

VOLVO S60

Life is good.

Enjoy it.

The Volvo S60 is the Swedish sports sedan for passionate drivers. With uncompromising performance, comfort and safety – and a sense of style that leaves no doubts about the capacity of this driving machine. Whether you intend to cross continents or simply rediscover the fun of a twisting road, this is the tool to make the most of your time behind the wheel. So take your seat in the Volvo S60 and go for a drive. Then use the vanity mirror to check that mile wide grin.

Power is at your disposal.

The T5 engine is the most powerful alternative. It can propel the Volvo S60 to 60 mph in just 6.6 seconds and it delivers an impressive 258 ft./lbs of torque. So you're always empowered to deal with a tricky situation. The 2.5T engine provides 236 Ft./Lbs of torque and is available in either All-Wheel Drive or Front-Wheel Drive. Whichever engine you choose, drivetrain and chassis perform as one. Acceleration is never delayed. Liveliness is assured by immediate response throughout the entire range of rpm. Modest fuel consumption is the product of low internal friction, lightweight materials and advanced engine management. And of course, environmental demands are met – often with room to spare.

Every corner is a short affair.

Beyond the power source itself, the chassis is what dictates the car's ride performance. In the Volvo S60, a torsionally rigid body and refined chassis with sports-tuned shock absorbers, suspension spring dampers and stabilizer bars interact to make body movement more agile and steering more responsive. All in all, a remarkably tight ride.

Transmission

The five-speed Geartronic automatic is a pleasure in any situation. Leave it in automatic mode for carefree driving, or nudge it into manual mode to shift gears yourself. This allows you to maintain a lower gear, for example, to provide added engine braking as you approach a curve.

Chassis

The sporty chassis of the Volvo S60 helps provide a firm stance and an exceptional hold. Multi-link rear suspension counteracts any tendency to understeer, while McPherson front suspension struts promote quick and crisp response to sudden turning and braking.

ABS brakes with Emergency Brake Assistance (EBA)

The anti-lock brakes are designed for optimal performance even during repetitive and intensive use. You can brake as hard as you like as you steer clear of trouble. EBA detects attempted emergency braking and, when necessary, provides added assistance to bring the car to standstill in the shortest possible distance.

All-Wheel Drive with Instant Traction™

Providing instant take-off and superior grip, the electronically controlled all-wheel drive system employs Instant Traction technology. Constant hydraulic pressure ensures that power is immediately distributed among the wheels with the best grip. Wheel spin is minimized while acceleration and stability are enhanced, not least in slippery conditions. When cruising on straight dry roads, the front wheels receive up to 95% of the power for efficiency. As conditions change, up to 50% of the power can be directed to the rear wheels. And when cornering, the system channels power back and forth to provide sharp turning and greater stability throughout the curve.

You're in command.

When you climb into the driver's seat, the Volvo S60 puts the road ahead into its proper perspective. The highly adjustable seat and steering column help create perfect ergonomics. Instrumentation is clearly presented, controls are intuitive. With two hands on the wheel, all important functions are at your fingertips. If it starts raining, sensors will take care of the wipers* and when it gets dark, the auto-dim rear view mirror automatically adjusts.

* Included in the Optional Climate Package

Stay as long as you like.

The places where you choose to spend your time say a great deal about you. The Volvo S60, for example, is an environment that's both stimulating and warm. It's clearly a driver's car and yet it doesn't compromise the comfort of its passengers, as the sculpted seats and generous legroom show. So when the pleasure of the drive is over, you're still in shape to enjoy your destination.

Center armrest

Concealing cup holders and a storage compartment, the center forward armrest opens up to provide space for your drinks and snacks, and even a small table for rear seat passengers.

Multifunctional armrest

The cabin's center console incorporates several facilities: two cup holders concealed by the sliding cover, a handy storage space in front of the comfortable armrest, and special recesses for small items.

Rear seat ventilation

Providing rear seat passengers with the opportunity to control ventilation, these adjustable vents are placed on either side of the car.

Coat hanger

On the front passenger seat head restraint there's a convenient hook where you can keep your jacket within easy reach from the driver's seat.

Rear seat center armrest

When there are only two rear seat passengers, this armrest folds down to accommodate elbows, drinks and other knickknacks.

Premium Sound (standard T5, optional 2.5T and 2.5T AWD)

The supreme sound system for the most discerning music lover. The power durability and exceptional transient reproduction of the speakers, combined with the amplifier's high capacity, result in a truly exquisite and dynamic sound. Dolby Pro Logic II surround sound offers an authentic listening experience wherever you are seated. Premium Sound includes:

- 13 Premium Sound speakers
- Dolby Pro Logic II surround sound
- AUX input
- HU-850 RBDS radio with 6-CD changer
- 4x75-watt Premium Sound amplifier plus 25 watts for the center speaker

Dolby, Pro Logic, and the double-D symbol are registered trademarks of Dolby Laboratories.

Performance (standard 2.5T and 2.5T AWD)

A console integrated radio and CD player—it sounds good and it's easy to use. Performance includes:

- 8 speakers
- AUX input
- HU-650 radio with a built-in 4x25-watt amplifier and single CD player

Volvo Navigation System (VNS)

Voice guidance, and graphic navigation if you like, all the way to your chosen destination. Controlled from the steering wheel integrated remote, the system is simple to use and offers a variety of visual formats. When it's not needed, the screen retracts into the dash.

iPod® Music interface

The iPod interface allows you to connect and have complete control of your iPod® directly through the car's audio system. Search by Artist, album, song or musical style directly through your radio controls. Retailer installed accessory.

Expert security.

Sturdy door locks and an electronic immobilizer make stealing this car difficult, not to mention the remote-controlled alarm. Add a level sensor and the alarm will be triggered if the car is jacked up. The Volvo S60's Approach and Home Lighting provide a sense of security when coming and going at night. But if an emergency should occur, the panic button on the remote control lets you sound the alarm.

Safety comes naturally.

It's in the genes – an uncompromising ambition to both protect and celebrate life. It's human nature. And it's what makes a Volvo a Volvo. For decades, we've created cars that both encourage people to enjoy life and offer protection in the event of an accident. In fact, thousands of people all over the world can say they're still alive because of a Volvo. This is not by coincidence. Our founders stated that safety is, and will always be, at the heart of what we do.

As a result, Volvo is recognized the world over for our passion to provide the safest cars on the road.

The protective character of a Volvo also encompasses the world we share. As far back as 1972, Volvo was the first car manufacturer to acknowledge the environmental downside of cars. Since then, we've been committed to reducing the environmental impact of the cars we make and how we make them. Therefore, choosing a Volvo will never be something you do just for yourself. Not that you can't, but our cars will always consider the well-being of more than one. Even if those people happen to be outside your car or are part of future generations. It's just the way we are.

Innovations for life.

- In 1959, Nils Bohlin, a Volvo safety engineer, invented the three-point seat belt. So important is this invention that it is considered to be one of the most life-saving technical innovations in the history of mankind.
- In 1976, Volvo Cars was the first car manufacturer to introduce the three-way catalytic converter with an oxygen sensor for exhaust emission control. Today virtually all gasoline-powered cars are equipped with this ingenious component – just as indispensable for the environment as the three-point seat belt is for safety.

These are only two examples of Volvo's most important safety and environment innovations. You'll find a lot more on www.volvocars.com/corporation

"Cars are driven by people. Therefore, the guiding principle behind everything we make at Volvo is – and must remain – safety."

*Assar Gabrielsson and Gustaf Larson,
founders of Volvo*

After 36,000 crashes, you begin to know what you're doing.

The best way to learn what really happens before, during and after a car crash, is to be there. Since 1970, Volvo's Accident Research Team has investigated accidents involving Volvo cars on Swedish roads. Today, our own statistical database contains over 36,000 accidents with more than 60,000 occupants.

Our accident researchers are on stand-by 24/7. If there's an accident involving a newer Volvo car within 60 miles of Göteborg, our researchers are instantly alerted by the rescue team. In addition to studies on the scene of the accident, our researchers also investigate what happened before the crash to understand how to improve the driver's ability to avoid a collision.

Volvo Cars Safety Center – the world's most advanced crash laboratory

Based on the findings from our accident research, we can recreate a variety of real-life traffic situations and crashes. Beyond numerous virtual crash tests in super-computers, we perform around 450 crashes each year. We crash test car-to-car at different speeds and with other kinds of vehicles and road obstacles. We perform frontal impacts, rear impacts, side impacts and roll-over tests and test cars off-road as well as against genuine Swedish granite rock-face – we can even simulate impacts with wild animals.

If you make it here, you make it anywhere

Other car manufacturers come to Sweden for final car testing under harsh and capricious conditions. For us it's home. Our own proving ground Hålleröd with its 34 miles of test tracks includes different road types from all over the world. Here we scrutinize our cars' ability to support their drivers in all imaginable and unimaginable situations during thousands of test miles – not to mention the distances driven on ordinary Swedish roads.

Our engineers spent more than 80 years designing this car.

You're looking at one of the safest cars in the world. Not because this car displays the highest number of airbags in the industry (it probably doesn't), but because of how well the different safety technologies interact to keep the occupants out of harm's way. What's more, what you see is the result of the collected efforts from generations of dedicated Volvo safety engineers. So if you share our passion for safety, this may be the most exciting image in the whole brochure.

In a frontal collision the patented frontal structure will yield to help absorb crash energy, while longitudinal steel struts in the doors helps disperse crash energy away from the front to the rear of the car. The compact power train is designed to help optimize deformation. Inside the car, seat belts interact with the collapsible steering column and multi-stage airbags to help keep the occupants out of harm's way. A lower cross member helps protect occupants in an oncoming car with lower positioned bumpers.

In a roll-over the extremely sturdy safety cage and reinforced roof structure will help protect the occupants while the seat belts help keep them restrained in their seats. If the car first has been hit from the side, the Inflatable Curtain (IC) deploys to help provide head protection and help keep the occupants inside the cabin.

In a side impact Volvo's unique Side Impact Protection System (SIPS) helps protect the occupants. The extremely strong door and side structure is designed to help withstand a severe side impact – even with a larger vehicle. The dual-chamber side airbags in the front seats help protect the chest and hip, while the Inflatable Curtain (IC) adds head protection.

In a rear impact the rear deformation zones will help absorb crash energy. The fuel tank is designed to remain well protected in front of the rear axle. The head restraints help protect the neck and spine, and Volvo's unique Whiplash Protection System (WHIPS) cradles the front seat occupants in a controlled manner to help prevent whiplash injuries.

Maximize your experience. Not your carbon footprint.

We believe it's more fun to drive a car that cares both for people and the environment – be it outside or inside the vehicle. Utilizing advance engine technology and emission control, the Volvo engines are designed to combine high performance with low environmental impact. This caring attitude continues inside your Volvo. Here you and your passengers can experience one of the automotive industry's cleanest and healthiest cabin environments. It's as enjoyable as it's responsible. Just as you would expect of a Volvo.

Emission controls

All Volvo engines comply with stringent international environmental requirements. Advanced emission control eliminates between 95 and 99% of carbon monoxide, hydrocarbons and nitrogen oxides from engine exhaust gases. The catalytic converter is positioned to provide optimum exhaust conversion sooner after cold starting.

Low emission interior

To ensure that you and your passengers are not exposed to harmful emissions or unpleasant odors, we test individual upholstery and interior trim items as well as complete interiors in the Volvo Environmental Laboratory in Sweden. All upholstery materials and interior textiles also comply with Oeko-Tex Standard 100 – an international benchmark for human ecological safety of textiles. All leathers are tanned by a process that only uses vegetable or synthetic substances instead of chromium. In addition, several interior details made of metal are tested for contact allergies – they even meet the same nickel leakage requirements as jewelry.

Clean cabin air

A cabin air filter removes dust, pollen and other particles from the incoming air. Volvo's Interior Air Quality System (IAQS)* continuously monitors incoming air and can shut out carbon monoxide, ground-level ozone and nitrogen dioxide. This helps to ensure that the air you breathe in the car is cleaner than that outside when driving in heavy city traffic and tunnels.

*Standard in T5. Included in the Advanced Package on 2.5T and 2.5T AWD

DRIVE 

Accessories.

Volvo's accessories help you make your Volvo S60 even more suited to your personal needs. They are the only ones that have been tested to meet Volvo's exacting safety, quality and environmental requirements. You can also rest assured they're a perfect match to the technology and design of your Volvo.

FOR DRIVING FREEDOM

- Homelink
- Moonroof wind deflector
- Park assist, front and rear
- Portable navigation system
- Volvo hands free with Bluetooth

FOR YOUR ENTERTAINMENT

- CD holder glove compartment
- Satellite Radio
- Volvo USB and iPod music player

FOR PRECIOUS CARGO

- Booster cushion and backrest
- Child activity bag
- Child mirror
- First aid kit
- Padded neck cushion
- Padded upholstery and headrest
- Sun screens

FOR UNEXPECTED SITUATIONS

- Car cover
- Electric engine heater
- Jumper cables
- Leather care kit
- Mud flaps, front and rear
- Snow chains
- Warning triangle

FOR YOUR LEISURE

- Ashtray
- Bike carrier, roof mounted
- Bumper protective cover
- Business bag organizer
- Canoe/Kayak carrier, roof mounted
- Cargo box, roof mounted
- Cup holder, center com
- Floor mats, rubber
- Load basket, roof mounted
- Load securing net trunk floor
- Luggage compartment mats
- Net pocket, side panel cargo area
- Portable electric cooler / hotbox
- Load bar carrying system

Shopping bag holder

- Ski carriers, roof mounted
- Snowboard carrier, roof mounted
- Sun glasses holder
- Surfboard carrier, roof mounted
- Trailer hitch mounted bike carrier
- Trailer hitch mounted load basket
- Trailer hitch mounted ski carrier
- Trailer hitch step
- Trailer Hitch, 2" Square profile
- Trailer mirrors
- Tunnel mat

FOR YOUR LOOKS

- Aluminum wheels, 18" & 17"
- Body kit
- Chrome wheels, 18" & 17"
- License plate frames
- Locking lug nuts
- Sill moldings, Volvo logo
- Sport floor mats
- Sport gear shift gaiter
- Sport gear shift knob
- Sport steering wheel
- Trunk spoiler
- Valve stem caps
- Wood steering wheel

Interior selection.

Taupe interior with Sport leather Light taupe upholstery (9A81), Genuine Wood Inlay (standard 2.5T and 2.5T AWD)

Graphite interior, Sport leather Graphite upholstery (9A70) (standard 2.5T and 2.5T AWD)

Genuine Wood Inlay
2.5T, 2.5T AWD

The Volvo S60 offers exclusive interior options to go with your personality. All our leather and fabric upholsteries are approved by Oeko-Tex. This means they're tested for certain allergy-inducing and harmful substances. Make your choices to compose your own interior styling.

Taupe interior with Inscription Linen White Soft Leather upholstery (DHFL), Aluminum Mesh Inlay (standard T5)

Graphite interior with Inscription Graphite Soft Leather upholstery (DH0G), Aluminum Mesh Inlay. (standard T5)

Aluminum Mesh Inlay
Standard T5, included in advanced package
on 2.5T and 2.5T AWD

Aluminum wheels.

Eudora 8x18" alloy wheels
Silver Bright
(Optional T5 only)

Talos 7x17" alloy wheels
Silver Bright
(Included in Optional Advanced
Package On 2.5T, 2.5T AWD)

Cassiopeia 7.5x17" alloy wheels
Silver Bright/Diamond cut
(Standard T5)

Echo 6.5x16" alloy wheels
Silver Bright
(Standard 2.5T AWD)

Eurus 7x16" alloy wheels
Silver Bright
(Standard 2.5T)

Standard features.

CLIMATE PACKAGE (2.5T, 2.5T AWD, T5)

In a Volvo you're always prepared to deal with the ever-changing forces of nature. And to increase comfort when driving in cold, rain or snow – simply add the Climate Package.

- Headlight washers*
- Heated front seats
- Rain sensor

*Standard on T5

ADVANCED PACKAGE (2.5T, 2.5T AWD)

- 7x17" Talos Alloy wheels
- Dual Xenon gas discharge headlights with Active Bending Lights
- Mesh Aluminum inlays
- Dolby Pro Logic II Surround Sound with 13 speakers
- Grocery bag holder
- Homelink
- HU-850 Radio/6-CD/surround sound
- Interior Air Quality System (IAQS)
- Rear park assist
- Speed sensitive steering
- Sunglass holder

Volvo S60 specifications.

ENGINES

Five-cylinder in-line engine. Double overhead camshafts, 20 valves. Continuously variable valve timing on both the intake and exhaust side (2.5T and T5). Electronic engine management system. Three-way catalytic converter with a heated oxygen sensor. 2.5T and T5 also feature turbocharger and dual-charge air coolers (Intercoolers).

Volvo S60 2.5T AWD (208 hp)

Volvo S60 2.5T (208 hp)

This smooth running engine with a light pressure turbocharger provides a lively yet beautifully balanced driving experience. Access to the engine's full potential (236 ft./lbs.) is available from just 1500 rpm – for a very quick start and plenty of acceleration for passing. Continuously Variable Valve Timing for both intake and exhaust valves (dual CVVT) ensures excellent performance and cleaner exhaust emissions under all driving conditions.

Engine type: 2.5-liter five-cylinder turbocharged engine

Max power output: 208 hp at 5000 rpm

Max torque: 236 ft./lbs. at 1500–4500 rpm

Acceleration 0–60 mph: 2.5T 6.9 (2.5T AWD 7.2 sec)

Top speed: 130 mph

Fuel consumption, mpg, highway/city: 28/19 2.5T, 26/18 2.5T AWD

Environmental classification: ULEV II

Transmission: Five-speed automatic 2.5T, five-speed geartronic automatic 2.5T AWD

Volvo S60 T5 (257 hp)

This highly efficient, turbocharged engine is an impressive performer. With plenty of punch throughout the range of rpm, full torque (258 ft./lbs.) is available at just 2100 rpm. High turbo charge pressure means extra power at high rpm and an invitation to an active style of driving. The turbocharger too, has an over-boost feature that provides additional power when pushed, for instance when passing. Continuously Variable Valve Timing for both intake and exhaust valves (dual CVVT) contributes to the engine's quick response and steady power flow. It also helps the engine meet stringent exhaust emission requirements.

Engine type: 2.4-liter five-cylinder turbocharged engine

Max power output: 257 hp at 5500 rpm

Max torque: 258 ft./lbs. at 2100–5000 rpm

Acceleration 0–60 mph: 6.6 sec

Top speed: 130 mph

Fuel consumption, mpg, highway/city: 26/18

Environmental classification: ULEV II

Transmission: Five-speed Geartronic automatic

DRIVELINE

Front wheel drive (2.5T AWD features a pre-charged electronically controlled AWD with Instant Traction™ all-wheel drive system). Transverse engine.

Five-speed automatic transmission, standard on 2.5T. Five-speed Geartronic transmission with lock-up function, winter mode and manual mode. Standard on T5 and 2.5T AWD, optional on 2.5T.

The responsive five-speed automatic facilitates a smooth and comfortable drive. For the best of both worlds there's the option of Geartronic, a responsive five-speed automatic for relaxed driving. This also offers manual gear shifting so that you can maintain a lower gear to rev the engine or provide the added assistance of engine braking. A special winter setting makes it easier to move off and maintain grip on slippery surfaces.

CHASSIS

Front suspension with spring struts (McPherson), anti-dive and anti-lift function. Multi-link independent rear suspension attached to an aluminum sub-frame. Stabilizer bars front and rear. STC (Stability and Traction Control) or DSTC (Dynamic Stability and Traction Control).

The rigid body and wide wheelbase enable optimal suspension performance, balanced handling and a high level of comfort. The front and rear suspensions interact to provide stable braking and smooth steering. In a curve, the rear wheels have a slight steering facility for added stability and steering response. The DSTC system cuts in if either of the drive wheels begins to lose traction or if a skid is imminent.

STEERING

Power-assisted rack and pinion steering. Tilt and telescopic steering wheel column. 2.8 – 3.0 turns lock to lock. Turning circle 35.4-38.7 ft.

Behind the wheel, you can enjoy steering that's both responsive and reassuring at all speeds. The optional speed dependent power steering gives progressively less power assistance the faster you drive. Higher steering precision and enhanced road feedback are easily enjoyed benefits. At lower speeds, added power assistance makes the car even easier to maneuver, for instance when parking.

BRAKES

Power-assisted anti-lock disc brakes (ABS), ventilated discs front. EBA (Emergency Brake Assistance). EBD (Electronic Brake Distribution) between the front and rear brakes. Diagonally split braking system.

Powerful anti-lock disc brakes help to ensure a short stopping distance in all conditions and withstand tough use without fading. EBA helps you use your brakes to the full in an emergency situation, while EBD distributes the braking effect between the front and rear wheels in order to achieve optimal results according to the car's load and driving conditions.

FUEL TANK

18 U.S. Gallons

Meet the family.

To live life is to care about it.

S

Volvo S40 The compact and energetic sedan.

Volvo S60 The sports sedan worth getting passionate about.

C

Volvo C30 The compact and charismatic SportsCoupe.

Volvo C70 A convertible when you want it.

Volvo C70 A coupe when you need it to be.

Every moment in a Volvo is a moment designed to celebrate life. A life full of twists and turns, ups and downs; the little things as well as the big ones. Of course, to live life to its fullest isn't just about you; caring for others is important as well.

For more than eighty years we have helped save lives on roads around the world. Nevertheless, when it comes to improving automotive safety, we will never be satisfied. And while we're seeking new solutions, our existing safety systems are preventing many accidents from happening and providing some real protection when they do.

Our passion for life means looking after our children's children, too. Which is why we try to balance the needs of our company with those of society. With this bigger picture in mind, we develop engines and technology that have less impact on mother earth. This approach also explains why we pay so much attention to your immediate environment – in the car. Simply put, we care about you – and the whole circle of life.

Taking care of your ownership needs.

It's a simple idea; one point of contact for all your car ownership needs, whether it's finding the right financing or who to contact in an emergency. Get the most out of owning your Volvo.

Volvo Car Finance North America

If you purchase or lease your Volvo through Volvo Car Finance North America, you can take advantage of services designed to make financing simple and convenient. Quick Debit, for instance, enables you to have your monthly payment automatically debited from a designated bank account. For more information, call 1-800-770-8234 or visit www.volvofinance.com

On Call roadside assistance

Whenever you need us, we're just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist. Whether you require roadside assistance or maps and routing information for your next trip, refer to your On Call Card and dial 1-800-63-VOLVO – anytime, day or night. Your complimentary four-year membership activates the moment you become a Volvo owner.

Volvo new car warranty

Your new car warranty provides comprehensive coverage for four years or 50,000 miles, whichever occurs first. Additional warranties cover corrosion, seat belts, the supplemental restraint system, emission systems, genuine Volvo replacement parts and genuine Volvo accessories. Should you encounter any problem with your Volvo, simply contact the nearest retailer for assistance. Where your warranty ends, Volvo Increased Protection (VIP) plans begin. To purchase the additional protection of a VIP plan, contact your local retailer.

Complimentary Factory Scheduled Maintenance

Volvo is committed to a premium ownership experience for its customers. To further enhance your ownership experience, all 2009 model year Volvo's sold new through Volvo retailers in the United States will include Complimentary Factory Scheduled Maintenance. This program provides scheduled maintenance coverage for the first 3 years or 36,000 miles, is designed to compliment your Volvo warranty, and will help ensure trouble free operation of your Volvo. Coverage includes factory recommended maintenance including oil and filter changes, checks and adjustments as listed in your Warranty and Maintenance Records Information booklet, for the first four maintenance services at intervals of 7,500, 15,000, 22,500 and 30,000 miles

Service must be performed within 1,500 miles before or after each scheduled interval. Coverage is limited to scheduled maintenance items listed in the 2009 model year Warranty and Maintenance Records Information booklet. Normal wear items such as brake pads and wiper blades are not covered under the Complimentary Factory Scheduled Maintenance. An authorized retailer must perform maintenance. Offer is transferable.

Optional Factory Scheduled Maintenance program upgrades are also available that will allow you to customize coverage to meet your driving needs. See your Volvo retailer for details.

Volvo genuine service

The best way to ensure superior performance year after year is to bring your Volvo to your authorized retailer for regular maintenance. Our service advisors and factory-trained technicians are uniquely qualified to maintain your automobile. With the aid of advanced Volvo diagnostics, they follow all prescribed factory maintenance outlined in your service interval manual. Genuine Volvo Service is our ongoing commitment to you: to keep your Volvo performing smoothly long after other cars have given up.

Volvo mobility program

The goal of the Volvo Mobility Program is to assist persons with physical disabilities or hearing impairment achieve independence. For those with exceptional transportation needs, freedom can be facilitated within the extraordinary comfort and safety of a specially adapted Volvo. For additional information on this program, please contact the Volvo Mobility Program Headquarters at (800) 803-5222 or visit www.volvocars.us/mobility. TTY users are invited to call 1-800-833-0312.

Personal shopper

The Volvo Personal Shopper is dedicated to providing you with a whole new level of shopping convenience.
