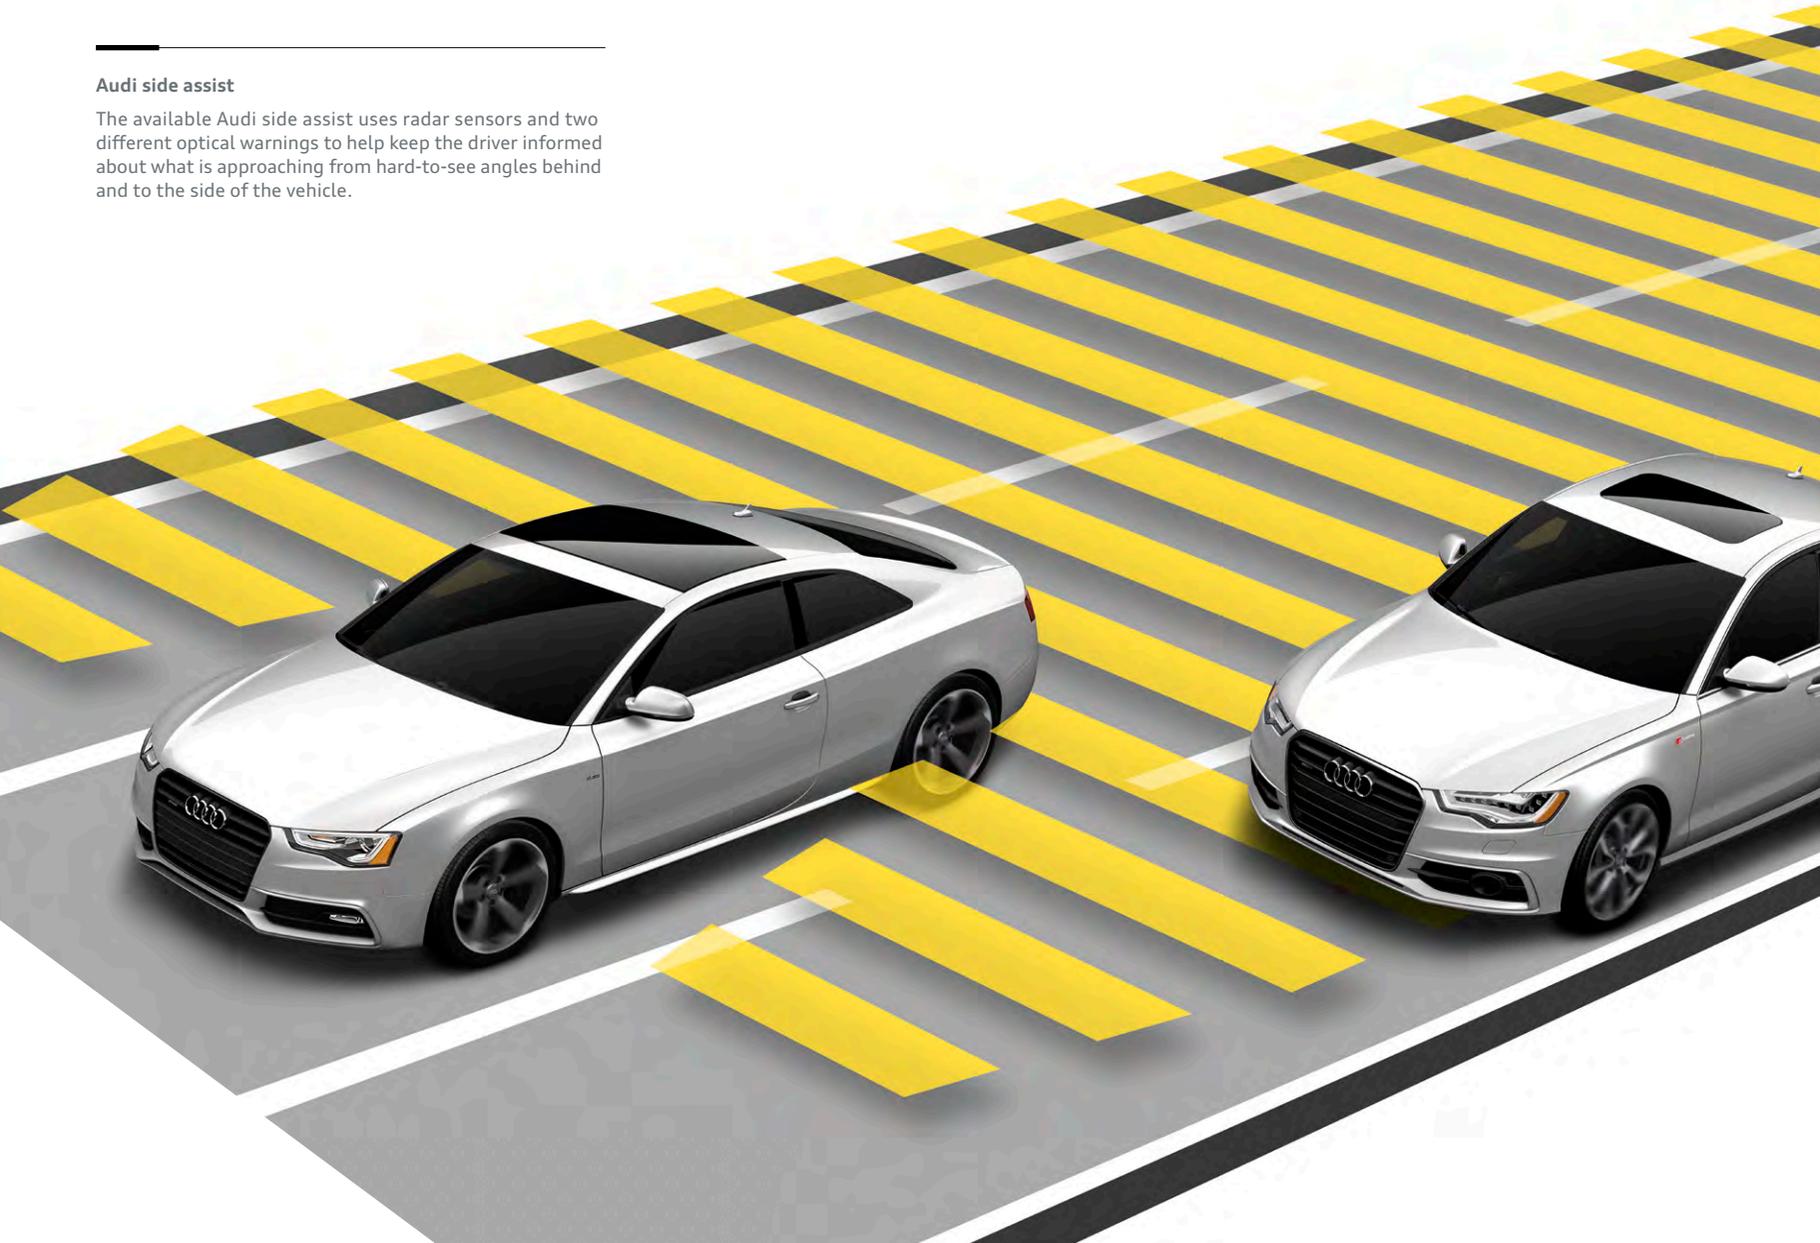

Audi adaptive cruise control

Everyone has their own comfort zone. The available Audi adaptive cruise control helps maintain a driver-selected distance from the vehicle in front by using a special long-range radar sensor. The system constantly measures the space between your vehicle and the vehicle ahead and helps manage it by automatically adjusting your speed. Once the road ahead is clear, the vehicle effortlessly resumes the previously preset speed, helping to make your drive that much more relaxing.

Audi side assist

The available Audi side assist uses radar sensors and two different optical warnings to help keep the driver informed about what is approaching from hard-to-see angles behind and to the side of the vehicle.

A little give requires a lot of strength.

We decided that, regardless of size, strong should be a more flexible concept. Ultra-high-strength steel helps add a measure of security while enhancing overall handling and performance. Sophisticated airbag technology is designed to deploy airbags based on seat position,¹ while specially constructed crumple zones give way upon impact to help mitigate potential injury in a collision. All of this, combined with the rigidity of laser seam-welded joints that enhance the strength of every Audi we make, helps diminish the impact of an unavoidable event.

Safety

Working to spread a “bend, don’t break” philosophy.

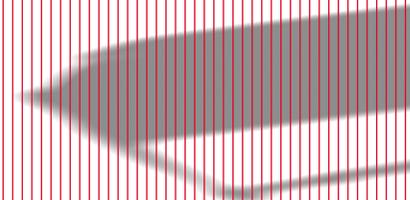

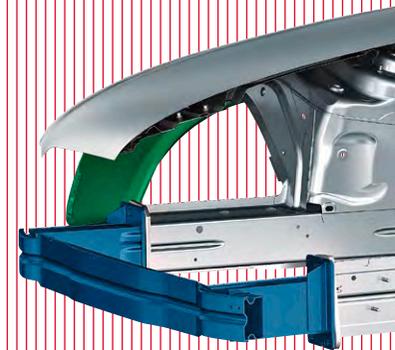

Active rollover protection system

In the unlikely event that your A5 Cabriolet rolls over, sensors deploy two roll bars from hidden compartments in the rear. Reinforced A-pillars up front and safety belt pretensioners also help protect passengers. It’s another way we keep innovative design as high a priority as your safety.

Airbags

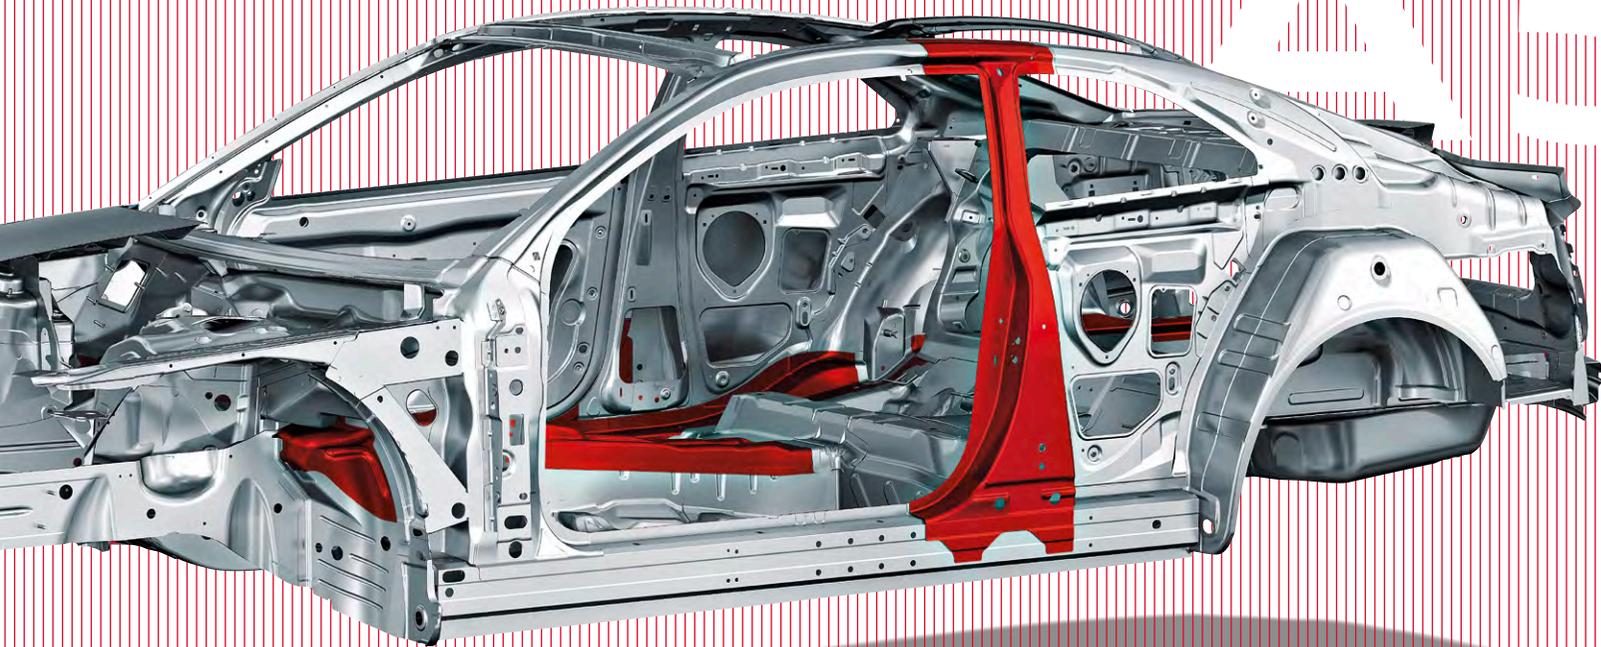

Sensors mounted in the front seats monitor your seating position to help ensure that the adaptive front airbags will deploy in the event of a collision.¹ Driver and passenger front seat-mounted thorax side airbags help keep your upper body protected, while knee-level airbags help keep tabs down below. The A5 Coupe even has two rows of Sideguard® head curtain airbags for an added level of protection.¹

¹ Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

Tailor-made blanks

Developed to make the best possible use of the body's potential, tailor-made blanks are the result of a special manufacturing process that can help strengthen the upper zone of a B-pillar while mitigating the impact in the lower zone in the event of a side collision.

Crumple zones

Knautschzone may be an ugly word, but it's a beautiful technology. German for "crumple zone," this ingenious feature helps dissipate the energy from a collision by spreading the impact forces around the passenger cell and away from its occupants. In doing so, it also enhances the vehicle's deceleration rate, which helps to further lessen the force of impact.

- sheet aluminum
- extruded aluminum
- ultra-high-strength steel
- cold-formed steel

Get in touch with your inner techie.

We believe intelligence is key to a higher form of luxury. You can see this philosophy fully represented in the available MMI® system. Simply put, it's an intuitive system that intimately connects you to almost every facet of the vehicle. It's the nerve center of your vehicle, allowing you to control virtually every interior function of your Audi with a simplified source control button system. Whether it's MMI navigation plus, or BLUETOOTH® streaming audio, MMI helps you access information with a few easy clicks. And even without it, you can pair your compatible phone with the vehicle for added convenience. With this kind of brainpower onboard, you can leave the little stuff to us, and just concentrate on how good it feels to drive.^{1,2}

MMI System

Putting your needs front and center.

SiriusXM® Satellite Radio

Go ahead. Crisscross the country. We assure you, you'll never run out of entertainment options, with over 150 channels of music, talk, sports and news.¹

Audi media

The media function opens up a world of options when equipped with the MMI navigation plus, allowing you to control the Audi music interface, Secure Digital (SD) card slots, hard disk drive (HDD) audio jukebox or DVD, and BLUETOOTH® streaming audio from a compatible device.^{1,2}

MMI navigation plus

Count on the available advanced navigation system to home in on your destination with stunning precision while putting a little more depth in your journey with help from the available Audi connect®.^{1,2}

BLUETOOTH® wireless technology

Unlock your compatible mobile phone's potential through the MMI system. Simply pair them up and start enjoying near complete control at the touch of a button.

1. See Infotainment/Technology section of the Featured Content page for important information regarding MMI® navigation plus and required SiriusXM® subscriptions. 2. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

Function buttons

Helping you navigate through the MMI system with ease are four well-placed function buttons. Each button correlates to a command at the corner of the screen and, when pressed, takes you to your desired selection.

Menu button

Choose your path of least resistance.

Back button

Takes you back to the previous screen or task.

Car button

Customize your Audi A5 through the MMI.

Tell us what you're looking for and we'll deliver you to it.

Don't reach—relax. While touchscreens are seemingly everywhere, they don't need to be in your vehicle. With available Audi connect®, you may never have to reach out again.¹ Thanks to Google Voice™ Local Search, Audi connect allows you to quickly search Google™ by simple voice commands (use only when the car is stationary).^{1,2} The crisp display is mounted farther up, closer to the windshield and near your sight line to the road ahead. For those times when you are feeling tactile, we've placed toggle buttons near the gear shifter, where your hand naturally rests when using them. So while other automobile manufacturers still want you to reach out, we've found a few ways for you to make information a lot more accessible while your hands are on the wheel.¹

SiriusXM® Traffic

Get traffic information overlaid onto available 3D satellite imagery to visualize a true aerial view of your route, and let the MMI navigation plus system reconfigure your route to help avoid traffic.^{1,3}

NEWS

News feeds

Stay on top of the news by having headlines and stories delivered right to your MMI® display.

POI

Point-of-interest

The point-of-interest search with voice control means that the digital world is with you on every journey.¹

myAudi

myAudi features

Plan travel from your personal computer. Send your desired destinations to your vehicle ahead of time and access your route from your vehicle later.¹

Mobile Wi-Fi® hotspot

Provides high-speed connectivity for up to eight passenger devices through an onboard wireless hub.¹

¹ Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. ² Voice control not available for all Cabriolet models. ³ See Infotainment/Technology section of the Featured Content page for important information regarding MMI® navigation plus and required SiriusXM® subscriptions. ⁴ Parking feature is not available everywhere and requires participation by parking provider.

Google Earth™ with 3D satellite imagery

With Google Earth™ integration, you'll enjoy 3D satellite imagery, including Google Maps Street View, displayed right on the MMI display.¹

Weather information

Current local conditions and forecasts for your destination can help you prepare for your trip.¹

Google Voice™ Local Search

Simply tell your Audi what you are in the mood for, then let the cloud-processing power of Google™ speech recognition interpret your request and bring up a list of destinations in the area of your choice.^{1,2}

Google Maps Street View

With Google Maps Street View, your vehicle can show you a driver's-eye view of your destination right before you arrive so it's easy to recognize.¹

Parking information

Search for parking in your area of interest, check space availability and set your selection as a destination to help navigate directly to the garage entrance.^{1,4}

City events

Get information about current events, exciting locations and places of interest at your travel destination, current location or other chosen location instantly.¹

Travel info

Discover local landmarks in your area of interest, set them as your destinations, and let your vehicle lead the way as you explore the world around you.¹

Sound

Audi is Latin for “listen,” so you know we take sound very seriously.

52 Hz

Low note on a kick drum

True bass tones are something you feel more than hear, and when a kick drum hits you with a frequency of 52 Hz, you definitely feel it. Knowing this, Audi sound engineers worked to reproduce sounds at this level for an exceptionally realistic experience.

2,093 Hz

High note on a piano

Even at a frequency of 2,093 Hz, the equivalent of the double high C note found on a piano, the sound system clearly and effortlessly reproduces the sound, giving you front row seats to every symphony.

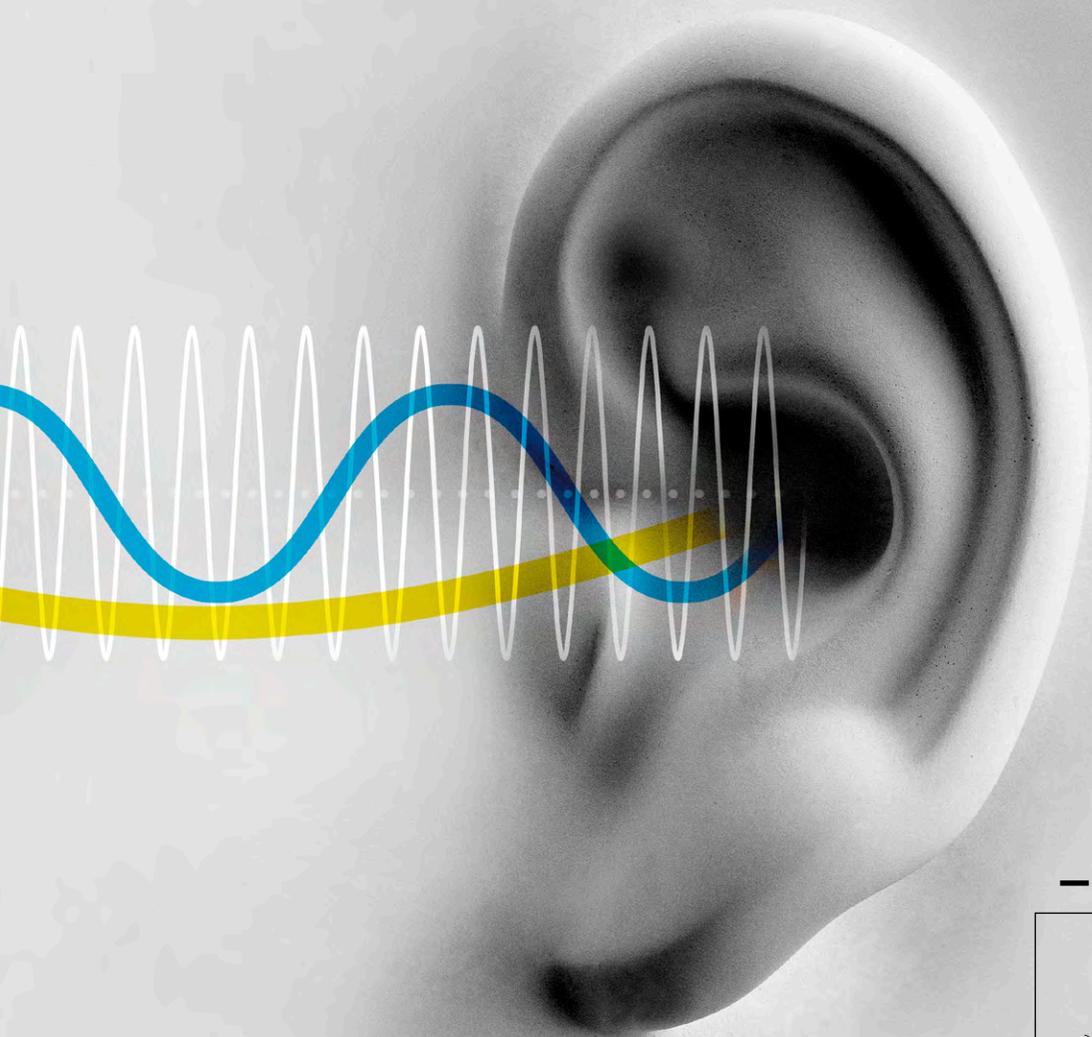

Lend us your ear.

It's been said that people only hear what they want to. That what they don't like just goes in one ear and out the other. Well, for those people and everyone else, we've created a sound system that makes every note worthy of your eardrum's full attention. From perfectly sculpted high notes to a crystal clear mid-range to deep-diving lows, the available Bang & Olufsen® Sound System is a veritable orchestra of engineering that fills the cabin with faithfully rendered, thrilling sound. Which shouldn't be surprising at all, considering that Bang & Olufsen® and Audi sound engineers worked tirelessly to craft a perfect acoustic environment, and the ideal delivery system for it. So whether you're the type that wants to be soothed by sound or the type that wants to be inspired by it, we promise, if you take a moment to listen, that what you'll hear will be utterly impossible to ignore.

261 Hz

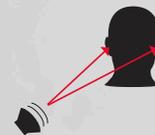

Singing middle C

At a frequency of around 261 Hz, you'll find middle C. It is around this frequency that much of the brilliantly orchestrated sound is reproduced by the numerous, strategically placed speakers.

Bang & Olufsen® Sound System

Dedicated to the idea of “honest music reproduction,” Bang & Olufsen® is a sound engineer’s dream. Through an available 505-watt system perfectly integrated within your Audi, Bang & Olufsen® is set on transcending the limits of audio technology. By automatically adjusting volume and timbre balance to changing ambient noise levels and offering richly tuned acoustics, you’ll hear the truth about how good life can sound in your Audi.

Unlike with high-frequency sounds, the brain cannot detect where low bass frequencies are coming from, making it seem as if the sound is hitting both ears at the same time. Because of this, Bang & Olufsen® sound engineers only had to design one custom-fitted subwoofer to reproduce the kind of deep, cabin-filling bass that brings music to life.

S5

ENGINE // 3.0-liter supercharged TFSI® V6 engine developing 333 hp and 325 lb-ft of torque

DRIVETRAIN // quattro® all-wheel drive, available sport differential, six-speed manual transmission (Coupe only) or an available seven-speed S tronic® dual-clutch transmission

CHASSIS // S5 tuned sport suspension calibration, Audi drive select and available dynamic steering

BRAKES // 13.6" ventilated front disc brakes with S5 logo, 13.0" ventilated rear disc brakes

PERFORMANCE // Top track speed of 155 mph¹; acceleration from 0 to 60 mph in 4.9 seconds (Coupe) and 5.3 seconds (Cabriolet)

¹ Top track speed is electronically limited in the U.S. Always obey all speed and traffic laws. ² Always obey all speed and traffic laws.

Performance as nimble as the thinking behind it.

While the Audi A5 may be everything the devotee of the authentic coupe requires, sometimes even a purist yearns for a little bit more. A supercharged 3.0-liter TFSI® V6 engine sits comfortably under the hood of the Audi S5, producing 333 horsepower and an exhilarating 325 lb-ft of torque, to propel the S5 Coupe to 60 mph in just 4.9 seconds². Experience the heart and soul of Audi performance cars through the sport-tuned suspension that is ready for the street or the track. While most automotive manufacturers want you to upgrade your engine with after-market tricks, we developed a line of vehicles that require only your enthusiasm.

 **Audi Sport**
Truth in Engineering

The story doesn't stop here. There's more on the full range of S, RS, and R8 Audi performance models in the **2015 Audi Sport brochure**. See your dealer or go to audiusa.com for details.

Premium

A5 Coupe and Cabriolet Premium featured highlights

- ▶ Singleframe® grille
- ▶ Xenon plus headlights with LED daytime running lights
- ▶ Automatic headlights
- ▶ Front fog lights
- ▶ LED taillights and rear fog lights
- ▶ Power-adjustable heated exterior side mirrors
- ▶ LED turn indicator lights integrated into the exterior side mirrors
- ▶ Heated windshield washer nozzles
- ▶ Aluminum trim around exterior windows (windshield frame on Cabriolet)
- ▶ Dual exhaust outlets
- ▶ Three-zone automatic climate control
- ▶ Three-spoke multifunction steering wheel
- ▶ Tilt and telescopic manually adjustable steering column
- ▶ Illuminated locking glove compartment
- ▶ Leather-wrapped shift knob
- ▶ Folding and sliding front center armrest with height adjustment
- ▶ Aluminum door sill inlays
- ▶ Front and rear footwell LED lighting
- ▶ Ambient LED interior lighting
- ▶ Power windows with one-touch up/down operation and pinch protection
- ▶ Panoramic tilting sunroof (Coupe)
- ▶ Acoustic folding roof—folds at speeds up to 31 mph (Cabriolet)
- ▶ Leather seating surfaces
- ▶ Ten-way power front seats and four-way power lumbar adjustment for driver
- ▶ Split folding rear seatbacks
- ▶ Audi concert radio with ten speakers and single CD player with MP3 playback capability
- ▶ SiriusXM® Satellite Radio with 90-day trial subscription¹
- ▶ SD card slot with 32GB operating capacity (dual slots if equipped with MMI® navigation plus)²
- ▶ Audi music interface with iPod® integration
- ▶ BLUETOOTH® wireless technology preparation for mobile phone³
- ▶ Garage door opener (HomeLink®)
- ▶ Cruise control with coast, resume and accelerate features

Available packages and stand-alone options

- ▶ MMI® navigation plus package
- ▶ 18" 5-arm dynamic design wheels
- ▶ Heated front seats
- ▶ Dark Brown Walnut Wood decorative inlays
- ▶ Fine Grain Ash Natural Brown Wood decorative inlays

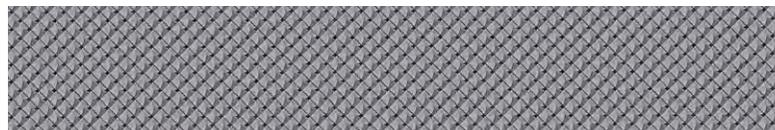

Panoramic tilting sunroof (Coupe)

LED taillights and rear fog lights

Xenon plus headlights with LED daytime running lights

Aluminum Trigon decorative inlays

18" 10-spoke Audi exclusive design wheels with 245/40 all-season tires⁴

Garage door opener (HomeLink[®])

¹ SiriusXM[®] Satellite Radio and Traffic subscriptions sold separately or as a package after trial expires. SiriusXM[®] Traffic service available in select markets. Subscriptions are governed by SiriusXM[®] Customer Agreement (see www.siriusxm.com) and are continuous until you call SiriusXM[®] to cancel. SiriusXM[®] U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations). ² MMI[®] navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI[®] navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. ³ Requires compatible device. ⁴ High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy or icy weather, you should equip your vehicle with four all-season or winter tires, which offer better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. High-performance tires also have a lower aspect ratio that aids performance and handling. Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires, vehicle body and suspension parts. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Please also remember when making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than others. Finally, these tires may wear more quickly than other choices. It is important that the inflation pressure is regularly checked and maintained at recommended levels.

Premium Plus

The following highlighted features of the A5 Coupe and Cabriolet Premium Plus add to or replace the highlighted features of the A5 Coupe and Cabriolet Premium

- ▶ Power-adjustable, auto-dimming, heated exterior side mirrors with memory
- ▶ S line® exterior appearance

- ▶ 19" 10-spoke design wheels
- ▶ Bang & Olufsen Sound System with 14 speakers and 505 watts (12 speakers on Cabriolet)
- ▶ Dark Brown Walnut Wood decorative inlays
- ▶ Fine Grain Ash Natural Brown Wood decorative inlays

MMI® navigation plus with voice control system¹ (voice control not available on Cabriolet)

Parking system with rear acoustic parking sensors

Parking system with rear view camera

Aluminum Trigon decorative inlays

18" 10-spoke Audi exclusive design wheels with 245/40 all-season tires⁶

Adaptive xenon plus headlights with LED daytime running lights

Bang & Olufsen® Sound System with 14 speakers and 505 watts (12 speakers on Cabriolet)

Audi connect® with Google Earth™ mapping service²

Audi side assist

1. MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. 2. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. 3. SiriusXM® Satellite Radio and Traffic subscriptions sold separately or as a package after trial expires. SiriusXM® Traffic service available in select markets. Subscriptions are governed by SiriusXM® Customer Agreement (see www.siriusxm.com) and are continuous until you call SiriusXM® to cancel. SiriusXM® U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations). 4. Requires compatible device. 5. Delayed availability. 6. High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy or icy weather, you should equip your vehicle with four all-season or winter tires, which offer better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. High-performance tires also have a lower aspect ratio that aids performance and handling. Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires, vehicle body and suspension parts. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Please also remember when making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than others. Finally, these tires may wear more quickly than other choices. It is important that the inflation pressure is regularly checked and maintained at recommended levels.

Packages

Analogous to the progressive nature in which all our vehicles are engineered are the technologies and offerings available in a variety of packages to enhance the experience of driving an Audi vehicle. To prove that luxury has progressed, we invite you to explore the package that best outfits your Audi A5.

¹ MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. ² Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. ³ SiriusXM® Satellite Radio and Traffic subscriptions sold separately or as a package after trial expires. SiriusXM® Traffic service available in select markets. Subscriptions are governed by SiriusXM® Customer Agreement (see www.siriusxm.com) and are continuous until you call SiriusXM® to cancel. SiriusXM® U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations). ⁴ Requires compatible device. ⁵ Some Audi models are equipped with a keyless ignition feature. The details as to how the system works can vary, and Audi owners should consult their owner's literature or an authorized Audi dealer if they have further questions about the operation of this feature. Please note that Audi warns against leaving the vehicle unattended with the engine running, particularly in enclosed spaces. ⁶ Always obey all speed and traffic laws.

The new method behind cool.

We've never felt the need to "compete," but we don't shy away from a challenge either. While we've designed vehicles for the racetrack, we know that sometimes you want the racetrack feel without the need for a pit crew to manage your daily commute. This is part of why we developed the available S line® Competition package. The S line Competition package's already aggressive appearance is accented by Gloss Black exterior side mirror housings, side sills and rear diffuser surround. Inside, you'll find Black leather/Perforated Alcantara® seating surfaces embossed with the S line logo and available S line Competition package exclusive aluminum manual shift knob. You'll feel strapped in and ready for the green flag or the green light.⁶ So take hold and get ready to receive the attention of passers-by and fellow commuters alike.

Accessories

Add distinction, versatility and the ultimate in self-expression with Audi Genuine Accessories. Whether you load the cargo carrier with climbing gear or add a set of stylish new wheels, we have the accessories that will help enhance every facet of your lifestyle. When purchased from an authorized dealer, all pieces are

Compact cargo carrier

Your gear won't take up valuable trunk space with our aerodynamic carrier that offers a generous 16.95-cu-ft capacity. Size: 81" long, 30" wide, 15" high.²

Ski and snowboard rack

This rack transports your equipment to the slopes easily and securely. The standard attachment (shown) holds two sets of skis or two snowboards. A deluxe attachment is also available.^{2,3}

A5 all-weather floor mats

Deep-ribbed channeled design helps protect your vehicle's floor and carpeting from water, mud, sand and snow. Black mats are available in sets of two for front or rear. Front mats feature the A5 logo.

19" 5-arm hollow-spoke design wheels

Experience the high-performance beauty of this eye-catching design. The hollow-spoke feature results in lightweight wheels that allow for more precise handling. Shown in Black, also available in Silver or Anthracite.

19" 15-spoke design wheels

An impressive, clean drop-center deep-dish design makes these 15-spoke design wheels the perfect complement to the your A5.

Other accessories

Audi Genuine Alloy Wheels

Strike the perfect balance between breathtaking design and awe-inspiring performance with Audi Genuine Alloy Wheels. Audi experts have meticulously designed these wheels especially for each Audi model. They're engineered to the highest standards and endure rigorous testing to help ensure long-term quality. Experience eye-catching style that is yours and yours alone. Nothing enhances the bold, dynamic look of your Audi vehicle faster.

Audi TravelSpace Transport Accessories

For every season and every getaway, Audi takes you there. Never leave the necessary gear behind. Be ready for any journey with Audi TravelSpace Transport Accessories. The list includes bike racks, ski racks, a variety of water sports equipment carriers and various sizes of cargo carriers. Wherever you go, make sure everything fits with a variety of intelligent and innovative solutions. Accessories designed for your active, passionate lifestyle.

¹ Audi Genuine Accessories purchased from an authorized Audi dealer are covered for the greater of: (1) the accessory limited warranty period (12 months or 12,000 miles, whichever occurs first) from the time of purchase; or (2) the remainder of the Audi New Vehicle Limited Warranty period (4 years or 50,000 miles, whichever occurs first). See your authorized Audi dealer for details. ² All roof-rack system attachments require the base carrier bars. All attachments sold separately. ³ Recreational equipment and sporting equipment not included.

backed by your vehicle's 4-year/50,000-mile limited warranty or for 12 months/12,000 miles from the accessory purchase date, whichever is greater! If you're looking to personalize or protect the vehicle you love, we have an Audi-designed solution that works for you.

Valve stem caps

Emblazoned with the iconic Audi rings, these handsome caps complement the unique design of the wheels on your A5 or S5.

Rear wing (A5 Coupe only)

This sleek, aerodynamic appointment augments the already stylish A5 rear view.

S5 all-weather floor mats

Deep-ribbed, channeled design helps protect your vehicle's floor and carpeting from water, mud, sand and snow. Black mats are available in sets of two for front or rear. Front mats feature the Audi S5 logo.

S5 Alu-optic trim package

For the S5 Cabriolet and Coupe, the package includes two red or carbon fiber "Supercharged" fender badges, plus Aluminum-optic side sill blades that match the side mirrors and mount between the wheel wells.

Audi Genuine Electronics Accessories

The illuminating technology that graces each Audi vehicle provides the inspiration for Audi Genuine Electronics Accessories. Similarly, all of these accessories are impressively advanced and inspiring. Our audio options let you enhance your listening pleasure. Other accessory options help promote more convenient travel. All are designed and tested to help ensure compatibility with the vehicle's electrical systems, allowing you to enjoy every aspect of Audi technology with almost all your senses. Demand the best and drive with added confidence.

Audi Guard Comfort and Protection Accessories

Help protect what you love. Audi Guard Comfort and Protection Accessories offer functional, practical items that help keep your Audi in pristine condition. Choose from such useful items as trunk liners that help make clean-up quick and easy, or an easy-to-use storage cover that helps shield the vehicle. Use them all to help reduce wear and tear and keep the vehicle looking like new—inside and out. All are engineered to stringent Audi standards, so you can be assured of their quality and durability.

Audi Guard Car Care Products

Audi vehicles deserve the very best, and this is it: the only car care line specifically designed for Audi. Audi Guard Car Care Products provide gentle cleansing formulas and special tools to help give all interior and exterior surfaces the finest in cleaning and protection. Our shampoos and waxes undergo testing for cleaning performance, change in luster and material compatibility. For the ultimate in shine and sparkle, trust Audi Guard. Pristine, perfect.
