Dream big. Journey on.

If you’re the type that likes big plans, put them in motion with the 2022 Hyundai Palisade. Available in either 7- or 8-passenger models, the 3-row Palisade ensures everyone in your party has plenty of legroom, even in the back. With a towing capacity of up to 5,000 pounds1 and up to 4.6 cubic feet of usable cargo space and the availability of DCT4WD, All-Wheel Drive, Palisade is ready for almost any adventure. Equal parts comfort and control, Palisade lets you take every road with confidence. It’s also big on versatility — check out the easy three-row access offered by one-touch sliding 2nd-row seats, along with the power folding/heating seating that’s available in the 3rd row. The availability of premium features like a hands-free smart key2 ( groß), wireless device charging and seven USB charging ports is complemented by a range of Hyundai SmartSense safety technologies that allow you to enjoy safer, more secure driving. Together with generous amounts of advanced high-strength steel in its construction, Palisade creates a seal of security that helped Palisade earn one of the industry’s highest safety honors — a 2021 Top Safety Pick rating.

Adding to your peace of mind: Palisade includes America’s Best Warranty and Hyundai Complimentary Maintenance for 3 years or 36,000 miles, whichever comes first. So go ahead. Dream big and on your journey begin.
Sit pretty.

Palisade elevates the modern aesthetics of Hyundai design - literally. Take your seat inside, and the high seating position gives you a commanding view. If you’re in the driver seat, all the information you need is presented within one continuous panel. On Palisade Limited and Calligraphy, that’s a 12.3" digital instrument display front and center and 10.25" high-resolution split-screen navigation system in your right. A full-color Heads-up Display can also project crucial driving info onto the windshield for one-piece information.

Vented front seats and ventilated 2nd row captain’s chairs help extend the special treatment Palisade Limited and Calligraphy passengers enjoy. The Nappa leather trim is buttery-soft - on the Calligraphy, it extends to a distinctive quilted pattern on the door panels. There’s also an separate dual ambient that bathes the interior with natural light.

Ready to rock? An available Harman Kardon® premium audio system fills the ears with your favorite music. Quantum Logic™ Surround is included to transform your Palisade into a multi-dimensional music experience. And for crystal-clear audio, you have an eight-speaker, 350-watt audio system. Turn up the volume, and Redline Technologies’ sound-quality test in compressed digital music or streaming satellite radio are magically heard.

Take your home on the road.

Palisade is so versatile, comfortable and connected inside, it’s like you never left home. Pick a seat to suit you, then adjust and recline the top of the bench seat. Sit back and enjoy the view from the rear seat—where the view is exceptional—elevated enough to see the entire rear of the vehicle. The seats are available with ventilation and rear seat cupholder support. In back, a one-touch sliding 2nd row makes it easy to get in and out of the 3rd row. And when you want to quickly make room for cargo, Palisade is available with a 2nd row that features power fold and recline. The easy-to-feel, soft material creates a comfortable space, and together with an available hands-free smart liftgate, opens your Palisade to endless possibilities.

A conversation mirror and available Rearview in-car stereo create a way for the captain to speak to 3rd row passengers from the right seat. There’s even a feature called Rear View Mirror (RAVM) that makes the rear speakers for sleepy passengers.

The rearview mirror in the Palisade features a conversation mirror. The conversation mirror features a conversation mirror. To turn on, a rearview mirror must be in the correct position. After that, the conversation mirror will light up if it is turned on. The conversation mirror can be turned on or off using the conversation mirror switch. The conversation mirror switch is located under the rearview mirror. The conversation mirror can be turned on or off using the conversation mirror switch. The conversation mirror is a great feature for conversation between the driver and passengers in the rear seat. The conversation mirror is set to turn on automatically when the rearview mirror is in the correct position. The conversation mirror is a great feature for conversation between the driver and passengers in the rear seat. The conversation mirror is set to turn on automatically when the rearview mirror is in the correct position.
Welcome to the art of personalized performance.

With a feature called Drive Mode Selector, you can choose how your Palisade feels to drive. Want a performance hint? Simply turn the Drive Mode knob on the center console to Sport, and your Palisade responds to steering and driving resistance. Feel like taking it easy? Select Eco mode to optimize fuel efficiency. Want a smoother response? Select Comfort mode to perfectly adjust the engine, transmission and other systems to a smoother response.

Maybe you just need it easy on gas? Choose Eco mode, and your Palisade is set up for peak fuel efficiency. Driving on an uneven road? The system’s Snow mode calibrates AWD traction for entry driving conditions.

Whatever mode you choose, the power you feel pays from a smooth push-button 8-speed automatic transmission, and Innovators 3.5L GDI V6 engine that generates up to 281 horsepower with an EPA-estimated 26 MPG on the highway! The IVT/AT 3.5L Wheel Drive available with all-wheel-drive includes three-wheel Drive Control, which keeps maintenance traction when you’re descending on incline without having to press the brake pedal.

Enhance steering & throttle response

Optimize response for your style of driving

Optimize fuel efficiency

Optimize AWD traction

Level-Headed.
The all-inclusive appearance of a single fender suspension helps ensure you’re in control through sudden and quick movements. Upgrade to 28” wheels with 15-spoke design for 35-inch tires and 20” wheels, and the rear suspension includes an active-riding feature.

Wheel Sport Blue Sticker

Shift by Wire push-button gear selection
Surround yourself with safety.

Hyundai SmartSense technologies help protect you from every angle—whether you’re negotiating highways, freeways, urban junctions or winding mountain roads. Forward Collision-Avoidance Assist with Pedestrian Detection and High Beam Assist can see the road ahead and alert you when your Palisade’s sensors detect a potential collision. 

Rear Cross-Traffic Collision-Avoidance Assist helps prevent accidents when reversing and detects vehicles in the blind spot behind your Palisade. If the system determines there is a potential risk of a collision, it will warn you and apply the brakes. A Blind-Spot View Monitor helps manage traffic on the road behind you, allowing you to view traffic approaching your vehicle from the side.

Lane Following Assist with Lane Keeping Assist will help you stay in your lane by helping you steer back to your lane should you drift out of the lane. Using a camera, it can detect road markings and help you stay in your lane. With Low-Speed Forward Collision-Avoidance Assist, if the system detects a collision is likely, it will alert you and, if you do not take action, apply braking force.

Lane Change Assist will help you change lanes by monitoring traffic. If it detects another vehicle in the adjacent lane, it will alert you and provide steering assist to help you change lanes. Lane Departure Warning with Lane-Keeping Assist helps keep you in your lane by keeping your vehicle in the center of the lane. If the system detects you are drifting to the right or left, it will steer the vehicle back to the center of the lane.

Highway Driving Assist helps keep you in your lane by automatically adjusting the speed of your vehicle to match the speed of the vehicle in front of you. The system also helps you maintain a safe distance from the vehicle in front by automatically adjusting the distance.

With rear camera, see inside your vehicle through your smartphone. When parked, your Palisade’s rear camera allows you to see inside your Palisade as well as behind it. The camera also monitors the area behind your vehicle and the rear view is displayed on the infotainment screen when you shift into reverse. If there is a person, vehicle or object detected, it will display a warning on the screen.

Blind-Spot View Monitor helps you see what’s behind you when it’s too dark to see. A camera on the rear of your vehicle monitors the area behind you, from your side mirror to the rear door. The system will alert you if it detects a vehicle in your blind spot and help keep you safe.

Staying connected starts with Hyundai BlueLink.

Think of your Palisade as an extension of your digital life. The Hyundai BlueLink™ turns your smartphone into a sophisticated remote control. By downloading the free Hyundai Bluelink app, your smartphone can control your Palisade's doors, start the engine— even choose the seat temperature— before you walk out the door!

BlueLink helps you search, download, and navigate to addresses and points of interest using voice commands with Palisade's available navigation system, on your smartphone before entering your Palisade. The 10.25-inch touchscreen navigation display features a split-screen that lets you view maps and make audio calls, junction view lane guidance and subscription-free traffic flow and incident data helps direct the stresses of your commute. Finally, BlueLink Connected Care. Complementary for your first three years, it offers exceptional peace of mind. Whether you're near, or far away, operators are standing by to provide emergency response assistance in the event of an accident where airbags are deployed.*

*More good news— Apple CarPlay® and Android Auto® come standard on every Palisade model! BlueLink® music streaming lets you connect two phones to the audio system simultaneously. To keep everyone powered up without the clutter of cords, Palisade is available with wireless device charging.

Automatic Emergency Notification
Bluelink Connected Care offers 24-hour Emergency assistance as well as Automatic Collision Notification—that can alert your phone in the event of an accident when your vehicle's airbags deploy.

On-Board Navigation
Run vehicle diagnostics from your smartphone's mobile app, report issues of the press of a button, and enhance identity Vehicle Locks. Locate your vehicle and receive notifications regarding status, and real-time navigation instructions.

Driver Profile Management
Save your navigation preferences, route options and speedometer preferences to your Bluelink account, and they can be remotely updated and pushed to your Palisade.

BlueLink Find-It-Now
Use your smartphone to find your vehicle, track its location, and lock out the remote start and entry system.

Remote Vehicle Controls
Use your smartphone to start your vehicle, access the door lock, and raise the rear hatch.

BlueLink Remote Start
