The crossover with urban hustle.

Check out its chiseled edges, cascading mesh grills or available two-tone roof - and Venue’s attitude is obvious. Its swagger is the product of smart technology, safety innovations and sexy designs owned in long-lived sedans - EX, SEL or Limited.

Stop, inside, and Venue pays heed with seating for five and parts favors like Apple CarPlay® and Android Auto™ use the familiar zone on Venue’s standard 8" touchscreen display or the voice command button on your steering wheel to access your smartphone playlists, maps, text messages and more.

Hyundai's 2.0-liter SmartStream™ engine offers the flexibility of 60/40 split-folding rear seats, and an adjustable rear-level cargo box is also available. Glide open the available power sunroof, and Venue feels ever more spacious inside.

Expand your safety zone.

Safe driving is all about being prepared. The 2022 Venue is ready with SmartSense, a suite of advanced safety features designed to help prevent accidents from occurring in the first place. To help keep you aware of potential hazards in front of you, there’s Forward Collision- Avoidance Assist with Pedestrian Detection. Whether it’s an owned vehicle in your path or a pedestrian walking into the road, you’re alerted to trouble ahead. If necessary, emergency braking is automatically applied to help avoid a collision.

Should you begin drifting outside of the lane without signaling, Lane Keeping Assist alerts you and actively enforces your vehicle’s steering, nudging you back into your lane. If tireslip or lane departure is detected in your driving behavior, a feature called Driver Attention Warning alerts you that it may be time to take a break from driving.

Beyond these standard features, Venue is also available with Blind-Spot Collision Warning and Rear Cross Traffic Collision Warning, which set as extra tabs of extra ‘Venue’ zone designed to absorb and diminish impacts helping to protect you and your passengers inside the cabin.

Packed for adventures, large and small.

We created Venues to be a crossover that packs a whole lot of living into a small footprint. And does it with style. Step inside, and you’ll feel as if Venues is an extension of your personality. Like you, it’s largely plugged in. You can connect your devices using USB and Apple CarPlay™. And you can control many of their features from the large touchscreen display located front and center.

Like you, Venues knows how to be comfortable in different situations. Whether it’s hot or cold outside, an available automatic temperature control keeps the cabin at your preferred temperature. Heated front seats are also available to take the chill off.

And like you, Venues is organized. Hyundai designers stuffed all of the gear you carry, then created innovative storage solutions to help keep it contained. With the available two-level cargo floor in the upper position, you can securely store your stuff and still have lots of cargo space available for the things your crew of passengers brings along.

So now that you’ve put everything in its proper place, it’s time to put yourself in the proper frame of mind. Tap the touchscreen display to call up your favorite tunes from the playlist on your smartphone, then enjoy how great your music sounds on Venues’s available 6-speaker audio system.
**EPA Estimates**

City/Highway/Combined: 29/33/31 MPG

**Smartstream Intelligent Variable Transmission**
