2022
SANTA FE
Every journey needs a little adventure. But even adventures don’t start with a plan, there’s none. Offer our award-winning Santa Fe SUV – one of the most robust vehicles of safety tech in the industry.

Add the availability of innovations like Smart Parking Assist. A digital key you can share using your smartphone. And a variety of entertainment power choices.

Next, offer the balanced performance and efficiency of an advanced gas engine. Add a Turbo powerplant with 240 metric HP, and make that you’ve traveled faster than 195 MPH. Wheels Drive available across the lineup.

Then, keep going.

For 2022, there’s a new addition to the Santa Fe lineup you call XLT, one look tells you it’s built out to take on the toughest stuff that comes your way.

For drivers who prefer trekking with a smaller carbon footprint, have’s Santa Fe Hybrid. Equipped by your efficient hybrid technology, it has a total driving range that exceeds 696 miles. For 2022, we’re also introducing a new Santa Fe Plug-in Hybrid that combines the benefits of electric and hybrid powertrain.

However, for your travels take you, you’ll look good getting there. Santa Fe’s exterior design is stunning, with a wide front grille framed by defining DRL lighting. The interior feels modern, too, thanks to features like an advanced center stack, premium soft-touch materials, and an available digital instrument cluster, all of which makes the new Hyundai Santa Fe the perfect way to keep you and your family on the move in style.
The source of your power is up to you.

Santa Fe offers several power choices. There are two 3.3-liter V6 gasoline engines – a 191-hp 6-cylinder with an 8-speed automatic transmission, and a turbocharged 201-hp engine with a dual-clutch 7-speed Shiftronic™. Santa Fe Hybrid pairs a turbocharged 1.6-liter engine with an electric motor to produce 201 horsepower. A high-voltage lithium-ion battery pack helps deliver power with an EPA-estimated 31 MPG city/28 highway.

Santa Fe Plug-In Hybrid combines a turbocharged 1.6-liter engine, a 12 kWh battery and a 66.4 kWh electric motor for 241 horsepower sent to all four wheels. Plug in the charger overnight, and you can travel up to 30 miles per day – 10 MPGe using only the electric battery. Imagine running around without using any gasoline.

Drive Mode Select lets you fine-tune your performance. Select Sport mode for a fun-in-the-dirt feel with more aggressive throttle response and shift points, or Comfort mode for a balance of performance and fuel efficiency. Turn the knobs to Smart, and Santa Fe selects the mode to match your driving habits. A Drive Mode Select All-Wheel Drive System for varying driving conditions.

Santa Fe features a trailer prep package and towing capacity of up to 5,000 pounds. Santa Fe (Hybrid and Plug-In Hybrid) both offer a new rating of up to 2,000 pounds. Each includes Trailer Sway Control, which can automatically apply braking to reduce engine power to stabilize your Santa Fe if trailer sway is detected.

It's edgy, but with all the edges refined.

Ready to make the most of your future? So is Santa Fe. We filled it with refined features that make each journey smooth and easy. In a Santa Fe SUV, the good times start the moment you slide open the panoramic sunroof. Get comfortable with seat back luminizers that reduce glare. Get entertained with the premium sound system. Get productive with an all-new 10.25" center touch screen and driver seat with four-way power lumbar and a power seat cushion extension.

You can fill your Santa Fe’s cabin with the sound of your favorite music. What you hear from it available 12-speaker Harman Kardon® premium audio system is rich and powerful, each note technically pitch perfect thanks to Quantum Logic Surround.

Dynamic Voice Recognition lets you use the voice of your voice to scroll through entertainment features on your Santa Fe’s available 10.25” split-screen navigation display. Navigating crowded parking lots is just as easy, thanks to an available Surround View Monitor® and Rearview Smart Parking Assist. Just press a button on your smart key, and Santa Fe will see in and out of tight parking spaces— even when you’re behind the wheel. Now that’s remote control.

Of course, Santa Fe knows versatile SUV capabilities are must-haves on your list. Its 60/40 split-rear seat fold-flat is to create a huge cargo space that’s easy to load with gear, thanks to a handle-free smart liftgate.

SANTA FE California: a coupe-like shape, Nappa Leather.
Blind-Spot Collision-Avoidance Assist
If your Santa Fe detects a vehicle in your blind spot while your turn signal is on, it emits the blip and sound alerts to help you avoid a collision. An available Blind-Spot View Monitor displays video from the side-view cameras in your instrument cluster.

Lane Following Assist
Using the four front cameras to detect lane markers on the road, this feature provides subtle steering corrections to help keep you centered in your lane. To use this feature, simply turn on your turn signal. If your Santa Fe has activated lane keeping assist, your steering wheel will嗡嗡作响 while you maintain your current lane position.

Highway Driving Assist
This available feature uses your speed on the highway to help keep you centered in your lane while maintaining a set cruising speed and distance from the vehicle in front. It’s compatible with your current cruise control and also includes an available Lane Keeping Assist feature. If you have a collision with another vehicle, it can help keep you centered in your lane and avoid a collision.

Roadside Emergency Assist
If you experience a roadside emergency, your Santa Fe can automatically call for assistance by sending your location and other details directly to emergency services. This feature can help ensure a quick response and get you the help you need when you need it most.

5-Star Overall Safety Rating
The Santa Fe’s excellent crashworthiness and advanced safety technologies, including its Forward Collision-Avoidance-Assist, Lane Following Assist, and Blind-Spot Collision-Avoidance Assist, contribute to its 5-star overall safety rating.

Forward Collision-Avoidance Assist
When your Santa Fe’s forward camera or radar detects a vehicle in your path, it applies the brakes automatically to help avoid a collision or reduce the impact speed.

Blind-Spot View Monitor
This available feature displays video from the side-view cameras in your instrument cluster to help you avoid blind spots.

Highway Driving Assist
This feature helps keep your Santa Fe centered on the highway and maintains a set speed and distance from the vehicle in front. It uses navigation data to automatically adjust for changing speed limits and reduce your speed when you approach a curve in the road.

Lane Following Assist
Using the four front cameras to detect lane markers on the road, this feature provides subtle steering corrections to help keep you centered in your lane. To use this feature, simply turn on your turn signal. If your Santa Fe has activated lane keeping assist, your steering wheel will嗡嗡作响 while you maintain your current lane position.

Turns out the key to happiness isn’t actually a key. It’s an app.

What Hyundai offers its owners goes beyond our award-winning vehicles. It also includes BlueLink®, a range of innovative technologies that enable remarkable connectivity between you and your Santa Fe.

With the MyHyundai app, you can start your Santa Fe remotely and adjust the climate controls from your office or kitchen using your smartphone. Amazon Alexa® or Google Home™ virtual assistant? You can also remotely activate front seat heating or ventilation, and check to see if you left a window open by controlling your smartphone!

Download the Hyundai Digital Key to your compatible Android™ smartphone, and you can use it to unlock the front doors and start your Santa Fe’s engine. You can also assign digital keys to multiple drivers, who can instantly review their personalized audio preset, instrument cluster display preferences and side mirror/moonroof settings!

Every Santa Fe comes standard with wired or wireless Apple CarPlay® and Android Auto™, and you can now connect two phones to the audio system simultaneously via Bluetooth® streaming! Good to know you can easily keep your digital devices powered up, i.e. A wireless charging pad is available, and door front and rear USB charging ports are standard.

Complimentary maintenance includes Hyundai-approved oil and oil filter change (except for electric vehicles and fuel cell electric vehicles) plus tire rotation at normal factory-scheduled maintenance intervals for 3 years or 36,000 miles, whichever comes first. More frequent maintenance due to severe driving or conditions is excluded. Offer valid only for new 2020-2022 Hyundai models purchased or leased on or after February 1, 2020. See your Hyundai dealer for further details and limitations.

Our commitment to Hyundai owners does not end with the transfer of keys. Wherever the road takes you, we've got your back with Owner Assurance, an umbrella of services and benefits that includes America's Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features...and more.

America's Best Warranty covers specific hybrid/electric vehicle-related components including high voltage battery, battery management system and traction motor. See Owner's Handbook & Warranty Information Booklet for details. See dealer for LIMITED WARRANTY details. Fuel economy estimated by EPA for comparison only. Mileage may vary. While the information contained in this brochure was correct at the time of printing, specifications and equipment can change. Feature comparisons based on competitor information available at the time of printing. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time without incurring obligations. Some vehicles are shown with optional equipment. Specifications apply to U.S. vehicles only. Please contact your Hyundai dealer for current vehicle specifications. As part of Hyundai's commitment to a responsible environment, this brochure was printed using paper certified by the Forest Stewardship Council®. FSC® certification helps ensure that the highest social and environmental standards are met in the making of the paper we use, contributing to conservation, responsible management and community-level benefits for people near the forests.
