The one and only. Available three ways.

When it comes to middle sedans that excel in offering you more room, more technology and more safety, one name really stands out—Hyundai Sonata. Available in two distinct models for 2023: Sonata, Sonata Hybrid and Sonata N Line.

Each choice has bold coupe-like profile that carries the stunning shape and eye-catching details of Hyundai Design. The hood wraps to the edge seamlessly connecting to a distinctive front grille. Styles of chrome trim along the hood line, framing the dynamic Headlights that reveal themselves when illuminated. Ultra-wide tail lights accentuate the head-turning rear profile.

The Sonata Hybrid is a sedan you can trust. The sporty exterior features unique LED daytime Running Lights that retract as the car turns, adding to the overall safety and efficiency of the vehicle. The vehicle is equipped with advanced technology and features to keep you connected and informed on the road.

There’s even more to love inside Sonata. Open the door, and you instantly sense the spaciousness of class-leading front headroom and legroom. The interior design is built to provide a comfortable and enjoyable driving experience. The 10.25" Touch Screen Display is easy to navigate and offers a wide range of entertainment options.

Sonata Hybrid offers a smooth and efficient driving experience with its 1.6L GDI Turbocharged Engine and Electric Motor. This combination allows for a seamless transition between electric and gasoline power, providing a balance of performance and fuel efficiency.

Key features of the Sonata Hybrid include:
- 1.6L GDI Turbocharged Engine
- Electric Motor
- 10-speed automatic transmission
- Intelligent Drive Mode Selector
- Standard safety features like forward collision avoidance and lane keeping assist

This combination of style, performance, and technology makes the Sonata Hybrid a standout choice in the midsize sedan market.
How sporty do you want your sport sedan?

Sedona gets its nimble handling from the multi-link rear suspension that helps you carve corners with precision. An electronic push-button transmission offers fingertip control over your SmartStream engines that let you decide how sporty you want your Sedona sport sedan to feel.

On Sedona S, SXL, and SXL Premium, 2.4L engine serves up potent midrange power. Sedona SXL Plus and Limited feature a 3.5L V6 engine offering 280 horsepower and 261 lb-ft of torque and variable valve technology.

Sedona N Line goes even further. It’s turbocharged 2.5L engine churns out 241 horsepower with 219 lb-ft of torque, while steering wheel paddles shifters work a six-speed DCT Dual Clutch Transmission. You can even customize it with Kia’s digital gauge cluster, adding gauges in Performance mode or displaying specific data in Launch Control mode.

Using Drive Mode Select, you can calibrate the response of your Sedona’s steering, engine and transmission to match your priorities: ‘Favor Efficiency’ (eco), ‘Dynamic Driving’ (sport) or ‘Performance’ ( drift) (Sporty) or your individual preferences (Custom).

For unbridled rear driving, Sedona Hybrid’s electrically assisted 2.4L in-line four-cylinder engine is a 39 kWh electric motor that supplements power from its engine, meaning you get an advanced electric traction battery. It’s a combination that offers fuel savings from stop-start functionality, literally helping you get up to 22 combined MPG up to 60 MPH of all driving ranges!

Another beautiful thing about Sedona Hybrid? It has boot space, front headroom and legroom thanks to the clever packaging of its battery within the vehicle. This low-centered placement, along with a hybrid-exclusive integrated sporty design, lends Sedona Hybrid the look of a sports car. Who knew being sensible could be so fun!
Improve your climate.

Your Sonata’s interior is a sanctuary from the outside world. Adjust the climate control knobs to set the air conditioner’s auto mode to balance out one of three different climate levels you prefer. Pick a color for the ambient lighting that matches your mood, or slide open the available panoramic sunroof and enjoy the light on. Illuminating the fit and finish of your Sonata’s high-quality materials.

Now turn on the available Bose® 12-speaker audio system. Its CarPlay® Soundtrue Sound creates atmospheric effects so vivid, you’ll think you’re listening to live performances. Sonata’s audio 12-channel digital effector, which balances acoustic output across your stereo image in players, messages and more using Apple CarPlay® or Android Auto®. There’s also an available 12.3-inch multimedia navigation system with stunning true-lag graphics, subscription-free HD Radio™ “Traffic Update” and Dynamic Voice Recognition, which recognizes voice commands for a variety of content and convenience features.

Sit behind the wheel of Sonata N-Line, and you’ll settle into deeply bolstered sport seats trimmed by red contrast stitching. The driver’s seat is power-adjustable eight ways, including lumbar support. Grab the leather-wrapped steering wheel, engage Sonata N-Line’s Launch Control, and prepare for a sudden change of scenery outside of your window.

Hyundai SmartSense Technologies

Forward Collision-Avoidance Assist
When the front-facing camera and radar detect a vehicle within your path, or a vehicle you are overtaking, you will be notified of the danger. If you begin to brake, the system will support your brake effort. If you don’t respond, the system will apply the brakes to help avoid a collision.

Safe Exit Warning / Rear Occupant Alert
After you park, Safe Exit Warning or Rear Occupant Alert will notify you if there is a person or object behind you. If the probability of an accident is detected, the system will alert your attention to help avoid a collision.

Blind-Spot-Collision-Avoidance Assist
If vehicle detection from your blind spot with the turn signal on, this feature will assist your steering effort to help keep your vehicle in its车道. The system will detect vehicles in the blind spot area and change lanes automatically if driven by the driver.

Lane Following Assist
Using the car’s front-facing camera to detect lane markers on the road, this feature assists the vehicle’s steering to help keep your vehicle in its车道. The system will detect vehicles in the blind spot area and change lanes automatically if driven by the driver.

Highway Driving Assist
Acting as your copilot on the highway, this feature is enabled when you maintain your speed and distance from a lead vehicle while keeping your lanes. The system will determine your speed and distance based on movements of the preceding vehicle.

5-Star Safety Ratings
More Stars. Safer Cars.

In here, it’s always 360 degrees.

Life comes at you from all sides. Which is why Hyundai engineers have given the 2022 Sonata a suite of advanced safety and driver assistance features called SmartSense. Using an integrated system of available cameras, radar sensors and ultrasonic sensors, SmartSense technologies monitor your surroundings from nearly every angle to help protect you and your passengers in the event a potential collision is detected.

2022 Hyundai SONATA and SONATA Hybrid with LED projector headlights

Hyundai SmartSense is an advanced suite of features that helps to keep you safe on the road.

5-star safety ratings are a measure of how well a vehicle performs in collision tests. The lower the number, the safer the car. Hyundai engineers have given the 2022 Sonata a suite of advanced safety features called SmartSense. Using an integrated system of available cameras, radar sensors and ultrasonic sensors, SmartSense technologies monitor your surroundings from nearly every angle to help protect you and your passengers in the event a potential collision is detected.

Ordered Sonatas Limited, Blind Spot Collision Avoidance Assist® is enhanced by a Side View Monitor® which displays video within the instrument cluster of what’s happening alongside your car when you activate your turn signal. Sonatas Limited is also equipped with a Surround View Monitor® and multi-view parking cameras that help you see cordless environment creating parking areas. It’s a high level of safety that’s helped the 2022 Sonata and Sonata Hybrid lead two of the industry’s highest honors: A 2022 IIHS TOP SAFETY PICK® and a 2022 IIHS Top Safety Pick Plus®.
It makes all the smart moves.

How intelligent is Sonata? Smart enough to remember your personal preferences for multiple drivers. Does smart enough means your preferences are stored, even after the driver leaves the vehicle? The available Remote Driver Profile Management feature stores each driver’s preferred settings for seat and side mirror positions, audio, climate, navigation system settings and more.

Need help handling those hard-to-fit parking spaces? The press of a button on your Sonata’s key fob helps locate your parking space without you hanging to the inside of the car! Hands free? As is your Sonata’s key fob. Simply stand behind the trunk and, while the trunk is open, the trunk lid opens automatically.

An available Hyundai Digital key is another source of Sonata’s intelligence. It allows you to unlock the front door by touching your compatible Android™ smartphone to the door handle “Finger Flick,” placing your phone on the center console’s wireless charging pad enables Sonata’s这样一个功能.

An available 12.3” digital instrument cluster lets you choose what information you’d like displayed—between hands-free and speedometer, speed meter, and more. A color head-up display is available, which allows you to enjoy the driving information you want projected onto the windshield’s lighter panel. Perfect for when you need to make smart moves fast.

Tech That Gets You Out of Tight Spots

Sonata’s efficient Remote Smart Parking feature allows you to pull your car into a tight parking space without having to be in the car—just your phone, Sonata’s Backward Control, and, wherever you are, you’re in a street.

See dealer for LIMITED WARRANTY details. Fuel economy estimated by EPA for comparison only. Mileage may vary. While the information contained in this brochure was correct at the time of printing, specifications and equipment can change. Feature comparisons based on competitor information available at the time of printing. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time without incurring obligations. Some vehicles are shown with optional equipment. Specifications apply to U.S. vehicles only. Please contact your Hyundai dealer for current vehicle specifications.

Complimentary maintenance includes Hyundai-approved oil and oil filter change (except for electric vehicles and fuel cell electric vehicles) plus tire rotation at normal factory-scheduled maintenance intervals for 3 years or 36,000 miles, whichever comes first. More frequent maintenance due to severe driving or conditions is excluded. Offer valid only for new 2020-2023 Hyundai models purchased or leased on or after February 1, 2020. See your Hyundai dealer for further details and limitations.

Our commitment to Hyundai owners does not end with the transfer of keys. Wherever the road takes you, we've got your back with Owner Assurance, an umbrella of services and benefits that includes America’s Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features...and more.
