The most impressive Honda ever.
You can’t build a legacy by staying put. So even after countless awards and trophies, we continue to push the limits of innovation. With new turbocharged engine options and a European-inspired fastback design, the all-new Accord sets a new standard for sophistication and excitement.

Stay up to speed at facebook.com/hondaaccord

Accord Touring 2.0T shown in Radiant Red Metallic.
Accord Touring 2.0T shown in Modern Steel Metallic with Black Leather.
LED Headlights
Make a stunning first impression with LED low-beam headlights. Touring trims feature radiant, all-LED headlights.

Dual-Outlet Exhaust
The aggressive dual-outlet exhaust is accented by elegant chrome finishers (Sport, Touring and 2.0T trims).

19-Inch Alloy Wheels
Sport and Touring trims feature 19-inch alloy wheels that intensify their eye-catching presence.

Active Noise Cancellation™ (ANC)
ANC detects unwanted low-frequency noise inside the cabin and cancels it out by producing opposing sounds from the speakers.

Accord Touring 2.0T (above) shown in Radiant Red Metallic.
Accord Touring 2.0T (right) shown in Modern Steel Metallic with Black Leather.
A. Head-Up Display
Intuitive, not intrusive. The Head-Up Display shows important information such as speed, turn-by-turn directions and incoming calls (Touring).

B. 8-Inch Display Audio Touch-Screen
Touch, pinch and swipe your way through music, directions and more (Sport and above).

C. Shift-By-Wire
Go from Park to Drive with the touch of a button, while enjoying a more spacious center console (10AT trims).

D. Two-Position Memory
You and another driver can find the perfect positions for your seat when you’re behind the wheel, and lock it in with the two-position memory system (EX-L, Touring).

E. Paddle Shifters
Make a thrilling drive even more exciting with race-inspired paddle shifters (Sport with CVT, 10AT trims).

F. Wireless Phone Charger
Leave the cables at home and charge your Qi-enabled smartphone using the integrated charging pad (Touring).

G. Driver’s Seat with 12-Way Power Adjustment
The Accord provides a dozen ways to adjust your seat with pinpoint accuracy (Sport and above).
Sophistication meets efficiency.

When our flagship sedan embraces innovative hybrid technology, you get an Accord that spends less time at the pump without sacrificing performance and comfort.

Look for the all-new Accord Hybrid, arriving in early 2018.

Fast forward thinking.

Available for the first time with 1.5-liter and 2.0-liter turbocharged engines, the Accord delivers instant gratification. When mated to the new 10-speed automatic transmission (2.0T), you'll enjoy more seamless acceleration from gear to gear.

Accord Touring 2.0T shown in Platinum White Pearl.
Accord Sport shown in San Marino Red.
Collision Mitigation Braking System (CMBS)™
CMBS can help bring your Accord to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.

Road Departure Mitigation System (RDM)™
RDM can determine if you cross over detected lanes without signaling, can provide steering assistance to help you return to your lane, or provide braking to help keep from leaving the roadway entirely.

Lane Keeping Assist System (LKAS)™
With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep the Accord centered in a detected lane.

Adaptive Cruise Control (ACC)™ with Low-Speed Follow™
ACC helps you maintain a set following interval behind detected vehicles for highway driving. If the detected vehicle slows to a stop, ACC is designed to slow and stop your vehicle as well. After stopping, a tap on the throttle instructs the car to continue maintaining the desired interval.

Traffic Sign Recognition (TSR)
TSR displays speed-limit sign information to assist the driver while the vehicle is moving forward. The camera can recognize speed-limit signs and display the information on either the Driver Information Interface or, if available, the Head-Up Display.

Built for what-if.
Even the most attentive of drivers can miss things. That’s why we’ve equipped every Accord with Honda Sensing®, a full suite of safety and driver-assisitive technologies designed to assist and help protect you and your passengers.

Accord Touring 2.0T shown in Lunar Silver Metallic.
Low-Speed Follow only on CVT and 10AT trims.
At the forefront of safety.

The Accord is designed to achieve top ratings from NHTSA and IIHS. Every model comes standard with advanced safety features to assist and help protect you and your most precious cargo.

Knee Airbags
Knee airbags are designed to help properly position the driver and front passenger during a collision sufficient to deploy the front airbags* to take advantage of other vehicle safety features.

Advanced Compatibility Engineering™ (ACE™) Body Structure
The ACE body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

Vehicle Stability Assist™ (VSA®) with Traction Control
During an oversteer or understeer condition, VSA can brake individual wheels and/or reduce engine power to help restore your intended course.

Multi-Angle Rearview Camera†
See more of what’s behind you with the multi-angle rearview camera with guidelines, standard on every Accord.

Accord Touring 2.0T shown in Obsidian Blue Pearl.
Airbags inflated for display purposes. *Honda reminds you and your passengers to always wear seatbelts and appropriate child seats. Children 12 and under are safer when properly restrained in the rear seat.
†VSA is not a substitute for safe driving. It cannot correct the vehicle’s course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.
Personal touches.

Manufactured to the same strict standards as Honda vehicles, Honda Genuine Accessories are the perfect way to personalize and protect your vehicle. Please see your Honda dealer for details and a complete list of accessories.

when lane drift is detected without a turn signal in use and can apply mild steering torque to assist driver in maintaining proper lane position and/or brake pressure to slow the vehicle’s departure from a detected lane. RDM may not detect all lane markings or misidentify certain signs. Accuracy will vary based on weather and other factors. System operation affected by extreme interior heat. Driver remains responsible for complying with all traffic regulations.

DASH & CENTER CONsoles
- 3.5-inch Driver Information Center (DIC) • Audio controls • USB/Aux ports • Apple CarPlay™ • Android Auto™
