2021 Hyundai

VELOSTER N

[Image of a 2021 Hyundai Veloster N]
Instant karma.

Beneath Veloster N’s innovative three-door styling, high-strength steel is strategically applied to a reinforced rear body structure to create a rigid, yet remarkably lightweight—excess that helps deliver instant reflexes behind the wheel. Press the throttle, and Veloster N transfers power to the pavement with sniping quickness.

Easily map out your Veloster N experience to you. Drivers can choose between five drive modes. Each mode has unique parameters for the engine, suspension, Electronic Stability Control, all wheel steering, and even exhaust notes. In the N Custom mode, drivers can select from Normal, Sport, and Sport+ settings for each high-performance component to match driving preferences and road conditions. Or just map out everything by pressing the dedicated mode button on the steering wheel. Depending on the drive mode, a tech-readout variable exhaust valve system lets the driver select exhaust sounds ranging from normal to soulfully powerful.

Veloster N: Performance to the Nth degree.

The first of Hyundai’s high-performance N series, Veloster N is named for its sporty, front-wheel drive platform, the N platform. Its unique three-door body style is made possible by its rear-wheel drive layout, allowing for a shorter overall length and improved aerodynamics. The N platform also includes a new suspension system, improved steering, and a more engaging driving experience. With the addition of the N Performance package, Veloster N offers even more performance, including a more powerful engine, improved suspension, and enhanced braking performance.

The N Performance package includes:

- A 2.0-liter turbocharged engine producing 275 horsepower and 269 lb-ft of torque. This engine is matched with a 6-speed manual transmission for quick, responsive shifts.
- A high-performance suspension system with adjustable shocks and a front anti-roll bar.
- A rear differential lock, providing improved traction and handling.
- A upgraded braking system with ventilated brake rotors.
- A revised steering system with a new steering rack and a larger diameter steering wheel.
- A new exhaust system with a more aggressive sound.
- A unique exterior design with a more aggressive front fascia, side skirts, and rear spoiler.
- A new interior design with a revised dashboard and seats designed specifically for performance driving.

These features, combined with the N platform’s proven performance, make Veloster N a true performance car that is both fun to drive and capable of handling the demands of the most demanding drivers.

Serious Safety

Joining a long list of advanced features, the Veloster N features a suite of advanced safety technologies, including a front detection system, forward collision avoidance, and lane-keeping assist. These technologies provide an added layer of protection for drivers and passengers, making Veloster N not only a fun-to-drive car but also a safe one.
Warning:
May cause permanent grinning.

Veloster N’s driver-oriented dash layout will start you smiling the moment you grip the perforated leather steering wheel and press the right-hand start button. Stylish 9-light Sport Button Dashboard with contrasting blue emitting hazards deep brakes that hold you firmly in place through twists and turns. To assist with passing maneuvering, a new N Smart Shift program on Veloster N’s exclusive Dual Clutch Transmission helps put other cars in your rearview mirror at the press of a button, thanks to a temporary boost in peak torque and improved low-speed response for 20 seconds. A 8” touchscreen comes standard with a navigation system that lets you plot a course for finding the long way to your destination using voice commands, split-screen display, overlaps and lane guidance and adaptive cruise control. It also controls an iMT™ (integrated manual transmission) system that uses CalTune™ technology to feature sound quality lost in compressed digital music.

Automatic temperature control also comes standard to help create the perfect cockpit climate. Speaking of control, because N’s rear seats are roomy enough for grown adults, with its wide-opening hatch and trim split-folding rear seat, Veloster N ever has the cargo-carrying versatility of a compact sport utility vehicle.
Stay glued to the road. And everything else you care about.

Hyundai’s Blue Link® Connected Car System makes it easy to stay connected from wherever you are. Simply download the MyHyundai app, and your smartphone becomes a remote control that lets you unlock your Veloster N’s doors and start the engine before walking out the door.1 With your Amazon Echo® or Google Home™ device, you can also use voice commands to set your car’s cabin temperature or music library and more.5

Using a large touchscreen display for seamless access to your contact lists, texts, calls, maps and navigation, music library and more. Then there’s Blue Link Connected Care. Use all Blue Link packages, it’s complimentary for your first three years and often exceptions of price. Visit hyundaiusa.com or your authorized Hyundai dealer. 2 Requires active Blue Link subscription with Remote package. Remote engine start requires vehicles equipped with push button start and a Dual Clutch Transmission. Remote climate control available on properly equipped models with fully automatic temperature control.

Blue Link® Connected Care, Remote, and Guidance (factory-equipped navigation required) packages are complimentary for the first 3 years of ownership and require an active Blue Link subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use, is available for new vehicle purchases and leases, and is transferable to subsequent owners subject to the Terms and Conditions. Only use Blue Link and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. For more on details and limitations, visit HyundaiUSA.com or your authorized Hyundai dealer.
