

CHRYSLER
CROSSFIRE

CHRYSLER

ENGINEERED BEAUTIFULLY

Discover power and control in Crossfire Coupe and Roadster. These outstanding examples of German precision and American styling offer the power of a 3.2L SOHC 18-valve V6 engine capable of propelling Crossfire to an autobahn-tested speed of 150 mph. Feel instant gratification from the street-smart combination of a performance-tuned double-wishbone front suspension and independent five-link rear suspension geometry. Channel the ensuing endorphin-rush through an available five-speed automatic AutoStick® transmission.

The unique Crossfire silhouette cuts an aggressively elegant path atop large 18x7.5-inch front and larger 19x9-inch rear aluminum alloy wheels. Inside, a twin-cockpit layout boasts manual six-way driver and four-way passenger adjustable seats in resilient cloth or available Nappa leather-trimmed surfaces. Dual Zone Semi-Automatic Temperature Controls add yet another opportunity to further indulge individual comfort.

Crossfire performance has been validated on Europe's famed Nurburgring racetrack. The art-deco design has been applauded around the world. Its rear-wheel drive and standard six-speed manual transmission make every drive memorable. Electric-powered rear spoiler, antilock brakes (ABS) with Brake Assist, Electronic Throttle Control, Electronic Stability Program (ESP), all-speed traction control and available Tire Pressure Monitoring System are fully integrated to help ensure that you are in control of virtually any driving situation.

S = Standard. P = Included in package noted in parentheses. 0 = Optional. NA = Not available.

⁽¹⁾ Electronic Stability Program (ESP): No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ⁽²⁾ Certified to the Federal Regulations that allow less forceful front air bags. Always use seat belts. Children 12 and under should always be in the front seat with the passenger air bag turned off, correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and weight. ∞infinity is a registered trademark of Harman International Industries, Inc. Sentry Key is a registered trademark of DaimlerChrysler Corporation.
