UNITED BY INDIVIDUALITY

Together we are united by the journey, but each of us must choose which road to travel. As you decide which direction to explore, Scion believes your vehicle is more than just a method of transportation, it's a tool for self-expression. Starting out with a framework of fully loaded standard features, we offer an array of choices to help you build and customize a ride that distinctly represents you. With all this covered under our factory warranty[1], you'll be free to focus on something more important—reaching your next destination...

(1) See disclaimers 11 and 19 on page 22.

tC

THE GET UP & GO GETTER

tC | INTERSTATE OF MIND

tC Interior Shown with Standard Manual Transmission

MERGING INTELLIGENT DESIGN WITH FLUID MOVEMENT, THE tC REDEFINES THE SPORTS COUPE.

Sitting low and riding wide on 17" wheels, the tC adeptly maneuvers powered by a 161 horsepower 2.4L engine. Seven airbags, including standard front and rear side curtain,[1] help provide peace-of-mind while the four-wheel disc brakes with ABS and EBD offer stopping power with added control.

Standard Flush Closing Vents

Standard Business Class-like Split Folding and Reclining Rear Seats

On the inside you'll have an expanded worldview thanks to the first-in-class standard panoramic moonroof. The spacious interior offers room for five, including standard split folding and reclining rear seats which allow backseat passengers to recline up to 45 degrees. With audio controls integrated into the steering wheel, the soundtrack to your drive is at your fingertips while standard features like iPod compatibility[2] and a maximum 160-watt Pioneer Audio System enhance your listening experience. With all this and numerous options to customize your vehicle, the tC is the ideal convergence of substance and style.

(1) See disclaimer 5 on page 22. (2) See disclaimers 1 and 2 on page 22.

SCION'S "PURE PRICE" EXPERIENCE MEANS NO HAGGLE, NO HASSLE

This means the price you pay for all products and services offered equals the dealership's posted and advertised price. Price menus are clearly posted in the dealership showroom for all products and services.

BUILD YOUR SCION

Log onto scion.com and go to Build Your Scion. Choose your model, transmission and color. Check out the extensive list of standard features. Pick your favorites from the accessories.

SAVE YOUR MASTERPIECE

Save your configuration on scion.com, print out a personalized e-brochure, e-mail it to the dealer of choice, or fill out an online credit application.

WHAT TO EXPECT FROM YOUR SCION DEALER

Scion delivers a "pure price" purchase experience whereby all products and services offered by dealers are menu priced.

From your vehicle to accessories to the finance rate, it's a "what you see is what you get" sales approach. It's simple, straightforward and, most important, respectful of your time.

Experience it for yourself and, if you have any questions or comments, visit us at scion.com for a live chat with one of our Scion Customer Experience Representatives.

(For more information on Scion's "Pure Price" Experience contact your local Scion dealer.)

Standard iPod Connector and Auxiliary Port [1]

Pioneer

STANDARD AUDIO

Scion's standard Pioneer AM/FM/CD audio system delivers a maximum of 160 watts of power, which will allow you to craft the perfect high fidelity soundscape for your drive.

FEATURES	DESCRIPTION
iPod Compatibility [1]	direct control from the head unit or steering wheel audio control buttons
Scion Sound Processing (SSP)	digital signal processing system that provides customized sound curves tuned specifically for your xB, xD or tC
Auxiliary Port	allows you to connect external audio sources from mp3 players to laptops
Built In Automatic Sound Levelizer (ASL)	during driving, ASL will adjust the volume level according to the driving speed and road conditions
Sound Retouch Technology (SRT)	enhances MP3/WMA/AAC file playback from CDs
Programmable Welcome Message Screen	allows you to personalize the Welcome Screen with a customized message
Satellite Radio Capability [2] XM SIRIUS SATELLITE RADIO	national coverage with the satellite radio accessory and a subscription to XM or Sirius

(1) See disclaimers 1 and 2 on page 22. (2) See disclaimer 3 on page 22.

Optional Pioneer Premium Audio

Standard Steering Wheel Audio Controls

Pioneer

PREMIUM AUDIO

Pioneer Premium Audio System takes the base unit and packs in additional features. Beginning with an Organic Electroluminescent (OEL) screen, the Pioneer Premium upgrade system is for the driver looking to enhance their audio experience with a splash of visual stimulation. You can download "skins" to play on the OEL screen from Pioneer's website.

http://pioneer.jp/car/oel_screensaver_studio/

Dual illumination allows you to change the faceplate lighting from a deep orange to blue. The RCA outputs (front, rear and subwoofer) ensure that you can expand with ease when you're ready to build a custom system with external amps.

The Premium Audio upgrade includes the same features as the Standard Pioneer Audio, plus:

FEATURES	DESCRIPTION
Downloadable "Skins"	"skins" for the OEL display including background pictures and more
Personalized "Skins"	create and upload your own personal "skins" using Pioneer software
Dual Illumination	dual illumination allows you to change the faceplate lighting from a deep orange to blue
RCA Outputs	front, rear, and subwoofer RCA outputs for building custom systems with external amps

SCION NAVIGATION SYSTEM

The available Scion Navigation System (SNS)[1] offers a wide range of features to help keep you on track when you're out and about. Locate specific destinations using a point of interest, address information, intersection, coordinate, or freeway search.

The SNS doesn't just help you find where you're going, it also doubles as an audio system. Plus, when you're not moving, you can take advantage of the SNS DVD capabilities to watch your favorite videos on the LCD screen. With Alpine Digital Sound Processing (DSP), you choose from five different preset equalizer curves or create your own - making sure that wherever you're headed, you control the soundscape.

visit http://scion.com/sns for more information

FEATURES	DESCRIPTION
iPod Compatibility [2]	direct control from the head unit or steering wheel audio control buttons
Alpine Equalizer	nine band frequency equalizer allows you to adjust and tune sound reproduction
Alpine Focus	allows you to create audio effects by moving the center of the sound field
Clear Sound Effecter (CSE)	enhances compressed digital music data
Alpine Digital Sound Processing (DSP)	sound processing which emulates performances in a stadium, cathedral, an intimate club, a concert hall or live venue
Scion Sound Processing (SSP)	digital signal processing system that provides customized sound curves tuned specifically for your xB, xD or tC
Automatic Volume Adjust	will increase volume automatically to match road noise as it varies based on driving speeds and road conditions
Auxiliary Port	allows you to connect external audio sources from mp3 players to laptops
Satellite Radio Capability [3] XM SIRIUS SATELLITE RADIO	national coverage with the satellite radio accessory and a subscription to XM or Sirius

optōmize | ACCESSORIES & APPAREL

When it comes to customizing your vehicle, the more options the better. With Optomize[1], Scion's accessories and apparel program, you get a wide and diverse selection of over 150 name brand auto accessories and apparel items. Optomize brings you a huge selection of components that you might typically find in a compact performance shop - from shift knobs, to under-hood accessories, to racing pedals and body kits. Whatever you're looking for, Optomize offers more avenues to explore when creating your perfect ride.

To view the full range of Optomize products, visit a Scion dealer or log on to optomizescion.com

(1) See disclaimers 10 and 11 on page 22.

TRD 18" Alloy Wheels [2]

TOYOTA RACING DEVELOPMENT

From the racetrack to the street, TRD[1] develops performance aftermarket parts for Toyota vehicles. TRD has stepped it up by developing a comprehensive line of accessories made especially for Scion. When you're ready to take your Scion's performance up a notch, TRD will help get you going ***- FAST.***

TRD ITEM	xB	xD	tC	DESCRIPTION
TRD 18" Alloy Wheels [2]		•	•	TRD's commitment to design and engineering is reflected in this classic 5-spoke design. The 18" Alloy Wheel is offered in Bright Silver Painted Finish or a Matte Black Painted Finish.
TRD 19" Alloy Wheels [2]	•			TRD race-inspired wheels have a bright, fat lip that will reflect every one looking at you. They are engineered from the ground up using state of the art CAD design and techniques to create the right fit for you xB.
TRD 12mm Wheel Installation Kit	•	•	•	TRD Wheel Installation Kit includes 16 conical seat lugnuts, 4 wheel locks, a spline drive tool, and wheel lock key.
TRD Air Filter	•	•	•	TRD High-Performance Reusable Air Filter design has an expanded filter pleat geometry and multi-layered gauze. TRD's Air Filter features a firm polyurethane body with a four-ply cotton gauze filter element that is precision oiled. Filter body is 100% polyurethane construction.
TRD Brake Upgrade	•		•	TRD Performance Brake kits offer larger drilled rotors and 4-piston calipers that provide increased heat capacity for more resistance to brake fade and deliver a firmer pedal feel. All TRD Performance Brake kits are tested to stringent FMVSS standards.
TRD Coilover Suspension			•	TRD High-Performance Coilover shock/spring combination gives the vehicle improved handling, as well as a low aggressive look to complement larger-diameter wheels and high-performance tires.
TRD Cold-Air Intake [3]	•		•	TRD Cold-Air Induction System flows denser, cooler air to your Scion engine.
TRD Limited Slip-Differential	•		•	TRD Differential senses which wheel has the better grip and biases the power to that wheel. It does this smoothly and constantly, and without ever completely removing power from the other wheel.
TRD Lowering Springs	•	•	•	TRD Lowering Springs lower the ride height of a Scion. They're designed to be direct replacements for the original equipment springs and are suitable for use with either original equipment or the TRD Shock/Strut Kit.
TRD Oil Cap	•	•	•	TRD Oil Caps are available in Polished Silver Finish. The forged aluminum oil filler cap is CNC-machined to help achieve an excellent fit and custom accent to the engine compartment.
TRD Oil Filter	•	•	•	TRD High-Performance Oil Filters are designed to hold 45% more dirt, stay flexible at extreme temperatures, eliminate dry start wear, and protect vital engine components by allowing the engine to pump more oil.
TRD Performance Clutch Kit	•		•	TRD High-Performance Clutch Kit features a high-capacity pressure plate. Each kit is a direct bolt-in replacement for each stock Scion.
TRD Quick Shifter	•	•	•	TRD Quick Shifter shortens the length of shift throws in a Scion.
TRD Radiator Cap	•	•	•	TRD Radiator Caps are designed for high-RPM and high-load operation.
TRD Rear Sway Bar	•	•	•	TRD Rear Sway Bar is made from SAE 1026 Cold Drawn Steel rod with precision bending tools and is specifically designed and engineered to enhance cornering and handling. It comes in a TRD Red Powder-Coat which completes the look and adds durability.
TRD Shock/Strut Kit	•	•	•	TRD Shock/Strut Kit uses original equipment-type canister bodies with aggressive valving to reduce roll and improve response and overall cornering performance.
TRD Sport Muffler	•	•	•	TRD Sport Muffler has a large Polished Exhaust Tip and is built from Stainless Steel. They are emissions-legal in all 50 states.
TRD Strut Brace	•		•	TRD Strut Brace rigidly links the mounting points of the two front MacPherson strut towers. This extruded aluminum ovaltube brace features TIG welds.
TRD Supercharger [4]	•		•	TRD Supercharger develops higher engine output by forcing increased airflow to the cyclinders. *(Available for 08MY xB and 08MY-Down tC only. Availability for 09MY TBD)*
TRD Wheel Locks	•	•	•	TRD Wheel Locks provide an effective method of wheel protection. Constructed of forged hardened steel with triple-chrome plating.

(1) See disclaimer 10 on page 22. (2) See disclaimer 9 on page 22. (3) See disclaimer 13 on page 22. (4) See disclaimers 14 and 15 on page 22.

(1) iPod is a registered trademark of Apple Inc. (2) iPod not included. (3) Satellite radio requires XM or Sirius compatible receiver and monthly service fee. See your Scion dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com or www.sirius.com. Available only in the 48 contiguous United States. (4) The navigation system is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic updates available at an additional cost. See your *Navigation System Owner's Manual* for further details. (5) All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your Owner's Manual for further information/warnings. (6) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, and driver steering input can affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. (7) The Direct Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your *Owner's Manual* for details. (8) Active headrests can help prevent or limit the extent of whiplash in certain types of rear-end collisions. (9) Performance tires are expected to experience greater tire wear than conventional tires. Tire life may be less than 20,000 miles, depending on driving conditions. Consult with your dealer when choosing tires for optional performance wheels. (10) Installation of non-Genuine Scion Parts or Accessories may impact your vehicle's warranty coverage. See your *Owner's Warranty Information* booklet for details. Certain aftermarket equipment may not be street-legal in all states and may impact your vehicle's performance or safety. (11) All accessories offered by Optomize will be covered by the individual manufacturer's warranty, and not the Scion factory warranty. (12) Vehicle shown is a special project car, modified with non-Genuine Scion parts and accessories. Modification with these non-Genuine Scion parts or accessories will void the Scion warranty, may negatively impact vehicle performance & safety, and may not be street legal. (13) Race or off-highway use parts have no warranty and may not be installed by a Scion dealer on a vehicle intended for use on public roads. This part may not be sold with a new vehicle and may not be financed together with a new vehicle. (14) This part may not be sold with a new vehicle and may not be financed together with a new vehicle. (15) The supercharger, when installed by an authorized Scion dealer, falls under the standard Scion powertrain warranty of five years or 60,000 miles, or the balance of the new car warranty, whichever is greater. When not installed by a dealer, the supercharger is covered by a 12-month, 12,000-mile parts-only warranty. The system is also emissions legal in all 50 states. (16) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (17) 2009 EPA estimates. For model year 2009 the EPA has revised the way the estimated fuel economy rating is determined. Actual mileage will vary. (18) Displays range, fuel consumption, and average speed. xB also includes trip timer. (19) Certain TRD Sports Parts may be warranted differently than Scion Genuine Accessories. Please consult your Scion Dealer for warranty specifics.

Standard equipment, options, accessories, and other information is subject to change.
