This remarkable engine offers smart energy-generating functions, including available ESS, electric power assist, extended fuel shutoff, transmission shift management, intelligent battery charging and regenerative braking. Direct injection boosts power while reducing emissions, and eTorque technology provides a smooth engine stop/start experience, along with electric torque assistance. With its standard match to the 8-speed transmission, you’ll enjoy strong takeoffs and smooth highway coasting.

3.6L PENTASTAR® V6 ENGINE
