xDrive: Agility and traction –
when and where you need it.

Power or more power? **You decide.**

Give your **senses**
a workout.

Equipment | Standard

■ **Six-speed manual transmission**, standard on both the X3 2.5i and 3.0i, delivers a precise, athletic feel that's responsive to your personal driving style. This is due, in part, to the enhanced synchronization of shifts from neutral to each gear. (Shown: opt. heated seats; Sport Package; Aluminum-finish trim, Montana Leather upholstery)

■ **Power windows** include "one-touch" up/down operation for the front and "one-touch" down for the rear.

■ **BMW anti-theft AM/FM stereo/CD audio system** produces full, rich sound through hi-fi speakers. Includes Radio Data System (RDS), Auto-Store, 3-channel FM diversity antenna system; pre-wired for a BMW six-disc CD player/changer¹ and compatible with auxiliary audio input adaptor¹ for audio connection of portable music players, standard.

¹ Available as an accessory.

□ Dual-glass-panel **Panorama moonroof** features fully electric slide and lift control. Includes trap release, comfort opening/closing function, a wind deflector to help keep the wind out, and an electric sun shade to help shield cabin from excessive heat.

■ **Roof rails**, blending harmoniously with the X3's design, provide the foundation for BMW's multi-functional roof support system for convenient and safe transportation of surfboards, snowboards, skis, etc.

■ / □ **Floor tracks** are designed for use with accessory storage racks for clean, safe stowage of items in the cargo area. (std. in X3 3.0i, included in X3 2.5i Premium Package) **Luggage compartment bike rails** (sold separately as an Aftersales accessory) secure the frames after removing the front wheels. **Retractable cargo net** helps keep pets and cargo secured and safely away from the passenger area.

■ Standard □ Optional

Equipment | Standard

■ 17 x 8.0 Double Spoke (Styling 111) alloy wheels and 235/55R-17 all-season tires are standard on the X3 2.5i.

■ 17 x 8.0 Double Spoke (Styling 112) alloy wheels and 235/55R-17 all-season tires are standard on the X3 3.0i.

18" Y Spoke Composite (Styling 114) alloy wheels and performance tires can be ordered with the X3 3.0i Sport Package. In front: 18 x 8.0 wheels and 235/50R-18 tires; at the rear: 18 x 9.0 wheels and 255/45R-18 tires.¹ (opt. with X3 3.0i Sport Package; tires not recommended for use in ice and snow. Spare is a space-saver wheel and tire)

¹Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages.

The X3 3.0i Sport Package includes **Star Spoke (Styling 113) 18 x 8.0 alloy wheels and 235/50 R-18 all-season tires.** (Spare is a space-saver wheel and tire)

The X3 2.5i Sport Package includes **Star Spoke (Styling 143) 18 x 8.0 alloy wheels and 235/50 R-18 all-season tires.** (Spare is a space-saver wheel and tire)

Equipment | Safety

■ In the event of a collision, only the **airbags** that are needed are deployed. For the driver and front passenger, this includes “smart” front airbags, door-mounted side-impact airbags, and HPS (Head Protection System). For rear-seat passengers this includes HPS and optional rear side-impact airbags.

■ In the event of a severe frontal impact, **automatic safety belt tensioners** automatically tighten the lap and shoulder belts around front-seat occupants. **Always wear your safety belt and always place children in the rear seat.**

■ **Dynamic Stability Control** provides remarkable tenacity on slippery road surfaces. If the system senses over- or understeer, it modulates engine power and can apply brakes individually to help keep the vehicle under control and going in the intended direction.

■ **Dynamic Brake Control (DBC)** senses “panic” braking maneuvers, and immediately builds up maximum brake pressure. This significantly cuts down the overall braking distance. When DBC is activated, the system also deploys **Adaptive Brake Lights**, warning following drivers brake quickly.

■ **Hill Descent Control (HDC)** helps the X3 drive down steep hills without having to “ride the brake.” By pressing the HDC button, the system keeps the X3’s speed under control automatically.

□ **Xenon Adaptive Headlights** automatically swivel to follow the curves of the road. The system uses data from on-board sensors and the steering wheel angle to determine the car's direction, then adjusts the headlights accordingly, for excellent nighttime vision.

■ **BMW's door anchoring system** includes reinforcing bars with hook-like members within each door. In a serious side impact, the bars hook the door to the body, locking them together to make a more rigid passenger cell. When the pressure is released, the anchoring system is designed to disengage so that the doors can be opened (unless further damage from the impact prevents them from opening).

■ Standard □ Optional

⁹ Full Maintenance Program covers all factory-recommended maintenance, as determined by the Service Interval Indicator for 4 years or 50,000 miles, whichever comes first. Full Maintenance Program includes items that need replacement due to normal wear and tear, provided wear and tear exceeds BMW specifications. This includes items such as brake pads, brake rotors and wiper blades that are not covered by the original New SAV Limited Warranty. Any adjustments required due to normal operating conditions are also included. For exclusions and limitations, refer to the Service and Warranty Information booklet that came with your new BMW. Further information regarding the X3 SAV can be obtained from your authorized BMW SAV center or bmwusa.com/newX3.
