PASSION FORWARD
Tradition runs deep at Mercedes-Benz, but it’s no pond of reflection. More like rushing rapids, carving through stone and changing the course of history. That’s because there’s no stronger tradition under the Star than innovation—from setting new standards to starting new trends, without ever losing sight of what matters. By reinventing the coupe, the CLS has redefined the course of the four-door automobile.
The allure of a coupe is by design. The CLS leans forward into the future, from its sharknose grille to its taut profile. Wherever you take yours, people will lean forward to get a closer look of their own.

**KEY FEATURES**

**LUXURY**
- 64-color LED ambient lighting*
- Heated power front seats with 3-position memory, 40/20/40-split folding 3-passenger rear seat
- Ventilated and/or massaging front seats with active side support*
- Burmester® surround sound*
- Distinctive designo® and designo manufaktur paintwork and Nappa leather upholstery options*  

**PERFORMANCE**
- Inline-6 turbo or AMG-enhanced inline-6 turbo engine, both with EQ Boost Integrated Starter-Generator (ISG)
- Rear-wheel drive, 4matic® all-wheel drive, or AMG Performance 4matic® all-wheel drive
- 19” or 20”* alloy wheels
- DYNAMIC SELECT drive modes
- Lowered, selective-damping suspension (CLS 450), or AMG Sport Suspension based on AIR BODY CONTROL

**TECHNOLOGY**
- Dual 12.3” digital instrument cluster and central multimedia touchscreen, steering-wheel Touch Control Buttons, console touchpad
- Apple CarPlay™ and Android Auto
- Mercedes-Benz User Experience (MBUX) with “Hey, Mercedes” voice assistant; MBUX gesture control*
- Mercedes me connect featuring smartphone app with Remote Start, 4G LTE WiFi,* and more2

**SAFETY**
- Intelligent Drive* driver assistance suite, including Active Distance Assist DISTRONIC®, Active Steering Assist, Active Brake Assist w/Cross-Traffic Function, Active Lane Change and Speed Limit Assists, PRE-SAFE® PLUS, PRE-SAFE Sound, Route-based Speed Adaptation
- Rearview camera, Blind Spot Assist
- Surround View System and PARKTRONIC with Active Parking Assist*

*Optional or not available on some models. Please see endnotes at back of brochure.
THE EXPRESSWAY TO SELF-EXPRESSION
No matter how deeply you gaze into a CLS, it only gets more and more beautiful. On its surface, athletics and aesthetics unite as one: Standard 19" wheels and AMG styling accentuate its agile stance. Its details are elegant: A grille with timeless proportions. A muscle-toned profile free of extraneous swooshes and strakes. And shapely LED lighting front and rear. Its cabin welcomes five adults into a sculpture garden of wood, leather and satin metal, surrounding a new generation of sleek displays and multitouch controls. Put a CLS in motion, and it rewards your senses even more intensely than what starts with your eyes and fingertips.

The CLS is, above all, a Mercedes-Benz coupe. While four wide doors make it even more inviting, they exemplify its tradition of innovating—celebrating a rich history by making it fresh. Under its hood, the classic inline-6 is reinvented with electric EQ Boost. Its digital cockpit is made even more responsive—quite literally—with a virtual voice assistant you can talk to like a real person. A team of available driving assists can make its poised handling inspire even more confidence. And while a spectrum of paint and trim options let you self-express to impress, driving a CLS is an even deeper beauty—destined to make your inner voice cheer.

MODELS
CLS 450 COUPE
362-hp inline-6 turbo w/EQ Boost, rear-wheel drive

CLS 450 4MATIC COUPE
362-hp inline-6 turbo w/EQ Boost, 4MATIC® all-wheel drive

AMG CLS 53 COUPE
AMG-enhanced 429-hp inline-6 turbo w/EQ Boost and electric auxiliary compressor, AMG Performance 4MATIC+ fully variable all-wheel drive
Don’t count the doors. Tally up what really counts in a Mercedes-Benz coupe. Design that seamlessly melds function and fashion. Trendsetting style that can pass the test of time. Industry-first innovations that quickly feel like second nature. And luxury you never dreamed of, but won’t want to live without. In a CLS, there’s something for every sense, including your sense of wonder. LED ambient lighting lets you set a mood with 64 colors—solo, in pairs, in motion, even in the dash vents. Surround sound is available from Burmester®—Germany’s renowned crafter of fine home audio. You can even opt for a “hot stone” massage and some aromatherapy. What defines a coupe isn’t how you get in. It’s all you get out of it.

**EXCLUSIVITY INCLUDED**

Heated, ventilated* and massaging* power front seats, each with 3-position memory

- 64-color LED ambient lighting with multicolor themes and illuminated dash vents
- Dual-zone climate control with dust, pollen and odor filters; cabin-air ionizer and fragrance*
- Burmester® Surround Sound* or High-End 3D Surround Sound (CLS 53)*

**LUXURY HIGHLIGHTS**

- KEYLESS-GO® and electronic trunk closer with HANDS-FREE ACCESS
- Soft-close doors*
- Leather, MB-Tex/DINAMICA or Nappa leather upholstery* with topstitched MB-Tex dash designs and designo manufaktur Nappa leather in a range of colors (CLS 450); no fewer than six interior trim choices*

*Optional or not available on some models. Please see back of brochure.
For German performance coupe fans, the naturally balanced inline-6 might be the most beloved engine of all time. Its time has come again in the CLS, with a futuristic reinvention of a classic powerplant. It’s fully beltless, low-friction, light and compact. A twin-scroll turbo helps it outpunch its 3.0L size in power and torque. A 48-volt electrical system charges its lithium-ion battery and runs the air conditioning and power steering. It also drives its EQ Boost Integrated Starter-Generator. The ISG can recapture energy as you decelerate. Help the emission and fuel savings of ECO Start/Stop feel more seamless. And best of all, add instant, electric—gas-free—torque. All three CLS coupes celebrate tradition by accelerating it.

**PERFORMANCE HIGHLIGHTS**

- 362-hp inline-6 turbo w/electric EQ Boost (CLS 450), or AMG-enhanced 429-hp inline-6 turbo w/electric EQ Boost and electric auxiliary compressor (CLS 53)
- 9G-TRONIC (CLS 450) or AMG SPEEDSHIFT® TCT (CLS 53) 9-speed automatic transmission
- DYNAMIC SELECT driving modes, including Comfort, Sport and customizable Individual
- Rear-wheel drive or 4MATIC® all-wheel drive (CLS 450), or fully variable AMG Performance 4MATIC+ (CLS 53)
- Lowered suspension with selective damping (CLS 450), or AMG Sport Suspension based on AIR BODY CONTROL (CLS 53)
- 19" to 20" staggered-width alloy wheels

*Some features are optional. Please see Build Your Own and endnotes at back of brochure.
From superhuman driver assists to a virtual cockpit assistant that feels utterly human, the CLS makes your well-being a top priority. It can look out for you, listen to you, and take action to back you up and move you ahead.

**SAFETY HIGHLIGHTS**

Radar-based Active Brake Assist frontal collision mitigation; Blind Spot Assist
- PRE-SAFE® w/ hearing protection technology
- Rearview camera or Surround View System®
- PARKTRONIC w/ Active Parking Assist®
- Driver Assistance Package, including Active Distance Assist DISTRONIC® cruise control; Active Steering Assist; Evasive Steering Assist; Route-based Speed Adaptation; Active Brake Assist w/ Cross-Traffic Function; PRE-SAFE PLUS with rear- and side-impact preparation; Active Blind Spot Assist w/ Exit Warning; and Active Emergency Stop, Lane Change, Lane Keeping, and Speed Limit Assists

**UNCDEEN IN FOCUS**

Mercedes-Benz engineers developed a network of radar, cameras and other sensors for a simple reason: Humans are human, with just one set of eyes to take in all that’s happening around you as you drive. Your CLS can watch ahead and into your blind spots to help avoid accidents, and prepare if a crash is imminent, even helping “cover your ears.” An available suite of driver assists can help smooth your moves in numerous ways, such as adapting your cruise speed as the limit changes. Easing your way through traffic. Letting you change lanes with the tap of a turn signal. And watching for danger ahead, even if it’s coming from behind. All without blinking a virtual eye.

**UNFORESEEN IN FOCUS**

Radar-based Active Brake Assist frontal collision mitigation; Blind Spot Assist
- PRE-SAFE® w/ hearing protection technology
- Rearview camera or Surround View System®
- PARKTRONIC w/ Active Parking Assist®
- Driver Assistance Package, including Active Distance Assist DISTRONIC® cruise control; Active Steering Assist; Evasive Steering Assist; Route-based Speed Adaptation; Active Brake Assist w/ Cross-Traffic Function; PRE-SAFE PLUS with rear- and side-impact preparation; Active Blind Spot Assist w/ Exit Warning; and Active Emergency Stop, Lane Change, Lane Keeping, and Speed Limit Assists

**TECHNOLOGY HIGHLIGHTS**

Mercedes-Benz User Experience (MBUX) with natural voice assistant, touchscreen, console touchpad, and steering-wheel Touch Controls
- Dual 12.3” displays: reconfigurable digital instrument cluster, multimedia touchscreen
- MBUX Interior Assistant (gesture control)*
- MB Navigation® w/ augmented video® using live imagery of surroundings
- Apple CarPlay® and Android Auto®
- Multiple USB-C ports®; wireless charging
- Dashcam®; Head-Up Display®
- LED Intelligent Light System w/ Ultra Wide Highbeams and Adaptive Highbeam Assist®

**NATURAL TECHNOLOGY**

A virtual personal assistant helps make the CLS cockpit genuinely easy to use and enjoy. MBUX, the Mercedes-Benz User Experience, lets you control countless cabin features by talking naturally. Just say “Hey, Mercedes” and then “I’m cold” to turn up the heat, or “I’m hungry” for MB Navigation to search. It can even show your next turn with live on-screen video, augmented with guiding graphics. You can also operate features by touch, using steering-wheel and console touchpads and the central touchscreen—one of two 12.3” screens, the other being reconfigurable instruments. Gesture control, a Head-Up Display, and a dashcam are available. MBUX also learns from you: The more you use it, the more natural it gets.

*Optional or not available on some models. Please see endnotes at back of brochure.
Rich with standard features, the CLS also offers a wealth of options and packages, so you can tailor yours to suit your life and show your style.

**AMG LINE**
- 19" AMG® twin 5-spoke wheels
- AMG interior styling:
  - Sport steering wheel
  - Brushed stainless steel pedals
  - AMG floor mats
- Wheel upgrade option:
  - 20" AMG multispoke wheels

**PREMIUM PACKAGE**
- Burmester® Surround Sound System
- SiriusXM® 6-month All-Access trial
- Surround View System
- PARKTRONIC w/Active Parking Assist
- Rear Cross-Traffic Alert

(All items standard on CLS 53)

**NIGHT PACKAGE**
- (CLS 450; requires AMG Line)
- Gloss-black exterior accents
- 20" AMG multispoke wheels in black or w/black accents

Is the CLS purely a design exercise? In a sense. The design of a Mercedes-Benz always encompasses its engineering, testing and craftsmanship. Agility and muscle tone surely benefit from exercise. In a world of excess flourish, a CLS displays elegant finesse—as it has since the beginning, when its four-door coupe silhouette turned the tide of car design. And while seemingly all four-doors chased its sleek shape, it remains both an original and a standout. It’s foremost a work of art that works. Its wide, Star-centered grille, power-dome hood and AMG lower bodywork envelop an advanced powertrain teaming gasoline and electric power, and sending abundant torque to the rear wheels or all four. Available in seven 19" or 20" designs, the wheels are staggered in width for optimal performance along with optical poise. Selective damping offers refined ride comfort, yet instantly firms up for tight corners. As the CLS delights its driver, passengers can relish its contoured seating, fine finishes, and innovative luxuries. And with two styling packages plus a spectrum of special paint and leather options, a CLS is purely designed to draw the admiration of occupants and onlookers alike.

362-HP 3.0L INLINE-6 TURBO ENGINE WITH EQ BOOST ELECTRIC ASSIST. DRIVE AMG Performance 4MATIC+

WHEELS 19" AMG\textsuperscript{®} twin 5-spoke
The seduction of curves is ever-present in the AMG CLS 53. Its athletic shape—a fluid sculpture evoking toned muscle—ignites the recurring theme. Adaptive air suspension bonds driver, car and winding roads via 19” or 20” AMG® wheels. It can even draw the coupe’s already low profile closer to the pavement at higher speeds. The attraction you’ll feel most often, however, comes from its torque curve. The response of its AMG-enhanced engine is enriched numerous ways, starting with the natural balance of its inline-6 layout. This classic configuration becomes a blast from the future with three sources of boost: A twin-scroll turbo helps generate 429 hp and 384 lb-ft of torque from an efficient 3.0 liters. An EQ Boost Integrated Starter-Generator can inject added torque electrically, for quicker takeoffs and near-seamless ECO Start/Stop. And an electric auxiliary compressor helps the turbo spool up even quicker. All this torque is brilliantly apportioned by AMG Performance 4MATIC+ all-wheel drive, from a 50/50 balance to 100% rear-drive—based on vehicle dynamics, driving modes and more. Agile and advanced, the CLS 53 sends the arc of progressive performance soaring.

OWNERSHIP & EXPERIENCE

DAILY COMMUTE OR ROADTRIP, THOUGHTFUL TECHNOLOGY HELPS MAKE ANY JOURNEY A JOY.

Mercedes me connect puts a network of features in your car, on your smartphone, and in the digital world around you. And all of them collaborate to help keep you on track, on time, and feeling you’re on top of your real world.

- You can remote-start your car, locate where it’s parked, configure vehicle settings from your phone, and more.
- You can look up destinations on your phone and send them to the MB Navigation system in your car.
- You can offer WiFi to your passengers, and enjoy audio from all over the planet with TuneIn Radio.

Models with Car-to-X Communication can share info on traffic, road hazards and other conditions with each other, via a central reporting base. So you might find out about a tie-up on your route before you get caught up in it.

The map database for your car’s MB Navigation system can be updated in your driveway, over the air, up to twice a year—with no need to bring it to the dealership.

WHEREVER YOU DRIVE, THERE’S A TEAM OF SUPPORTIVE PEOPLE LOOKING OUT FOR YOU.

Mercedes-Benz was the first automaker to introduce its own Roadside Assistance Program in the US. For more than 35 years, customers have called on—and counted on—factory-trained experts in times of need.1

- A button in your car can connect you. If an air bag or seat-belt tensioner is activated, your car can place the call on your behalf, and even transmit your location.
- They can send help—usually a trained dealer service technician—to your location, even for a jump-start.
- If you see a warning light, so can the experts, and they can often help diagnose trouble over the phone.

Your Mercedes-Benz dealer is helping make service and maintenance even more convenient, with options such as Express Service, Mobile Service, pickup and delivery, online scheduling, and contactless payment. Your dealer can tell you more about the specific benefits they offer.

YOUR MERCEDES-BENZ EXPERIENCE SHOULD ALWAYS FEEL SPECIAL.

Driving a Mercedes-Benz feels like joining a club, as well as a family. Wherever you go, you’re part of a history that started with the first car, and always keeps racing ahead.

- For decades, groundbreaking innovations have protected, entertained and indulged Mercedes-Benz drivers first. While many have gone on to become the standard for all cars, you get to drive the future, today.
- From the AMG Lounge to #MBPhotoPass on Instagram, Mercedes-Benz owners have many ways to connect and interact.

Your car and your dealer are in on it, too.

- Mercedes me lets your car communicate its service needs to your preferred dealer.
- Your dealer can reach out to you to book an appointment or offer drive-in service.

COMMITTED TO COMMUNITY

Mercedes-Benz USA is committed to educating and empowering the next generation of diverse leaders.

To help equip them with the tools for success, MBUSA partners with two national organizations that invest in the futures of young people in communities across the country. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of youth a better life today, and all of us a brighter tomorrow.

Learn more about how Mercedes-Benz USA gives back at MBUSA.com/community

Laureus Sport for Good USA is focused on improving the health, education, employment and social cohesion of youth in underserved communities. Since 2012, Laureus USA has helped nearly half a million young people in 150 cities.

To learn more, visit laureussusa.com

Johnny Mac Soldiers Fund helps honor military service and sacrifice by providing scholarships to veterans and military family members—particularly the children of our nation’s fallen and disabled. Since 2014, Johnny Mac has awarded more than $16 million in scholarships to some 2,000 students.

ENDNOTES

* Item is optional or not available on some models. See Build Your Own in this brochure or visit MBUSA.com for more information.

1 Lower-back support and accompanying pillows provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

2 All Mercedes me services operate only where cellular and GPS signals are available, which are provided by third parties and are not within the control of Mercedes-Benz USA, LLC. Mercedes me connect assist services, and 3 years of Mercedes me connect services are included at no additional charge with new-vehicle sales and leases at an authorized Mercedes-Benz dealer. Models with MB Navigation also include 3 years of over-the-air map updates (up to twice per year), 3 years of traffic information provided by HERE Technologies, and a 1-month trial (up to 1GB) of in-vehicle WiFi and streaming audio. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required to use certain services. Connection may be limited by cellular signal and other factors. Features may be introduced and updated at varying dates, and may also require a vehicle software update. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. Mercedes me connect Mobile App is compatible with Apple® iPhone® models and Android-based phones, and may require a software update. See your dealer or MBUSA.com/mercedesme for details.

3 Active Blind Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, nor may it react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver’s responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system’s alerts before braking, as they may not afford sufficient time and distance to brake safely. See Operator’s Manual for system operation and additional information and warnings.

4 Blind Spot Assist is a warning system. Blind Spot Assist or Active Blind Spot Assist may not be sufficient to avoid accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a substitute for driver awareness and checking of surrounding traffic and road conditions. See Operator’s Manual for system operating speeds and additional information and warnings. PRE-SAFE PLUS does not prevent a collision, and does not alert the driver of an impending collision or system activation. It does not intervene if vehicle is backing up, and does not apply the brakes if the driver is accelerating or actively Parking Assist is operating. When PRE-SAFE PLUS closes the side windows, a small gap is left near the fully closed position and tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

5 PRE-SAFE closes the side windows when the system’s sensors detect side movements that suggest a possible rollover or side collision. It may not react to certain stationary or suddenly moving objects or vehicles, nor may it react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver’s responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system’s alerts before braking, as they may not afford sufficient time and distance to brake safely. See Operator’s Manual for system operation and additional information and warnings.

6 Rearview-camera and Surround View System do not audibly notify driver of nearby objects and are not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.

7 Parking assistance systems are not substitutes for driver attention to the immediate surroundings, as well as any people, animals or vehicles in or approaching the vehicle’s maneuvering space. System cannot determine if a space is legally available or of a suitable surface for parking. See Operator’s Manual for additional information, tips and warnings.

8 Even the most advanced safety systems have their limitations. The driver is responsible for safely operating the vehicle in accordance with local laws and driving conditions.

9 Heated steering wheel is not available on AMG GLS 55 with AMG DRIVE UNIT or AMG Performance steering wheel in DINAMICA.

10 Available with Macchiato Beige/Magnolia Grey, Magnolia Grey/Espresoso Brown or designo Macchiato Beige/Titan Red Pearl leather.

11 Aluminium, Ecru Beige, Dark Beige and Light Beige are offered as part of the option “Beige” in three different grades: “Premium”, “Comfort” and “Luxury”. Colour samples can be seen in the stores of Mercedes-Benz Roadside Assistance. Restrictions may apply, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exceptions of sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.

12 Sport steering wheel is included on CLS 450 in AMG Line only with Black interiors, or with designo Black/Titanium Grey leather, and excluded if heated steering wheel is also ordered.

13 The purchase of a new, SiriusXM®-equipped vehicle includes a 6-month trial subscription to the SiriusXM All Access package. Eligible pre-owned vehicles equipped with SiriusXM will receive a 3-month trial subscription to SiriusXM All Access package. Trial length and service availability may vary by model, model year or trim. If you decide to continue your subscription after your trial, the plan you choose will automatically renew and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change.

14 Stated rates of acceleration are estimated based on manufacturer’s track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.

15 Driving while distracted or distracted is dangerous and must be avoided. ATTENTION ASSIST® is a warning system only. ATTENTION ASSIST and Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot rely on to avoid an accident or serious injury. See Operator’s Manual for system operating speeds and additional information and warnings.

16 Car-to-X services are activated as part of Mercedes me connect. Connected services operate only where cellular and GPS satellite signals are available, which are provided by third parties and not within the control of the vehicle. Mercedes me connect Mobile App is compatible with Apple® iPhone® models and Android-based phones, and may require a software update. See your dealer or MBUSA.com/mercedesme for details.

17 Unsequenced cargo can become hazardous in a collision. Always secure cargo using the floor-mounted tie-downs.

18 Wireless charging and NFC pairing available only for devices with compatible technology and size. See Operator’s Manual for more information. Devices sold separately.

19 Active Distance Assist DISTRONIC® cruise control is not a substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. Active Steering Assist requires driver to hold steering wheel and be ready to steer vehicle at any time. It may not recognize lane markings in some lighting, weather and road conditions. It is the driver’s responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system’s alerts before braking, as they may not afford sufficient time and distance to brake safely.

20 Active Lane Change Assist is not a substitute for active driving involvement. It estimates but does not predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver’s responsibility at all times to be attentive to traffic and road conditions, and to provide the driving inputs necessary to retain control of the vehicle. System may be turned on or off with PRE-SAFE Sound to make the area into which the vehicle would move. See Owner’s Manual for system operation and additional information and warnings.

21 Drivers are cautioned not to wait for the system’s alerts before braking, as that may not afford sufficient time and distance to brake safely.

22 Drivers are cautioned not to wait for the system’s alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

23 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seatbelt. Driver’s deliberate steering inputs are required to initiate the system’s actions, and can overrule its intervention at any time. See Operator’s Manual for system operating speeds and additional information and warnings.

24 Driver is responsible for safely slowing and/or stopping vehicle at intersections, and for giving right-of- way to other drivers. System is not a substitute for driver awareness to posted speed limits and other traffic laws. Driver is responsible for safely operating the vehicle in accordance with local laws and driving conditions.

25 Heated steering wheel is not available on AMG GLS 55 with AMG DRIVE UNIT or AMG Performance steering wheel in DINAMICA.

26 Available with Macchiato Beige/Magnolia Grey, Magnolia Grey/Espresoso Brown or designo Macchiato Beige/Titan Red Pearl leather.

27 Requiescent aluminum, Metal Weave, designo Black Piano Lacquer “Flowing Lines” or AMG Carbon Fiber.

28 Requires AMG DRIVE UNIT. Not available with heated steering wheel, Warmth & Comfort Package, or with active steering assist. Connection to apps and streaming services may be limited by the network’s data connection. Data usage is routed through device and subject to fees, charges and restrictions in user’s wireless plan. Vehicle’s factory audio/information interface may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
