2023
SANTA FE
Make our award-winning SUV your prized possession.

What’s the best SUV to buy? Your search for answers has led you here to the 2023 Hyundai Santa Fe. And you’re not alone. Experts who test new cars for a living have arrived at the same conclusion. Kelley Blue Book’s KBB.com named Santa Fe a 2022 Best Buy, and U.S. News & World Report ranked our 2022 Santa Fe as the Best 2-row SUV for the Money.

Then there’s the Insurance Institute for Highway Safety (IIHS), the experts in vehicle safety. Over the past seven years, Hyundai vehicles equipped with IIHS Top Safety Pick awards have had fewer than average IIHS Top Safety awards than any other brand as of September 2022. Since its introduction to the world, Santa Fe is a big reason why Hyundai has ranked 1st in customer loyalty (3 years in a row).

Once you’ve checked out Santa Fe for yourself, you’ll understand how it did so well in these evaluations. In addition to a robust suite of safety tech, Santa Fe also offers a range of power sources. It starts with the balanced performance and efficiency of a turbodiesel gas engine. If you’re ready to go all-in, the 2023 Santa Fe Hybrid delivers unmatched fuel efficiency with its sophisticated hybrid system. And if you’re ready to go all-in, the 2023 Santa Fe Hybrid delivers unmatched fuel efficiency with its sophisticated hybrid system.

So, whether you’re looking for peace of mind in the form of advanced safety features or the thrill of driving a vehicle that stands out in its class, Santa Fe has something for everyone. Learn more by contacting your local Hyundai dealer today.}

“2022 Hyundai SANTA FE is a Kelley Blue Book KBB.com Best Buy and was named Best 2-row SUV for the Money by U.S. News & World Report.”

SANTA FE Plug-in Hybrid Limited in Shimmering Silver.
Pick the power source that’s right for you.

After downgrading the Hyundai Digital Key to your compatible smartphone, you can use it to secure your Santa Fe’s front doors and start the engine. Which engine? Santa Fe offers several options: There are new Smartstream gasoline engines—a 1.6-liter turbocharged engine with 177 horsepower, or a turbocharged 2.5-liter engine with a quick-rolling 8-speed Dual Clutch Transmission.

Want your Santa Fe electrified? No problem! With plenty of torque-conquering power, standard i-TRAC AWD and selectable driving modes, Santa Fe Hybrid and Plug-in Hybrid are designed for taking on—and taking care of—the great outdoors. Santa Fe Hybrid pairs a turbocharged 1.6-liter engine with a 44.2 kWh electric motor and 6-speed automatic gearbox to produce a combined 226 hp underfoot. A high-voltage lithium-ion battery pack helps Santa Fe Hybrid Blue deliver that power with an EPA-estimated 30 MPG around town.

Looking to tow a camper, a trailer loaded with ATVs, or even a boat? Santa Fe features a heavy-duty package and towing capacity of up to 3,500 pounds. Santa Fe hybrid and Plug-in Hybrid both offer a towing rating of up to 3,500 pounds. Each includes Trailer Sway Control, which can automatically apply braking and reduce engine power to stabilize your vehicle if trailer sway is detected.
Who knew being so rugged takes such poise?

The trick to engineering so SUV is to make it tough and durable for when your adventures demand it, but also comfortable and poised when you are simply piloting around town. Thankfully, it’s a trick Hyundai engineers have perfected in Santa Fe.

It starts with a strong, rigid platform that allows Santa Fe’s multi-link rear suspension to balance precise handling with a smooth, quiet ride. And when it comes to Santa Fe Hybrid and Santa Fe Plug-in Hybrid, the high-voltage battery pack mounted under the rear creates a low center of gravity for even better handling stability.

Santa Fe’s ergonomic center console houses its Shift-by-Wire gear selector and Drive Mode Select switch that allows the driver to select a driving condition for various conditions or outcomes. Select Sport mode for a fun-to-drive feel with more aggressive throttle response and shift points, or Comfort mode for a balance of performance and fuel efficiency. Turn the SUV to Sport, and Santa Fe can re-calibrate to deliver higher levels of potential.

The hookedrive you enjoy comes from attention to acoustic details. Everything from the snug fit of door and seat cushions to the shape of the windscreen helps isolate you and your passengers from harsh road vibrations and wind turbulence. Less noise. More peace. Welcome to Santa Fe.
Treat your passengers like they’re family.

There’s the family that plays together, stays together. And what better place to play than here? For the 8th year in a row, Hyundai Santa Fe was named a Best Family Car by Kelley Blue Book’s KBB.com in 2022.

Santa Fe is your family on the go. You can assign digital keys to each driver, who can instantly activate personalized radio, power, instrument cluster display preferences and side mirror/door/seat settings by unlocking the doors with their smartphone. Dual automatic temperature control let the driver and front passenger enjoy separate temperatures with a cabin air filter offer every passenger a breath of fresh air.

In Santa Fe Limited models, you can slide open the panoramic sunroof. Unique features include heated and ventilated front seats, heated 2nd-row seats, a driver seat with four-way power lumbar, and a power driver seat cushion extension. Wake up to Santa Fe Calligraphy, and you’re treated to premium quilted Nappa leather trimmed seats.

An available 15 speaker Harman Kardon® premium audio system lets you fill the cabin with your favorite music. Each note is balanced and powerful, with enhancments of Quantum Logic Surround® You create, Santa Fe’s 360° camera has front sensors on your left as well. A hands-free power liftgate opens to a huge cargo space created by 60/40 split 2nd-row seats that fold flat. So it’s easy to load all your family adventures, too.

Hyundai SmartSense: Because you don’t actually have eyes in the back of your head.

Potential collisions may come from any direction. That’s why your Santa Fe comes with a suite of safety and driver-assist technologies that provide a nearly 360-degree view for potential hazards. It’s a fusion of cameras, sensors and radar technologies that offer expanded sensing capability of what’s around your Santa Fe. Every 2022 Santa Fe comes standard with Innovation for Forward Collision-Avoidance Assist. Lane

Hyundai SmartSense Technologies

Forward Collision-Avoidance Assist

What Santa Fe’s forward-facing camera and radar detects in your path, it helps prevent a collision. If you don’t stop in time, the system will automatically apply emergency braking.

Rear Cross-Traffic Collision-Avoidance Assist

When Santa Fe’s rear-facing camera and radar detect a vehicle in your blind spot, the system will automatically apply braking to help prevent a collision.

Safe Exit Assist! Rear Occupant Alert

After parking, Safe Exit Assist alerts you when a vehicle is detected in the approach path near your parked Santa Fe. It’s a warning that someone or something may be approaching from the rear. Minimize risk to children or other vehicle occupants who may be quickly approaching from behind your Santa Fe.

Blind-Spot Collision-Avoidance Assist

Your Santa Fe’s radar sensor detects vehicles in the blind spot on either side of your Santa Fe, even after you’ve stopped or backed up.

Lane Following Assist

By using the front view camera to detect lane markers modeled on the road, this technology provides audible and visual reminders when your Santa Fe is about to cross a lane, indicating that you should change lanes or remain in your lane. Your Hyundai Santa Fe can even detect a vehicle to the back of your Santa Fe when you’re changing lanes using its advanced lane change assist feature.

Highway Driving Assist

This system features sensors on your vehicle to help maintain a safe distance from the vehicle in front of you and adjust your speed to help keep you in your lane, even when you’re traveling at highway speeds. Safety, comfort, and peace of mind have never been so easy. Hyun
You can rough it once you get to your campsite.

Santa Fe can take you deep into the rugged outdoors, where your bare camp gets you and your own back in basics. That’s all well and good – but how you get there can be a bit more luxurious. Make your trip in Santa Fe, and your journey is filled with modern conveniences that make you to enjoy a life of ease.

Every Santa Fe comes standard with wired or wireless Apple CarPlay® and Android Auto™ and you can connect two phones to the audio system simultaneously via Bluetooth® streaming. The interior feels modern, thanks to features like an elevated center console and an available wireless charging pad. In Santa Fe Calligraphy, soft-touch padding and ambient lighting create an interior designed to pull you in the perfect frame of mind. Available rear side window sunshades for your third-row passengers help to keep you, calm, cool.

And how cool is that Dynamic Voice Recognition! It lets you converse with him commands to scroll through it. If it covers features on your Santa Fe, it’s available in Apple CarPlay’s 8.0-inch screen display. Navigating crowded parking lots is so easy, thanks to available features like a ‘Forward View Monitor’ and Rearview ‘Smart Parking Assist.’ Just press a button on your smart key, and Santa Fe can tell the in and out of tight parking spaces – even without you being in your vehicle.

Turns out the key to happiness isn’t actually a key. It’s an app.

What Hyundai offers its owners goes beyond our award-winning vehicles. It also includes BlueLink®, a range of innovative technologies that enable remarkable connectivity between you and your Santa Fe³.

With the MyHyundai app, you can use BlueLink to start your Santa Fe remotely and adjust the climate control from your office or at home via your smartphone. Amazon Alexa or Google Home™ virtual assistant? You can also remotely activate available front seat heating or ventilation, and check to see if your vehicle’s left or right turn signal is flashing.

BlueLink® Guidance lets you search, download and navigate to addresses and points of interest using voice commands with Santa Fe’s available navigation system or your smartphone before climbing behind the wheel. The fully touchscreen navigation display features a split-screen that lets you view maps and music at a glance, Submission free traffic flow and incident data via i-DRIVE™ help alleviate the stress of your commute.

Finally, there’s BlueLink® Connected Care. Complimentary for your first three years, it offers exceptional peace of mind! Whenever you need, operations are standing by to provide emergency roadside assistance in the event of an accident when your airbags are deployed. Visit HyundaiUSA.com for more information on the complete list of innovative features BlueLink® puts at your fingertips.

Automatic Emergency Assistance
BlueLink® Connected Care offers 24/7/365 Emergency Assistance as well as Automatic Collision Assistance. If you’re involved in a collision, the system will communicate with your phone to alert you of an accident and your vehicle’s telematics team will be there to help.

On-Demand Diagnostics
With your Hyundai inside the app, you’ll be able to receive vehicle maintenance notifications via MyHyundai Health Alerts by e-mail.

Data Synchronization
Share your navigation, radio presets, and device settings via your phone so you can conveniently sync up and push them to your Santa Fe³.

Remote Vehicle Controls
Use your smartphone, home assistant or wearable device to remotely start your Santa Fe³, lock and unlock your vehicle, release trunk, activate available front seat heating or ventilation, and more.

Vehicle Charging Dashboard
Use your MyHyundai app to find charging stations, view your Santa Fe³’s EV estimate, and locate charging stations or charge offsite.

Remote Vehicle Status
Wondering how much fuel is in your tank? If your vehicle’s eligible, use the app to monitor your vehicle’s fuel level. If you’re not eligible, the system will inform you whether an app update is necessary.
EPA estimates for comparison only. Actual mileage may vary based on driving conditions, driving habits, the vehicle’s condition, the age/condition of the lithium ion battery, and other factors. 4MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. Use for comparison purposes only. Mileage may vary based on driving conditions, driving habits, the vehicle’s condition, the age/condition of the lithium ion battery, and other factors.
Hope comes standard on every Hyundai.

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 24 years, Hyundai Hope On Wheels has donated more than $200 million. Hope is our greatest feature. And it comes standard on every Hyundai. For more information, please visit HyundaiHopeOnWheels.org.
