The right car. At the right time.

Electric vehicles are no longer just fuel for thought. Not when the EV is the Hyundai IONIQ 5. There, it’s real for action - inspired by a fresh, highly functional design that turns heads all over the world. The 2022 IONIQ 5 was named 2022 World Car of the Year by a panel of over 50 international journalists from in the U.S., Australia, named IONIQ 5 the Best New Car of 2022. Now, it’s your turn to make IONIQ 5 the car of your year.

The first Hyundai engineered to be entirely all-electric, the IONIQ 5 combines what the EV has become: ultra-modern design, ultra-fast charging, innovative cabin space and exceptional performance. With its pure-inspired light clusters, streamlined hood and automatically extending door handles, this beauty lets you know IONIQ 5 is like nothing else on the road. Uniquely modern, the design suggests a new electric era is beginning - and with it, an entirely new series of all-electric vehicles from Hyundai.

IONIQ 5 uses technologies that optimize your precious time. It’s one of the few electric vehicles that can take advantages of a 350 kW DC Fast Charger, which can bring your battery from 0 to 80% in just 35 minutes. A full charge can deliver over 300 miles of range - making trips to your friendly campsite a little less remote. Want to bring some creatures into your life? The 2022 IONIQ 5 has a built-in wireless charger and accessory external adapter let you power all 12V’s, in-car, laptop and bike machines simply by plugging into your car.

Thanks to its purpose-built electric platform, IONIQ 5 also optimizes the amount of room inside the cabin. Not having a gas-powered floor means a longer wheelspace with a lower roof, opening up the interior to generous amounts of space. Deep boot, and it’s not too far from the flatbed dashboard and center stack - along with an available sliding center console and wireless charging pad - gives you more freedom. And isn’t that what energy independence is all about?
Goodbye pump. Hello plug. Problem solved.

Drive smarter. Drive safer.

Your INFINITI’s looking out for your safety in countless ways. Then again, some of the ways can be invisible. Like the six airbags located throughout the cabin. And the suite of advanced SmartSense safety features that use cameras, radar sensors and ultrasound sensors to monitor your surroundings from nearly every angle.

And when a standard Rear Cross Traffic Collision Avoidance Assist® and available features like Remote Emergency Braking Assist® and a Surround View Monitor® help navigate your parking maneuvers. Or, the Highway, Blind Spot and Cross Traffic Collision Avoidance Assist® is enhanced by an available Blind Spot Snow Monitor that displays live video in the instrument cluster from either side of the car.

The innovation doesn’t stop there. INFINITI’s Highway Driving Assist (HDA) helps your cruise control maintain a safe distance from the vehicle directly in front of you, automatically adjusts your cruise speed and reduces your speed as you approach curves in the road. Available 4WD is achievements respond to winter’s that fall like gentle as low speeds and vehicles that drive too close in the adjacent lane, it can even assist in making lane changes.

2022 INFINITI INFINITI Q30 built after December 2021

INFINITI Q50 gets your commuting costs under control with a 2.0L Turbo Rear Wheel Drive powertrain that includes a combined 20 mpg city rating. Want more power without it? You got it. All Wheel Drive, and the 400-hp V6 if that’s your speed craving from a 3.5L V6 dual motor system. Pushes your line or a passing lane. You can also choose from four driving modes (ECO, Normal, Sport or Snow) to suit your mood and driving conditions. The speed of its charging is just as impressive. Plug into a 360 kW DC Fast Charger for 5 minutes, and you’ll add up to 48 miles to your driving range. Enter a recognized DC fast charging station into the navigation system as your destination, and a battery pre-conditioning feature can automatically warm up the battery for quicker recharging in all weather conditions.

An available Premium Head-Up Display with Augmented Reality lets you track driving while and navigation on a glance, have some recreational easy you want to bring along for the ride? No problem, thanks to INFINITI’s 16.0-inch touchscreen unit. And here’s something else to help you go the distance: The INFINITI Li-ion battery system comes with a warranty of 10 years or 150,000 miles, whichever occurs first.

INFINITI SmartSense Technologies

- Highway Driving Assist
- High Beam Assist
- Lane Following Assist
- Lane Keeping Assist
- Front Collision-Cross Traffic Collision Avoidance Assist with Pedestrian and Cyclist Detection

Surround View Monitor
Blind Spot Snow Monitor
Rear Cross Traffic Collision Avoidance Assist

In allusion to safety, the INFINITI Q50 is equipped with several advanced safety features. The available ProPILOT 2.0 system allows for hands-free operation, keeping the driver engaged and the vehicle in control. The vehicle also features automatic emergency braking, lane departure warning, and a 360-degree camera system for added safety and convenience. The INFINITI Q50 is designed to provide a smooth and enjoyable driving experience while ensuring the safety of its occupants.
So much room. So little clutter.

IONIQ 5’s flat floor creates so much interior space, it almost feels like you’re sitting in your living room. In fact, IONIQ 5 has more room for you and your passengers to spread out than any vehicle in its class. Along with more passenger space, there’s more cargo room. And enough space on the floor for two 15.7” high-definition display screens – one for the instrument cluster, the other for navigation and entertainment.

But what’s impressive without comfort? Check out the staple feel of IONIQ 5’s SEL and Limited in Ti-Tau™. Matte-black trimmed seating, leather-wrapped seats, and found innovative ways to help you relax. The driver seat is available with a relaxing vibration function that supports your legs while you rest. The front seat design is shown to allow more space for 2nd-row passengers. Those 2nd-row seats feature welding seatbacks and side rail – or fold down to cosmetically increase space. Dual USB charging ports and an available vehicle-to-vehicle (V2V) two-way charger beneath the 2nd-row seats ensure power is available throughout the car for your digital devices and larger electronic items.

Between the front seats, IONIQ 5’s center console is like a floating island. To create more freedom of access, there’s an available sliding feature that moves it back and forth. The center armrest’s lip surface also opens to reveal storage tray and space for stored accessories in a larger storage compartment – perfect for handbags. Dual cupholders and an available wireless charging pad offer added convenience, while an available glass Vision Roof expands your view of spaciousness.

Turns out the key to happiness isn’t actually a key. It’s an app.

What Hyundai offers its owners goes beyond our award-winning vehicles. It also includes BLUETOOTH®, a range of innovative technologies that enable remarkable connectivity between you and your IONIQ®.

With the Hyundai app, you can remotely start your IONIQ® and adjust climate controls from your office or wherever you are using your smartphone, Amazon Echo® or Google Home™ virtual assistant! Even if you are miles away from your vehicle, you can check to see if you’ve left your keys or ignition switch on by controlling your smartphone.

Download the available Hyundai Digital Key app to your compatible Android™ smartphone, and use it to unlock the doors and turn on your vehicle. You can also assign digital keys to multiple drivers, who can independently retrieve their personalized radio presets, instrument cluster display preferences and other seat settings.

Every IONIQ® comes standard with Apple CarPlay® and Android Auto™ and you can now connect two phones to the audio system simultaneously via Bluetooth® streaming! Need to know: you can easily keep your digital display powered up, too. A wireless charging pad is available, and the USB-A ports (up front and two in the 2nd row) are standard.

Automatic Emergency Assistance

Hyundai Connected Care offers 24/7/365 Emergency Assistance as well as Automatic Collision Notification (ACN). If a serious collision occurs, the system sends a message to the Hyundai Connected Services Center. The Center monitors the call to determine if someone is in distress, then will contact a local emergency service if someone is not able to hang up. This service is available in the US, Canada and Puerto Rico. Please see the Owner's Manual for complete details and limitations.

Remote Charge Access

You can control your IONIQ®’s charging remotely if it is plugged into an external power source, or from your smartphone if it is not. You can also view specifics times to take advantage of lower energy rates and rates.

Remote Vehicle Status

Monitor how much charge your vehicle has, whether it is charging or has stopped, how far the vehicle has driven, and what your vehicle’s miles per gallon (MPG) is. You can even view your vehicle’s current status online or from your smartphone.

Destination Send-in-Car

Send your smartphone to find a destination nearby. This can be done online or from your smartphone directly in the console. The destination is displayed on the smartphone and then sent to your vehicle.

Remote Vehicle Controls

Use your smartphone to lock, unlock or remotely start your IONIQ®. You can also control vehicle’s climate temperature and more.

Remote Climate Controls

Locking your IONIQ® when connected to a power source means better security. Avoid leaving any sensitive information, such as keys or personal documents, in your vehicle. Please note: the Remote climate control cannot control the cabin temperature while your vehicle is off.
### IONIQ 5 SE

**Single-Motor Rear-Wheel Drive Dual Motor All-Wheel Drive**

- **12.3˝ digital instrument cluster display**
