

Prius C 2012

Meet the 2012 Toyota Prius c, the smallest member of the Prius Family and the most affordable Prius ever. Its compact size makes it remarkably city friendly. Plus, its EPA-estimated 53 mpg rating¹ in the city is the highest of any hybrid vehicle without a plug.² With features like the available Entune™³ multimedia system, Prius c connects you to your world and helps you take on the game of life. So let's play. **2012 Toyota Prius c. Moving Forward.**

Prius c is all about helping you have fun while you navigate through life. Its smart size is perfect for prowling the urban landscape.

You got the last two tickets to a show at that club on 223rd. You're currently at 3rd.

With its city-friendly size, the 2012 Prius c can help make short work of long, busy streets. So you can make spontaneous plans way uptown even when you're way downtown.

Projector-beam halogen headlamps emit a brighter and cleaner light than traditional headlamps, with a beam that's more precisely focused too.

Roll in style with these sweet available 16-in. alloy wheels. Their eye-catching finish and chiseled 8-spoke design add a definite upscale look. Prius c also offers available 15-in. alloy wheels as another stylish option.

Your friends want dim sum up in Chinatown and tiramisu down in Little Italy.

No worries. Prius c offers an available navigation system¹ that features our advanced Entune™² multimedia system. Entune™ offers a variety of data services and useful apps such as Bing™ point of interest search, which can help you find just about anything, including restaurants in the area. Or, if they insist, in two areas.

Display Audio With Navigation and Entune™

This available system includes a 6.1-in. touch-screen, AM/FM CD player with MP3/WMA playback capability, six speakers, SiriusXM Satellite Radio³ capability (includes three-month trial subscription to XM Select Package), HD Radio™⁴ with iTunes® Tagging⁵ auxiliary audio jack, USB⁶ port with iPod⁷ connectivity and control, vehicle information with customizable settings, hands-free phone capability, phone book access, advanced voice recognition and music streaming via Bluetooth®⁸ wireless technology.

Entune™

The available Entune™ multimedia system is a collection of popular mobile apps and data services integrated with select Toyota vehicles. Entune™ includes three years of complimentary access to apps and services delivered via most smartphones and some feature phones. (After three years, access charges will apply; excluding Pandora®) Once the phone is connected to the vehicle using Bluetooth® wireless technology or a USB cable, the features of Entune™ are operated using the vehicle's controls. The data services of Entune™ include fuel prices, sports scores, stocks, traffic and weather. Apps available summer 2012 at no charge include iHeartRadio, MovieTickets.com and OpenTable®. See toyota.com/entune for availability of apps and services.

The standard audio system on Prius c delivers sweet sound at a sweet price. For starters, it's equipped with four speakers or available with six. And with a USB port, auxiliary audio jack and Bluetooth® wireless technology, the system provides you with hands-free phone capability, phone book access and music streaming.

TOUCH TRACER DISPLAY
This available feature places a duplicate image of the steering wheel-mounted controls on the Multi-Information Display. A quick glance at the display allows the driver to confirm which button will be pressed without having to look down at the steering wheel.

GET CONNECTED
With Prius c, you'll never find yourself without the right soundtrack for the drive. Equipped with both a USB port and an auxiliary audio jack, Prius c can handle almost any digital music device you can dish out.

The only thing tougher than pulling those skinny jeans on is pulling the keys out of your pocket.

Relax. Prius c offers the convenient Smart Key System.¹ This available feature allows you to open the car doors and even start the vehicle without having to extract your keys. So you can work that look and still work your car.

SMART KEY SYSTEM WITH PUSH BUTTON START

When the available Smart Key fob is within 2.3 ft. of Prius c, both the vehicle's front doors and its liftgate can be unlocked without a key. And the engine starts with the push of a button.

SOFTEX

Available SofTex seat material weighs approximately half as much as genuine leather, and its manufacturing process generates about 99% fewer Volatile Organic Compounds (VOCs) than that of conventional synthetic leather.

¹. See footnote 11 in Disclaimers section.

The neighbor asked you to help bring “Tulip” home from the shelter. Tulip’s a bullmastiff.

Good thing Prius c has available 60/40 split fold-down rear seats and 17.1 cu. ft. of cargo area,¹ so Tulip can plant himself in back with complete comfort. Though it’s a compact car, you’ll be impressed by how our engineers were able to offer so much practicality and so many creature comforts within Prius c. So don’t be surprised if Tulip makes himself at home — long before he actually gets home.

5-DOOR FLEXIBILITY

Whether you’re transporting a group of your friends or man’s best friend, you and your passengers will appreciate how easy it is to get into and out of Prius c. In addition to four doors that open wide, a large rear liftgate provides unencumbered access to the rear cargo area.

60/40 SPLIT FOLD-DOWN REAR SEATS

You could say that Prius c is loaded with capability. The available 60/40 split fold-down rear seats are engineered to offer a wide variety of custom seating and cargo configurations.

1. Cargo and load capacity limited by weight and distribution.

Prius c Four interior shown in Light Blue Gray SofTex trim.

And speaking of the rear seats — or more accurately, the space beneath them — that is where we've located the sealed Nickel-Metal Hydride (Ni-MH) battery. This design not only saves space, but also helps improve overall vehicle handling.

AVAILABLE MOONROOF

If you're a person who appreciates fresh air, then the eco-sensitive Prius c offers a win-win scenario with its available moonroof. Simply push a button, and you'll soon be breathing in that same fresh air you're helping to preserve.

AVAILABLE HEATED FRONT SEATS AND HEATED POWER MIRRORS

Prius c Four offers features typically found in higher-priced vehicles. Available SofTex-trimmed heated front seats give Prius c an added touch of luxury, while the convenience of available heated power mirrors helps you stay aware of your surroundings.

You read gas pumps are germmy things to touch. Help avoid them with a 53 city mpg rating.¹

You read right. Fortunately, you'll have plenty of time to pick up some hand sanitizer before your next visit to the gas station. Receiving an EPA-estimated 53 mpg rating¹ in the city, Prius c can not only help limit your contact with gas pump microbes, but also help limit your exposure to high fuel prices. And that could result in some healthy savings every month.

Super Ultra Low Emission Vehicle²

Prius c is rated as a Super Ultra Low Emission Vehicle (SULEV). SULEV is a designation that indicates this hybrid vehicle produces fewer smog-forming emissions than does an average gasoline-powered vehicle.

Fuel Economy Information

Offering an instantaneous readout of your current and average mpg, the handy Multi-Information Display allows you to continually monitor the fuel mileage of your Prius c.

Multi-Information Display

This color screen displays a wide variety of data to help inform the driver, such as cruising range, fuel economy, EV Driving Ratio, trip timer and outside temperature.

DRIVE INFORMATION

The drive information screen provides helpful trip information, such as average speed, driving time, EV Driving Ratio and distance, cruising range and outside temperature

ENERGY MONITOR

The energy monitor screen indicates the operation of the engine and hybrid system in real time. Hybrid Synergy Drive[®] employs the most efficient source of power when possible.

ECO SAVINGS

ECO Savings allows drivers to measure their savings against a customizable comparison vehicle. The customizable data includes fuel cost per gallon and a miles-per-gallon average.

1. See footnote 23 in disclaimers section. 2. Meets Tier-2/Bin-3 Federal emissions standard.

EV/ECO MODES

Prius c offers different modes for different types of driving. EV mode runs solely on battery power. ECO mode helps maximize fuel economy.

HYBRID SYNERGY DRIVE®

For more than a decade, Toyota has been a world leader in the development of advanced, eco-sensitive technology with our Hybrid Synergy Drive®. Hybrid Synergy Drive® combines a gasoline engine, two electric motor/generators, an Electronically controlled Continuously Variable Transmission (ECVT), and a high-voltage battery pack that powers the larger of the two motor/generators when it's driving the wheels. Depending on the situation, Hybrid Synergy Drive® can operate in electric-only, gas-only or combined electric/gas mode. With each generation, this tried-and-tested system continues to get more efficient, more reliable and more popular.

Prius c Four shown in Absolutely Red with available 16-in. 8-spoke alloy wheels.

REFINED AERODYNAMICS

To help improve the performance of Prius c, we positioned vortex generators at key points on the body. These projections help dictate airflow behavior around the vehicle, improving straight-line control and overall efficiency.

REAR SPOILER

The rear spoiler not only helps improve airflow dynamics at the back of the vehicle, it also gives the streamlined profile of Prius c an extra touch of sportiness.

1. See footnote 10 in Disclaimers section.

You've got a car full of friends. You've also got a road full of crazy drivers.

Your friends picked the right person to drive. Prius c comes standard with the Star Safety System,[™] a suite of six active safety features designed to help you stay out of harm's way. This advanced system includes Vehicle Stability Control (VSC),¹ Traction Control (TRAC),¹ Electronic Brake-force Distribution (EBD),¹ Anti-lock Brake System (ABS),¹ Brake Assist (BA)² and Smart Stop Technology (SST).³

Vehicle Stability Control (VSC)

To help compensate for a loss of traction while cornering and help prevent sideways slipping, VSC adjusts engine power, braking and steering torque-assist control to help the vehicle follow the direction in which it is being steered.

Traction Control (TRAC)

TRAC helps maintain traction on wet, icy, loose or uneven surfaces by applying brake force to the spinning wheel(s).

Anti-Lock Brake System (ABS)

ABS helps prevent brakes from locking up by pulsing brake pressure to each wheel to help you stay in control in emergency braking situations.

Electronic Brake-Force Distribution (EBD)

To help keep the rear wheels from locking up during sudden braking situations, EBD redistributes brake force.

Brake Assist (BA)

During emergency stops, BA is designed to detect sudden or "panic" braking, then add the brake pressure needed to help prevent a collision.

Smart Stop Technology (SST)

At speeds greater than five miles per hour, when the accelerator is depressed first and the brakes are then applied firmly for longer than one-half second, SST is designed to help the driver bring the vehicle to a complete stop.

CRUMPLE ZONES

An important element of occupant protection, crumple zones are structurally engineered to absorb and dissipate energy during a collision by a process known as controlled deformation.

ADVANCED AIRBAG SYSTEM¹

Prius c comes standard with a front Advanced Airbag System that provides dual stage functionality. In a collision, the system senses impact severity and adjusts airbag deployment accordingly.

DRIVER AND FRONT PASSENGER ADVANCED WIL² SEATS

Whiplash-Injury-Lessening (WIL) seatback frames are engineered to yield in a controlled fashion, reducing the motion differential between the occupant's head and torso, and helping minimize injury.

3-POINT SEATBELTS

Prius c provides 3-point seatbelts in all seating positions, while the front seats are also equipped with pretensioners and 2-step force limiters.

LATCH

LATCH (Lower Anchors and Tethers for CHildren) helps protect the smaller members of your family. LATCH includes lower anchors on outboard rear seats and tether anchors on all rear seats.

When driving a hybrid vehicle, pay special attention to the area around the vehicle. Because there is little vehicle noise in electric-only mode, pedestrians, people riding bicycles or other people and vehicles in the area may not be aware of the vehicle starting off or approaching them, so take extra care while driving. 11. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 12. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 13. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 14. Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your *Owner's Manual* for further details. 15. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your *Owner's Manual* for further information/warnings. 16. Whiplash-Injury-Lessening front seats can help reduce the severity of whiplash injury in certain rear-end collisions. 17. The Toyota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your *Owner's Manual* for details. 18. Hill Start Assist Control (HAC) is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 19. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or Smart Key fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or Smart Key fob, it can be costly to replace. If you lose a key or Smart Key fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org 20. Meets Tier-2/Bin-3 Federal emissions standard. 21. Hybrid vehicle battery expected life is 150,000 miles based on laboratory bench testing. 22. For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.
