## REFINED YET RUGGED.

The 2014 Jeep Compass arrives on the scene distinctively designed with the signature seven-slot Jeep grille and styling DNA from Jeep Grand Cherokee. New bi-halogen projector headlamps with Black bezels, a chrome grille surround with new bright texture, and 18-inch aluminum wheels are all available. A new acoustic windshield helps keep out road noise for improved cabin acoustics, while new taillamps feature a smoked inner bezel. From weekend excursions in the city to an alluring campsite, Compass' strength, confidence, and rugged good looks have you ready for any adventure.

### BEAUTIFULLY CRAFTED INTERIOR.

Slide into the refreshed Compass interior and be treated to all the style, cabin comforts, and roominess you require. Soft-touch surfaces, quality materials, and available Saddle Brown perforated leather trim lay the foundation for an upscale look and feel. New front- and rear-door switch bezels and door trims feature Satin Silver touches. A new shifter bezel sports soft-touch paint, Satin Chrome accents, and an appliqué of the iconic seven-slot Jeep grille, while an updated instrument panel shows off a Compass badge. Both the center- and rear-door armrests showcase a new cut-and-sewn treatment. For the comfort and convenience of all passengers, air conditioning, power windows, power locks, power adjusting and heated exterior mirrors, remote keyless entry, illuminated cup holders, and cruise control are standard on Compass Latitude and Limited and with the Power Value Group on Sport.

BENEATH THE BEAUTY  
OF ITS SHEET METAL  
IS THE STRENGTH  
TO MAKE THE  
UNKNOWN KNOWN.

**WATER FORDING!\*** Traverse streams with confidence, knowing there are additional electrical and body seals, plus a high air-intake location. Compass has the capability to safely manage in up to 19 inches of water. Always inspect all waterways before proceeding, just to make sure there are no unforeseen pitfalls.

**TRACTION.** Trail Rated<sup>®</sup> traction helps you maintain controlled forward motion on snowy back roads and icy bridges. You can climb steep sand dunes and master muddy two-tracks. Others may fear untamed terrain, but your Trail Rated Compass has the traction within to master all kinds of topography and driving conditions.

**MANEUVERABILITY.** Every Compass is born with the athletic ability to navigate narrow gaps, avoid emergency situations, and reduce cosmetic damage to underbody sills, thanks to precision steering and optimized wheelbases.

**ARTICULATION.** Compass' suspension systems enhance on- and off-road performance by maximizing flexibility, axle articulation, and wheel travel. This standard indicates that, when one or more wheels are elevated, the Jeep brand 4x4 system helps the others stay on the ground longer to keep you moving.

**GROUND CLEARANCE.** Head out knowing your Trail Rated Compass has optimized approach, departure, and breakover angles designed to clear logs, rocks, and uneven ground. The undercarriage is protected, too, with forged skid plates that cover the vehicle's most valuable underbody elements.

The available Trail Rated<sup>®</sup> fortitude of Jeep Compass gives you the ability to courageously take on the road, trail, or stream with confidence. To fiercely face Mother Nature's wrath with steely nerve. To drive through it and drive over it with certitude. To know you're operating with the recognized standard for off-road capability.

**TRAIL RATED.** The available badge of honor bestowed only after mastering a series of grueling tests on the toughest of terrain in five distinct categories.

#### 2.4L DOHC 16V DUAL VARIABLE VALVE TIMING (VVT) I-4 ENGINE.

Choose the 2.4L DOHC 16V engine featuring dual VVT paired with the five-speed manual transmission for a brilliant mix of an EPA-estimated 4x4 fuel economy of 23 city/28 highway with 172 hp and 165 lb-ft of torque.

#### ALL-NEW SIX-SPEED AUTOMATIC TRANSMISSION.

Pair the available new PowerTech six-speed automatic transmission to either of Compass' capable engine offerings for a smoother, quieter ride regardless of whether you're traveling road or trail. This new six-speed has a low first gear for quicker takeoffs and a tall top gear for relaxed highway cruising. A stepped shift schedule across all six gears is designed for optimal city fuel economy. The fact that the fill-for-life design helps reduce maintenance costs is just extra pride of ownership.

#### CAPABILITY.

From advanced automotive engine technology to the sure-footedness of the touring-tuned suspension and the legendary 4WD ruggedness, Compass offers true performance.

#### CONTINUOUSLY VARIABLE AUTOMATIC TRANSAXLE II (CVT2L).

This available system boasts a low range that provides the torque multiplication needed for water fording,<sup>1</sup> steep grades, and crawling slowly in off-road events. Includes Off-Road mode that delivers an off-road-capable 19:1 crawl ratio.

#### FREEDOM DRIVE I.

When snow, muddy roads, or steep gravel describes your route, opt for Freedom Drive I. The active, full-time 4WD capability with LOCK mode features an Electronically Controlled Coupling (ECC), which constantly monitors wheel slippage and transfers torque to the axle that can use it most. In tough conditions, the system can be locked 50/50 front/rear for added low-speed capability and control.

#### FREEDOM DRIVE II.<sup>®</sup>

This available system gives Compass its Trail Rated<sup>™</sup> chops with features like full-time 4WD with LOCK mode, Off-Road mode with Hill Descent Control, and brake traction control. Torque is adjusted on-demand for added fuel efficiency. Its all-weather capability expertly handles more difficult off-road situations, as well as deeper snow, mud, and up to 19 inches of water.<sup>1</sup>

**PARKVIEW® REAR BACK-UP CAMERA:** This available system displays an accurate visual reference of what is behind your vehicle when you are in Reverse.

**TIRE PRESSURE MONITORING SYSTEMS.** Embedded sensors continuously monitor the pressure in the tires and will immediately notify the driver when levels drop below the minimum acceptable.

**HEATED POWER EXTERIOR MIRRORS.** Melt snow and ice off your sideview mirrors as you warm up your interior. This available feature also helps to keep your mirrors icicle-free as you drive.

**ELECTRONIC STABILITY CONTROL (ESC):** An advanced system designed to assist drivers in maintaining control of their vehicle at all times. It integrates a four-wheel Antilock Brake System (ABS) with hydraulic Brake Assist, all-speed traction control, and Electronic Roll Mitigation (ERM) to constantly monitor driver input against the vehicle's actual course. When needed, the system automatically helps provide braking to the appropriate wheels and reduces engine power when overly sharp steering and/or impending wheel lift is detected.

**ADVANCED MULTISTAGE FRONT AND SIDE-CURTAIN AIR BAGS:** These air bags provide nearly instantaneous occupant protection by matching air bag output to crash severity.

**NEW STANDARD SUPPLEMENTAL FRONT-SEAT-MOUNTED SIDE AIR BAGS:** Each side air bag<sup>4</sup> has its own sensor to autonomously trigger the air bag<sup>4</sup> on the side where the impact occurs.

**HALOGEN HEADLAMPS AND FOG LAMPS.** These bright sources of light improve down-road visibility at night or during inclement weather.

**HILL START ASSIST (HSA).** This system works to prevent Compass from rolling away when starting the vehicle on an up- or downhill gradient. It holds the vehicle stationary for two seconds after the driver's foot is removed from the brake pedal, allowing time to apply the throttle. Standard on manual transaxle models and included with the Trail Rated<sup>®</sup> Freedom Drive II<sup>®</sup> Off-Road Group.

**FRONT-SEAT ACTIVE HEAD RESTRAINTS:** In the event of a rear-end collision, the head restraints move forward and upward to decrease the space between the headrest and the occupant's head, thereby helping to reduce the chance of injury.

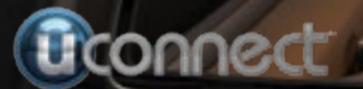

**SIRIUSXM TRAFFIC:**<sup>6</sup> Avoiding traffic jams is easy. With SiriusXM TRAFFIC,<sup>6</sup> you're notified of major accidents, construction, and road closings along your route. SiriusXM satellites monitor a million miles of roadways nationwide and coast-to-coast, all day, everyday. Color-coded roadways inform you of traffic flow and speed in major metropolitan areas. (1) Do not attempt water fording unless depth is known to be less than 19 inches. Traversing water can cause damage that may not be covered by the new vehicle warranty. Always off-road responsibly in approved areas. (2) Always look before proceeding, electronic drive aid is not a substitute for conscientious driving, always be aware of your surroundings. (3) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice, and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (4) The Advanced Front Air Bags in this vehicle are certified to the new U.S. federal regulations for advanced airbags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (5) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (6) SiriusXM services require subscriptions, sold separately after the 12-month trial included with the new vehicle purchase. **If you decide to continue your service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call SiriusXM at 1-866-635-2349 to cancel.** See SiriusXM Customer Agreement for complete terms at [www.siriusxm.com](http://www.siriusxm.com).
