When we first launched the Kona, we took North American SUV of the Year honors. And when the Kona Electric came out last year, it won a 2020 Best Buy Award from Kelley Blue Book’s KBB.com. Look at the way we’ve updated Kona for 2022, and it’s clear we have no intention of relinquishing our podium position.

Our designers have refined Kona, made it edgier. Candy-colored wheels and lighting elements are highlighted and enhanced. Kona now offers more features and an updated interior with more space for the first time.

Hyundai’s signature front grille now makes Kona a larger presence. Displays and added more intelligence to SmartSense, our suite of advanced safety features. For 2022, there’s also a new addition to the lineup — the Kona N Line.

With design details inspired by the competition cars of Hyundai Motorsports, the N Line looks like it’s rising even when standing still.

As the driver, you’ll feel a sense of command and control, thanks to Kona’s high seating position and tight turning radius. Nimbly in urban traffic and tight turning spaces, Kona’s short wheelbase makes for easy access in tight spaces. And with the stability of All-Wheel Drive, you have the help you added traction to keep you moving confidently.

What kind of power you’ll command is up to you. Kona offers a choice of fuel-efficient gas or turbocharged Kia-Electric, our first all-electric SUV, has a 293-mile range on a full charge. So there can be plenty of venturing to every adventure.
Any time is go time.

Kona is big on making personal space more personal. With the MyHyundai app downloaded to your compatible smartphone, you can remotely start your Kona from wherever you happen to be. And with the Hyundai Digital Key now available on Kona, unlocking the doors is as easy as touching your compatible phone to the door handle.

Settle into the high seat position and dial in the support of an available 8-way power driver seat with power lumbar adjustment. Open the available power sunroof and soak up the Kona with light. You’ll love what Hyundai Design has done to the lines. Amululated dashboard with the availability of a 10.25" touchscreen display and smart button with USB port and a available 10.25" navigation touchscreen display expand that capability with a single-screen display. Advanced lane guidance and rear view camera with dynamic voice recognition that delivers a seamless driving experience.

Kona’s Silhouette interior is offered with a premium audio system from Harman Kardon®. Need a flexible space plan for both passengers and cargo? The 40/60 split fold-flat rear seatbacks create lots of options, while a dual-level cargo floor helps keep things neatly organized. No matter how you get from here to there, Kona makes the journey rewarding.
An art form. In three forms.

With Kia, performance is an art expressed in three unique ways. There’s the smooth, quiet power of a four-cylinder 2.6L, aluminum-GDI花瓣式 engine paired with a new advanced Variable Transmission, or a turbocharged 1.6L, SmartStream engine and 7-speed EcoShift™ Dual-Clutch Transmission that yield 30% horsepower for Kona Electric and 446% efficiency.

If you’d rather plug and play, there’s Kia Seltos: a 1.6L battery-powered motor home that offers instant acceleration with zero-tailpipe emissions. Using a 100kW fast charger, Kia Seltos can go from 0% to 80% charge in around 47 minutes. It even does some recharging while you drive—clutching wheel paddles let you control your level of reactive braking. And with the Smart Cruise Control system, you can adjust your speed automatically when slower traffic is located.

On Kona Air and Kona Electric models, a multi-link rear suspension helps achieve precise pinpointing responses and smooth handling. Kona and Kona Electric also feature Kia’s SportTraction™ Brake Assist System with Brake Control, which is available to adjust your speed automatically when slower traffic is located.

Equipped with a complete stop and re-engage—without driver input!

Downhill Brake Control brings capability to the tricky task of saving your Kona down a steep incline. Every Kona model also features a Rear View Monitor with Parking Guidance that makes parallel parking own effortless. Here that is an art form.

Upgrade your travel protection.

Hyundai offers the peace of mind that comes with Hyundai SmartSense. Your back, front, and flanks are monitored for potential hazards as you drive. A few examples: Driver Attention Warning analyzes your driving patterns and issues an alert if it detects driver fatigue or inattention. In Coach's term, Lane Following Assist technology can and out to help keep your vehicle centered in its lane. Forward Collision-Avoidance Assist wants you when a pedestrian or a left-turning vehicle is in your path, automatically braking if necessary to help avoid a potential collision. And while most other cars reserve the latest technologies for expensive select packages or higher trim levels, many of our SmartSense features are standard on every Kona model.

Highway Driving Assist
Activating your cruise control in heavy traffic helps keep you centered in your lane and makes the car do its part to help keep you safe on the road.

Lane Following Assist
Using the front-facing camera to detect objects (black box on the roof, the image below), the camera captures the surrounding lane markings, the position of the vehicle, and its speed automatically. This assists in keeping your vehicle in the lane even when you are briefly taking your hand off the steering wheel. Your Kona’s active lanekeeping system automatically applies a gentle steering intervention to help keep you in the lane.

Blind-Spot Collision-Avoidance Assist
If your Kona detects a vehicle in your blind spot while the turn signal is on, the feature alert you and automatically applies gentle braking before you change lanes to help avoid a collision. It can also alert you to vehicles in your blind spot as soon as you enter the lane helping to prevent collisions with vehicles you don’t see.

It’s easy to miss a responsibility in your lane, but when the system alerts you to a vehicle in your blind spot, the driver, or the display, the blind-spot collision avoidance system alerts you to help keep you safe. It also monitors your Kona for any possible unintended acceleration when you enter a lane, one of our many automatic emergency braking systems. If a vehicle is detected in your blind spot, the system will sound an alert, provide a visual cue, and, if you don’t react, automatically apply emergency braking.

SmartSense On The Highway

SmartSense Around Town

5-Star Overall Safety Rating

2021 Hyundai Kona

With Forward Collision-Avoidance Assist and standard Intelligent Speed Limit Assist.

S-Case Dulard Safety Rating*
It’s as digital as your life.

To keep you plugged into your digital life on the go, Kona is available with Android Auto™ compatibility for the first time. Bluelink’s app of connected care services offers security on the road—and convenience on the go.

Using the MyHyundai app on your smartphone or smartwatch—on your Apple Watch® or Google™ Pixel™ device—you can remotely unlock your Kona doors, start the engine and activate climate controls while you’re getting ready to leave. You can also receive Monthly Vehicle Health Reports and reminders for service checks, control your Kona Electric’s charging remotely, and more.

With the BlueLink Guidance package, you can tap POI Search on your smartphone to find a new restaurant or point of interest, then send driving directions to Kona’s available navigation system. Of course, BlueLink is just one of the ways Hyundai helps to make your digital life seamless.

Wireless or wireless, Apple CarPlay® and Android Auto™ sync your smartphone with your Kona’s large color touchscreen display for easy access to contacts, maps, and more—no more losing your music and navigation, your music streams and more—across the smarts of your smartphone travel with you wherever you go. Wireless device charging is also available—like these dual-port USB charging ports, you’ll wonder how you got along without it.

**KONA / KONA Electric**

KONA Limited in Cactus Fern
Hope makes every Hyundai better.

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 23 years, Hyundai Hope On Wheels has donated more than $185 million. Hope is our greatest feature. And it comes standard on every Hyundai. For more information, please visit HyundaiHopeOnWheels.org.

America’s Best Warranty

Complimentary maintenance includes Hyundai-approved oil and oil filter change (except for electric vehicles and fuel cell electric vehicles) plus tire rotation at normal factory-scheduled intervals for 3 years or 36,000 miles, whichever comes first. This offer valid only for new 2020-2022 Hyundai models purchased or leased on or after February 1, 2020. See your Hyundai dealer for further details and limitations.

Our commitment to Hyundai owners does not end with the transfer of keys. Wherever the road takes you, we’ve got your back with Hyundai Assurance, an umbrella of services and benefits that includes America’s Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features...and more.

See dealer for LIMITED WARRANTY details. Fuel economy estimated by EPA for comparison only. Mileage may vary. While the information contained in this brochure was correct at the time of printing, specifications and equipment can change. Feature comparisons based on competitor information available at the time of printing. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time without incurring obligations. Some vehicles are shown with optional equipment. Specifications apply to U.S. vehicles only. Please contact your Hyundai dealer for current vehicle specifications. As part of Hyundai’s commitment to a responsible environment, this brochure was printed using paper certified by the Forest Stewardship Council®. FSC® certification helps ensure that the highest social and environmental standards are met in the making of the paper we use, contributing to conservation, responsible management and community-level benefits for people near the forests.
