G X / N a t u r a l G a s V e h i c l e

Looking for a way to get around that doesn't rely on oil? Ideally, you'd want it to be friendlier to the environment. You would probably want its fuel to be less expensive, too. If it could save you time, then so much the better. And if it were so convenient that you'd never have to stop at gas stations – now, that would be the way to go. The fact is, you can go that way today. With the natural gas-fueled Honda Civic GX, you can have all of the above. Plus, you'll get to enjoy all the benefits of driving one of the most popular cars in America as well.

**In the world
of alternative
fuel vehicles,
there's one
clear choice.**

If you've ever sat in traffic, looking enviously at the cars **whizzing by in the carpool lane**, the Civic GX holds a special attraction. Because as an alternative-fuel vehicle, it can qualify for admission into carpool lanes in many states¹ – even with only the driver aboard. Plus, you can save a lot more than just time in the GX. Natural gas is typically less costly than an equivalent quantity of gasoline, especially at residential gas rates. And savings through available GX purchase and tax incentives² may start with a big \$4,000 federal tax credit.

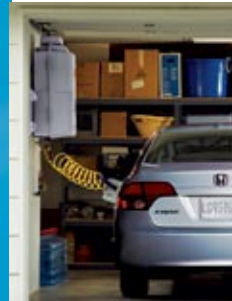

**“What makes the GX unique is its
environmental consciousness.”**

– Edmunds.com

Drive past the pump. Every time.

Energy independence is an important goal for the U.S.

And the Civic GX helps us get closer. While most oil is imported, almost all of our natural gas comes from North America. The GX is also friendlier to the planet – a fact made clear by EPA certification that showed this Civic to be the cleanest internal-combustion vehicle on Earth.³ Its lower greenhouse gas emissions make for less of an impact on global warming. And on top of all that, the GX is fun to drive, thanks to its nimble handling, a responsive 113-hp, 1.8-liter i-VTEC[®] engine and a smooth-shifting 5-speed automatic transmission.

Unless you really like the coffee, you can forget about stopping at your local gas station when driving a Civic GX. Because now there's Phill, a handy natural gas-vehicle refueling appliance that taps into your gas **supply right at home**. Plus, Phill might qualify you for more incentives,³ including a federal tax credit of \$1,000 – just another benefit of owning this unique car. Of course, the GX is all Civic at heart. So you get to enjoy spacious comfort, sleek style and easy handling. And it has all the Civic safety features, like six airbags and the highly sophisticated **Advanced Compatibility Engineering™** (ACE™) body structure – tough enough to garner a 5-star frontal crash-test rating from the U.S. government.⁴ If you'd like more details about the GX and Phill, visit your nearest Civic GX dealer. Or go online and check out civicgx.com and myphill.com now.

ENGINEERING

	GX
Engine Type	In-Line 4-Cylinder
Engine Block/Cylinder Head	Aluminum-Alloy
Displacement (cc)	1799
Horsepower @ rpm (SAE net, Rev 8/04)*	113 @ 5800
Torque (lb.-ft. @ rpm)*	109 @ 4300
Bore and Stroke (mm)	81 x 87.3
Compression Ratio	12.5:1
Valve Train	16-Valve SOHC i-VTEC®
Alternator Output	12V-90A
Battery Output	12V-36Ah (5 hr.)
