Accord Hybrid

Funny, it doesn’t feel like a model of efficiency.

You don’t have to tell anyone, but the Accord Hybrid is actually a luxury car that just happens to get economy-car mileage! Its comforts and conveniences include supple leather trim and an 8-way power driver’s seat. An automatic climate control system maintains your desired environment quietly and efficiently. The remote entry system makes for quick and easy entries and exits. And for 2006, there’s also a new power moonroof to bring sunny skies or starry nights inside. Being green never felt better.
