1. 4-cylinder only.

2. FWD/SH-AWD performance or V6 Sedan trim available. 1.6L vs. a 2.7L engine with FWD/SH-AWD¹² performance levels are expected to increase by the time of the next generation model. The V6 may be less than 24,000 miles, depending upon driving conditions.

3. Hennessey® is a registered trademark of American Customs, Inc.

4. Functioning DVD navigation radio requires XM Satellite Radio capacity. XM Satellite Radio receiver and monthly service fees extra.

5. Touch-screen DVD navigation system¹³ with JBL AM/FM CD with XM Satellite Radio capability¹⁴; 315 watts (maximum output) and FM diversity reception.

6. (VS) Includes Vehicle Stability Control (VSC)¹¹ with Traction Control (TRAC).

11. Toyota Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under certain driving conditions. It is not a substitute for safe driving practices. Factors affecting speed, road conditions and driver input can all affect whether VSC will be effective in preventing a loss of control. Please review Owner's Manual for further details.

12. The Toyota V6 vs. front passenger, front and middle row seat air bags and side curtain air bags are Supplemental Restraint Systems (SRS). The driver and front passenger air bags are designed to deploy in severe frontal impact conditions while side curtain air bags are designed to deploy in side impact conditions.

- See your Toyota dealer for further details.
- E-Four (maximum output) on Camry models.
- V6 engines with 3.0L V6 engine.
- The Toyota Navigation System is designed to assist in locating an address or point of interest. Blockages may result between the vehicle and your current location. Changes in street names, road closures, traffic flow or other road system changes may affect the accuracy of the mapping software. You will have your own sense as to whether or not to follow a specific route. Default navigation is not available in every city. Optional national geographical updates available at an additional cost. See your Navigation System Owner's Manual and your Toyota dealer for further details.
- V6 engines with 3.0L V6 engine.
- Standard on EX-L V6. Requires E85 combustion on 3.0L V6 cylinder.

Side and side surface airbags are designed to inflate in certain types of severe side-impact collisions. In all other accidents, the airbag will not inflate. To decrease the risk of injury from a deploying airbag, stay well outside, sit upright in the middle of the seat as far back as possible before the airbag inflates and do not lean against the door. The net load weight of front passengers is important to the proper deployment of the side airbag. If the side airbag does not inflate, the force of a deploying side airbag may cause serious injury or death. Please see your Owner's Manual for further instructions.

12. Toyota's tire pressure monitoring system users: Be aware that tire pressure is critically low. If you inflated tire pressure and performance, tire pressure should be checked regularly with a gauge, do not rely solely on the Monitor System. See your Owner's Manual for details.

14. Toyota vehicles equipped with BSI audio.

22. Available for models with factory ordering.

TOYOTA FINANCIAL SERVICES®

Now that you're thinking about a Toyota, you may also want to consider leasing or financing the purchase of your new vehicle through your participating dealer and Toyota Financial Services (TFS). TFS offers a variety of high-quality finance and lease products to complement your lifestyle. At TFS we realize that acquiring or leasing a vehicle is a major commitment and we have developed some of the finest customer-focused finance and insurance solutions to help protect your interests over time. And in most cases, you may include your cost for these products in your finance or lease contract. Few companies can boast the expertise, customer care and total value of TFS. Ask your Toyota dealer or go to www.toyotafinancial.com for details.

TFS® Financial Services is a service mark of Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc. Products are available to qualified customers through participating Toyota dealer and Toyota Financial Services.

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, front-wheel drive, rear-wheel drive, drive shafts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable state and local laws.

For accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

Owner's Warranty Information booklet for details.
Accessories: For accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.
