

VOLVO V70

Astronomers say the universe is expanding. We say, your car is ready.

Most accommodating. That's a fair description of the Volvo V70 and, not surprisingly, those who own one. A marvel of contemporary luxury and utility, this car is proof that generosity never goes out of style.

Life is better lived together.

Volvo. for life

Shown with optional Premium package, roof rails and 17" Canicula alloy wheels.

Most cars offer a pleasant escape. This one also offers a safe return.

State of the art technology once only found among the clouds is now available at road level. In this case, we're talking about the Collision Avoidance Package*, featuring Collision Warning with Auto Brake, Driver Alert Control, Lane Departure Warning, Distance Alert and Adaptive Cruise Control.

Using advanced radar and video technology, these features monitor the vehicles driving up ahead and help identify your lane – not to mention any slow moving vehicles in your lane – and even remind you when it's time for a break; all to help you reach your destination without incident. But please note: the most intelligent safety feature in any car is the driver. Remaining alert is your responsibility.

*Optional, Requires Premium Package

Shown with optional Premium package, roof rails and 17" Canicula alloy wheels.

Like you,
this car brings
more to the party.

Shown with optional Premium package, roof rails and 17" Canicula alloy wheels.

It's not all about you, but we'll make an exception here.

Drive the Volvo V70 and center stage is yours. Inside, there is nothing fussy – just clean, Scandinavian design that manages to reduce stress and simplify the use of some very sophisticated onboard technology. The floating center console presents intuitive controls for the audio and climate systems within easy reach. The highly adjustable seat and steering column will help you find your perfect driving position quickly and easily. The power driver's seat with memory allows three drivers to set their preferences for both the seat and the mirrors.

Rear Seat Entertainment (RSE) dual screen*

With Volvo's new generation DVD-based RSE dual screen, the rear seat passengers can enjoy a film or play a game – together or separately. Two 8-inch wide-screen displays are integrated in the front seat head restraints and provide excellent image quality. Cordless headphones keep things calm in the cabin and you can listen to the music or program of your choice. Via an AUX input, you can also connect external devices such as an iPod®, MP3 player, extra DVD player or a digital camera. The RSE system is an integrated part of the car. It matches the interior perfectly and is available with all upholstery.

*Optional

Integrated Bluetooth® handsfree system

Bluetooth® technology enables a mobile phone to be connected to the infotainment system in your Volvo – wirelessly. Once configured for a mobile phone, the system automatically recognizes your phone as you enter the car. You then operate your phone using the buttons in the steering wheel. As you climb in and out of the car, the system automatically allows you to switch freely from the phone to the handsfree system and back again.

® The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Volvo Car Corporation is under license. Other trademarks and trade names are those of their respective owners.

Volvo Navigation System (VNS) with RTT (Real Time Traffic)*

Volvo's GPS-based VNS navigation system is totally integrated with your car. It offers both voice guidance and graphic navigation all the way to your destination. Via TMC (Traffic Message Channel) radio data broadcasts, VNS also lets you know if there's weather or traffic-related trouble on route and recommends an alternative. The VNS system is easily controlled from the steering wheel or a remote, and the screen is positioned so you can keep your attention on traffic. Volvo's Navigation System includes Map Care which provides two map data updates at no charge.

*Maps do not cover all areas or all routes within an area. Also constant expansion and rebuilding of the road network mean that the digital map database is not always the latest road information. Always follow relevant regulations and road information.

Optional

Safety and comfort in equal abundance.

The elegant simplicity of modern Scandinavian design is well represented throughout the deluxe cabin and cargo area of the Volvo V70. Here you'll find more comfort for passengers, more storage for personal effects, more cargo space for your gear, and more of what we're known for and proudest of – safety. Innovations include integrated child booster cushions (with two stages for growing children), and longer rear seat inflatable side curtains.

Yes, you can have it all.
And you can bring a good portion of it with you.

Other cars get driven. The Volvo V70 is built to be exploited. With a cargo volume of 20.3 cubic feet (and that's with the rear seatbacks up) there's plenty of room for provisions of most any sort or dimension. An optional power tailgate makes opening and closing effortless and there are many loading and towing accessories available to help you manage the awkward bundle or boat – with style. After all, this is a luxury car, but with a service entrance.

Shown with optional Premium package, roof rails and 17" Canicula alloy wheels.

Power tailgate (optional)*

The tailgate can be opened automatically three ways: with the remote control, using the switch on the dashboard, or by pulling the handle. To help minimize risk of injury, only a switch in the tailgate can be used to trigger automatic closing. Also, an anti-jam strip around the tailgate opening can detect obstructions to help avoid any pinched fingers.

Loading systems

The floor of the cargo compartment features new Cargofix rails equipped with four sliding hooks that can be used to secure items. When not in use, the hooks retract into the load rails. Additional hooks are provided on both sides of the cargo compartment just below the rear side windows. Load carriers, load covers, and other accessories are available to insure your cargo always travels first class.

*Included in Convenience Package

Security

The closed tailgate – just by the function of its elegant design – overlaps and locks the compartment hidden under the cargo area floor. To keep this private storage area inaccessible to other users of the car, e.g., valet parking, you can set your private locking preferences to include the tailgate with your other lockable storage areas.

Fold down as much of the 40/20/40 split rear seat as you need to combine cargo and passengers comfortably and safely. The head restraints tuck conveniently out of the way, providing a flat-floored space for cargo. You can also add a floor-attached load securing net** and a net pocket** for each side panel. To conceal equipment in the cargo compartment, simply pull out the retractable load cover.**

For unexpected shopping bargains and particularly bulky items, you can fold the front passenger backrest forward. This provides a long, flat-floored loading compartment from the tailgate to the dashboard. If that's not enough, there's a Volvo roof-mounted carrying system** to keep your stuff high and dry.

**Retailer Installed Accessory

The accelerated program for the gifted.

There is a feeling of safety that comes with the ability to accelerate quickly. The 3.2-liter Volvo engine, perfectly mated to the 6-speed Geartronic transmission, is engineered to make that feeling last. This is powertrain built with the mandate to do more with less.

Shown with optional roof rails.

This is one wagon that can also carry a tune.

Volvo's modern sound systems are among the best in the world – especially the Dynaudio Premium Sound System with Dolby® Pro Logic® II Surround and twelve spectacular speakers from the Danish studio-monitor specialist, Dynaudio. The Dolby® Pro Logic® II Surround system utilizes two center speakers and sophisticated sound processing calibrated especially for the interior of the Volvo V70. This set-up ensures that every passenger enjoys a well-balanced stereo presence regardless of seating position – a remarkable achievement considering most passengers don't sit in the middle.

Dynaudio loudspeakers

The twelve high-end loudspeakers by the Danish sound specialist Dynaudio in the Premium Sound system are powered by a 5x130 W digital amplifier. There are three separate drivers – woofer, midrange and tweeter – in each front door. In the rear doors there is a similar set-up with a woofer and tweeter and there's an available 260-watt subwoofer you can feel. Each speaker has its own crossover filter to harmonize with the others. The latest generation Dolby® Pro Logic® II surround sound uses the center loudspeakers (woofer and tweeter) and a sound processor to recreate authentic sound with a strong sense of presence for everyone in the car. The digital class D amplifier features new technology to provide extremely high efficiency, enabling it to generate the most audio power from the least amount of current.

Dynaudio Premium Sound System*

This is our top-of-the line audio system designed for dynamic clarity with the entire sound spectrum. This system features twelve loudspeakers by Dynaudio – a world leader in loudspeaker technology. In addition, Dolby® Pro Logic® II surround sound helps tailor a well-balanced audio experience for each occupant. Premium Sound includes:

- Steering wheel integrated controls
- MP3 and WMA compatible CD player
- AUX input in front center armrest
- 5x130 W digital class D amplifier
- Dolby® Pro Logic® II surround sound with center loudspeaker and digital sound processor
- 12 high-end loudspeakers by Dynaudio
- Rear seat headphone jacks and audio controls

Dolby, Pro Logic, and the double-D symbol are registered trademarks of Dolby Laboratories.

*Included in the Optional Technology Package

High Performance audio system

This is a powerfully versatile system. Each loudspeaker is fitted with a powerful magnet and a large coil. In combination with the amplifier, this system promotes excellent transient reproduction and high power – quite simply superb sound. This High Performance system includes:

- Steering wheel integrated controls
- MP3 and WMA compatible CD player
- AUX input in front center armrest
- 4x40 W amplifier
- 8 High Performance loudspeakers

Options: rear seat audio console, USB and iPod® Music Interface and 260 W subwoofer.

Volvo satellite radio*

Satellite radio is now available for your Volvo. Volvo has joined

forces with Sirius to offer an integrated satellite solution that is sure to provide endless listening enjoyment.

*Included in the Optional Technology Package

Registered guests only.

Intruders beware. The Volvo V70 knows who belongs and who doesn't. The optional Personal Car Communicator helps sort out key holders from the crowd. Check your PCC remote on your return to your car and an onboard heartbeat sensor can warn you if someone unexpected is in there. Avoiding confrontations of this sort can be most beneficial. There is also a level sensor available that can warn you if someone is attempting to tow away your car or steal your wheels.

Safety comes naturally.

It's in the genes – an uncompromising ambition to both protect and celebrate life. It's human nature. And it's what makes a Volvo a Volvo. For decades, we've created cars that both encourage people to enjoy life and offer protection in the event of an accident. In fact, thousands of people all over the world can say they're still alive because of a Volvo. This is not by coincidence. Our founders stated that safety is, and will always be, at the heart of what we do. As a result, Volvo is recognized the world over for our passion to provide the safest cars on the road.

The protective character of a Volvo also encompasses the world we share. As far back as 1972, Volvo was the first car manufacturer to acknowledge the environmental downside of cars. Since then, we've been committed to reducing the environmental impact of the cars we make and how we make them. Therefore, choosing a Volvo will never be something you do just for yourself. Not that you can't, but our cars will always consider the well-being of more than one. Even if those people happen to be outside your car or are part of future generations. It's just the way we are.

Innovations for life.

- In 1959, Nils Bohlin, a Volvo safety engineer, invented the three-point seat belt. So important is this invention that it is considered to be one of the most life-saving technical innovations in the history of mankind.
- In 1976, Volvo Cars was the first car manufacturer to introduce the three-way catalytic converter with an oxygen sensor for exhaust emission control. Today virtually all gasoline-powered cars are equipped with this ingenious component – just as indispensable for the environment as the three-point seat belt is for safety.

These are only two examples of Volvo's most important safety and environment innovations. You'll find a lot more on www.volvocars.com/corporation

“Cars are driven by people. Therefore, the guiding principle behind everything we make at Volvo is – and must remain – safety.”

*Assar Gabrielsson and Gustaf Larson,
founders of Volvo*

After 36,000 crashes, you begin to know what you're doing.

The best way to learn what really happens before, during and after a car crash, is to be there. Since 1970, Volvo's Accident Research Team has investigated accidents involving Volvo cars on Swedish roads. Today, our own statistical database contains over 36,000 accidents with more than 60,000 occupants.

Our accident researchers are on stand-by 24/7. If there's an accident involving a newer Volvo car within 60 miles of Göteborg, our researchers are instantly alerted by the rescue team. In addition to studies on the scene of the accident, our researchers also investigate what happened before the crash to understand how to improve the driver's ability to avoid a collision.

Volvo Cars Safety Center – the world's most advanced crash laboratory

Based on the findings from our accident research, we can recreate a variety of real-life traffic situations and crashes. Beyond numerous virtual crash tests in super-computers, we perform around 450 crashes each year. We crash test car-to-car at different speeds and with other kinds of vehicles and road obstacles. We perform frontal impacts, rear impacts, side impacts and roll-over tests and test cars off-road as well as against genuine Swedish granite rock-face – we can even simulate impacts with wild animals.

If you make it here, you make it anywhere

Other car manufacturers come to Sweden for final car testing under harsh and capricious conditions. For us it's home. Our own proving ground Hällered with its 34 miles of test tracks includes different road types from all over the world. Here we scrutinize our cars' ability to support their drivers in all imaginable and unimaginable situations during thousands of test miles – not to mention the distances driven on ordinary Swedish roads.

Advanced technology to support the human factor.

After all, we're only human. That's why we build cars that help support you in any situation, with technology that expands the human senses and helps you to focus on driving. Still, technology will never take the responsibility away from you as driver. Final decisions are always in your hands. But if these technologies help make you more alert and relaxed as driver, they will also contribute to the overall safety of those in and around your Volvo.

Collision Warning with Auto Brake* for highway driving is Volvo's radar and camera based technology that can warn you if you're too close to a vehicle in front of you and – if a collision can't be avoided – can activate the brakes to help reduce the effects of a crash.

Driver Alert Control (DAC)* is a unique technology designed for highway driving and can remind you if you're losing concentration.

Lane Departure Warning (LDW)* monitors your car's position on the road and helps alert you if you unintentionally are crossing a lane marker at speeds over 40 mph.

Dynamic Stability and Traction Control (DSTC) helps you maintain traction in a wide range of situations and prevent the car from skidding.

*Included in the optional Collision Avoidance package

Blind Spot Information System (BLIS) (optional) helps to detect vehicles entering the blind spot on both sides of your car.

Dual Xenon with Active Bending Lights** expand your vision range by about 230% when you're driving in the dark and provide considerably improved illumination around bends.

Emergency Brake Light (EBL) senses a panic braking maneuver and causes the brake lights and an additional taillight on each side of the vehicle to illuminate to help alert traffic approaching from behind.

Hydraulic Brake Assist (HBA) ensures optimal braking power to help you stop the car in the shortest possible distance.

Ready Alert Brakes (RAB) anticipate an emergency braking to further help reduce the braking distance.

Intelligent Driver Information System (IDIS) can help reduce your workload in stressful situations.

**Included in the optional Technology Package

Did you know that:

- a third of all reported accidents are rear impact – and in more than 50% of these accidents the driver doesn't brake at all.
- up to 90% of all traffic accidents are caused by driver distraction.
- gas discharge light technology (Xenon) helps you gain 148 ft of illumination when driving in the dark.

Our engineers spent more than 80 years designing this car.

You're looking at one of the safest cars in the world. Not because this car displays the highest number of airbags in the industry (it probably doesn't), but because of how well the different safety technologies interact to keep the occupants out of harm's way. What's more, what you see is the result of the collected efforts from generations of dedicated Volvo safety engineers. So if you share our passion for safety, this may be the most exciting image in the whole brochure.

In a frontal collision the patented frontal structure will yield to help absorb crash energy, while longitudinal steel struts in the doors helps disperse crash energy away from the front to the rear of the car. The compact power train is designed to help optimize deformation. Inside the car, seat belts interact with the collapsible steering column and multi-stage airbags to help keep the occupants out of harm's way. A steel strut under the dashboard helps prevent components in the engine bay from intruding into the cabin.

In a roll-over the extremely sturdy safety cage and reinforced roof structure will help protect the occupants while the seat belts help keep them restrained in their seats. If the car first has been hit from the side, the Inflatable Curtain (IC) deploys to help provide head protection and help keep the occupants inside the cabin.

In a side impact Volvo's unique Side Impact Protection System (SIPS) helps protect the occupants. The extremely strong door and side structure is designed to help withstand a severe side impact – even with a larger vehicle. The dual-chamber side airbags in the front seats help protect the chest and hip, while the Inflatable Curtain (IC) adds head protection.

In a rear impact the rear deformation zones will help absorb crash energy. The fuel tank is designed to remain well protected in front of the rear axle. The head restraints help protect the neck and spine, and Volvo's unique Whiplash Protection System (WHIPS) cradles the front seat occupants in a controlled manner to help prevent whiplash injuries.

Maximize your experience. Not your carbon footprint.

We believe it's more fun to drive a car that cares both for people and the environment – be it outside or inside the vehicle. Utilizing advanced engine technology and emission control, the Volvo engines are designed to combine high performance with low environmental impact. This caring attitude continues inside your Volvo. Here you and your passengers can experience one of the automotive industry's cleanest and healthiest cabin environments. It's as enjoyable as it is responsible. Just as you would expect of a Volvo.

Emission controls

All Volvo engines comply with stringent international environmental requirements. Advanced emission control eliminates between 95 and 99% of carbon monoxide, hydrocarbons and nitrogen oxides from engine exhaust gases. The catalytic converter is positioned to provide optimum exhaust conversion sooner after cold starting.

Low emission interior

To ensure that you and your passengers are not exposed to harmful emissions or unpleasant odors, we test individual upholstery and interior trim items as well as complete interiors in the Volvo Environmental Laboratory in Sweden. All upholstery materials and interior textiles also comply with Oeko-Tex Standard 100 – an international benchmark for human ecological safety of textiles. All leathers are tanned by a process that only uses vegetable or synthetic substances instead of chromium. In addition, several interior details made of metal are tested for contact allergies – they even meet the same nickel leakage requirements as jewelry.

Clean cabin air

A cabin air filter removes dust, pollen and other particles from the incoming air. Volvo's Interior Air Quality System (IAQS)* continuously monitors incoming air and can shut out carbon monoxide, ground-level ozone and nitrogen dioxide. This helps to ensure that the air you breathe in the cabin is cleaner than that outside the car when driving in heavy city traffic and tunnels.

* Included in the optional Convenience Package

DRIVE

Factory-installed options.

The sense of quality and care – and knowing that you get the Volvo that suits your lifestyle. Customize your car with the options that best meet your demands and desires, and you'll soon be behind the wheel of your individually tailored Volvo V70.

1 Rear Seat Entertainment (RSE) dual screen

With Volvo's new generation DVD-based RSE dual screen, the rear seat passengers can enjoy a film or play a game – together or separately. Two 8-inch wide-screen displays are integrated in the front seat head restraints and provide excellent image quality. Cordless headphones keep things calm in the cabin and you can listen to the music or program of your choice. Via an AUX input, you can also connect external devices such as an iPod®, MP3 player, extra DVD player or a digital camera. The RSE system is an integrated part of the car. It matches the interior perfectly and is available with all upholstery.

2 Volvo Navigation System (VNS) with RTT (Real Time Traffic)*

Volvo's GPS-based VNS navigation system is totally integrated with your car. It offers both voice guidance and graphic navigation all the way to your destination. Via TMC (Traffic Message Channel) radio data broadcasts VNS also lets you know if there's weather-related trouble on route and recommends an alternative. The VNS system is easily controlled from the steering wheel or a remote, and the screen is positioned so you can keep your attention on traffic. Volvo's Navigation System includes Map Care which provides two map data updates at no charge.

*Maps do not cover all areas or all routes within an area. Also constant expansion and rebuilding of the road network mean that the digital map database is not always the latest road information. Always follow relevant regulations and road information.

3 Canicula Alloy wheels

7x17" Silver Bright

4 Roof rails

Roof rails make it easy to attach Volvo's flexible load carrier system. Made of aluminum and aerodynamically designed for minimum wind noise, roof rails make your Volvo even more versatile.

5 Sirius satellite radio

Satellite radio is now available for your Volvo. Volvo has joined forces with Sirius to offer an integrated satellite solution that is sure to provide endless listening enjoyment.

6 Personal Car Communicator (PCC)

PCC is an advanced remote control that combines keyless drive with two-way communication with your Volvo. Keep the PCC with you and the car unlocks automatically on your arrival. Start the engine by pressing a button on the dash, lock the car by pressing a button in the door handle. Later in the day, if you're wondering whether you've locked the car, PCC can remind you; no matter where you are. On your return to the car – within a radius of 195 to 330 ft – pressing the PCC information button will give you a current report on its status. If the alarm has been activated, the onboard heartbeat sensor will give you advanced warning if there's somebody in your car and an opportunity to evaluate the situation safely.

7 Blind Spot Information System (BLIS)

BLIS is designed to help the driver keep a lookout on either side of the car. As a vehicle enters your blind spot, this function can alert you with an indicator light built in to the front door pillar – left or right. Together with the door mirrors, BLIS helps you assess the feasibility of a lane change. BLIS is activated once the car exceeds 6 mph, and reacts to almost any type of vehicle from a motorcycle upwards, day or night.

Accessories.

Volvo's accessories help you make your Volvo V70 even more suited to your personal needs. They are the only ones that have been tested to meet Volvo's exacting safety, quality and environmental requirements. You can also rest assured they're a perfect match to the technology and design of your Volvo.

FOR DRIVING FREEDOM

- Park assist, front and rear
- Parking assistance camera
- Moonroof wind deflector

FOR YOUR ENTERTAINMENT

- Volvo iPod music interface
- Rear Seat Entertainment System with Dual DVD player
- 6 Disc in dash CD changer

FOR PRECIOUS CARGO

- Sun screen, rear doors
- Sun screen, cargo area
- Rear center armrest table
- Padded neck cushion
- Booster cushion and backrest
- Child Activity Bag
- Child Mirror

FOR YOUR LEISURE

- Trailer Hitch, 2" Square profile
- Trailer hitch mounted bike carrier
- Trailer hitch mounted ski carrier
- Roof Mounted "Load Bar" carrying system
- Ski Carriers, roof mounted
- Snowboard carrier, roof mounted
- Canoe/Kayak carrier, roof mounted
- Surfboard carrier, roof mounted
- Bike carrier, roof mounted
- Load basket, roof mounted
- Cargo box, roof mounted
- Portable electric cooler / hotbox
- Integrated cooler/ hotbox
- Luggage compartment mats
- Grocery bag holders
- Net pocket, side panel cargo compartment
- Net, luggage compartment floor
- Dirt cover, rear bumper

- Business bag organizer

- Floor mats, rubber

- Tunnel mat, second row seats

- Sun Glasses holder

- Ashtray, front and rear

- Seat cushions, rear cargo area

- Rear seat guard

- Protective grille steel

- Cargo management system

FOR YOUR LOOKS

- Wood steering wheel

- Footboard, moldings, illuminated

- License plate frames

- Valve stem caps

- Aluminum wheels

- Chrome wheels

- Locking lug nuts

- Roof spoiler

FOR UNEXPECTED SITUATIONS

- Mud Flaps, front and rear

- Electric engine heater

- Leather care kit

- Jumper cables

- Warning triangle

- First aid kit

- Snow chains

- Car cover

SAFETY	V70 3.2
Anti-submarine seats	●
Daytime running lights (halogen semi-sealed with replaceable bulb)	●
Driver and front passenger supplemental restraint system—multi-stage air bags	●
Immobilizer, encrypted ignition key	●
Inflatable side curtain (IC)	●
ISOFIX baby/child seat attachment system	●
Rear fog light with auto-off	●
Safe approach and home safe lighting	●
Seat belts: five, 3-point inertia-reel belts with automatic pretensioners; front belts have height adjustment	●
Seat belt reminder	●
Security system	●
Side impact air bags for driver and front passenger (SIPS bags II™)	●
Side impact protection system (SIPS)	●
Dynamic stability and traction control (DSTC)	●
Whiplash protection seating system (WHIPS)	●
INTERIOR	
Auto-dim rearview mirror	●
Bluetooth® handsfree system	●
Cruise control	●
Cup holders	●
Dark fine line inlays	●
Dual-stage integrated booster seats/adaptive seat belts	●
Dual-zone electronic climate control (ECC)	●
Five padded head restraints	●
Four reading lights	●
Front and rear 12-volt power outlets	●
Front center armrest	●
Front door-panel storage pockets	●
Front seat-back storage pockets	●
High Performance Audio with In-dash CD, 8 Speakers	●
Illuminated lockable glove compartment	●
Illuminated vanity mirrors in driver/front passenger sun visors	●
Interior cabin light delay	●
Leather-clad gear knob	●
Leather-clad steering wheel	●
Lockable under-floor storage (cargo area)	●
Luggage/cargo area lights	●
Plush front and rear floor mats	●
Power-adjustable driver seat, 8-way with 3-position memory and lumbar support	●
Power child locks rear doors	●
Power windows with driver and passenger auto up/down with anti-trap feature	●
Rear seat ventilation outlets on B-pillar	●
Rear window defroster with automatic timer	●
Tilt/telescopic steering wheel with illuminated cruise and audio controls	●
Trip computer	●

EXTERIOR	
Central power door locks with remote control, tailgate and fuel filler door locks	●
Entry/exit lights in outer rearview mirrors	●
Front fog lights	●
Outside temperature gauge	●
Pollen filter for passenger compartment	●
Power-adjustable heated exterior rearview mirrors	●
Tinted windows	●
2-speed windshield wipers with intermittent cycle	●

● = Standard

Packages.

CLIMATE PACKAGE

In a Volvo you're always prepared to deal with the ever-changing forces of nature. And to increase comfort when driving in cold, rain or snow – simply add the Climate Package.

- Heated front seats
- Heated windshield washer nozzles
- Headlight washers
- Rain sensor

CONVENIENCE PACKAGE

The wide range of considerate and practical features makes life with your Volvo a truly enjoyable experience. And by adding the Convenience Package, you expand your freedom even more.

- Grocery bag holder, cargo area
- Sunglass holder
- Humidity sensor for ECC System
- IAQS (Interior Air Quality System)
- Park assist, front and rear
- Power operated tailgate
- Private locking
- 12 volt outlet, cargo area

PREMIUM PACKAGE

A Volvo offers you long, relaxed drives and more spirit in your daily life. The Premium Package will provide you with some necessities for that extra ambience and convenience.

- Audio dimming mirror with compass
- Classic wood inlays
- Homelink™
- Leather gearshift knob with classic wood inlay
- Leather seating surfaces
- Power glass moonroof
- Power passenger seat

TECHNOLOGY PACKAGE

Wherever the road may take you, adding the Technology Package to your Volvo helps you to see the twists and turns and keeps you entertained along the way.

- Dual Xenon with Active Bending Lights
- Sirius™ Satellite Radio
- Rear seat headphone jacks and audio controls
- Dynaudio Premium Sound System*

*Includes MP3 and WMA compatible in-dash, CD player, 5x130W digital class D amplifier, Dolby Pro Logic II Surround, 12 speakers

COLLISION AVOIDANCE PACKAGE*

This package of Collision Avoidance Driver Support Systems is designed to help assist a driver in avoiding potential accidents caused by driver distraction. This unique package offers five support systems.

- Adaptive Cruise Control
- Collision Warning with Auto Brake
- Distance Alert
- Lane Departure Warning
- Driver Alert Control

*Requires Premium package

Volvo V70 specifications.

ENGINE

Six-cylinder in-line all-aluminum engine.

Double overhead camshafts, 24 valves with Variable Valve Timing (VCT). The 3.2 engine features Variable Intake System (VIS) and Cam Profile Shifting (CPS) on the intake camshaft. Electronic engine management system. Three-way catalytic converter with heated oxygen sensor

This highly compact all-new in-line, six-cylinder engine meets high expectations for performance, comfort and environmental care. Advanced engine technology, such as the variable geometry intake manifold, helps increase torque over a wide speed range and ensures power at high revs. And depending on your driving style and the situation, the intake valve train in the 3.2 automatically switches between economy and performance modes to help optimize efficiency. The engines' compact design aids safety performance in a frontal collision. The latest generation of fast response emission control technology ensures that the engines comply with stringent environmental standards such as California's ULEV II.

Volvo V70 3.2 (235 hp)

Engine type: 3.2-liter in-line six-cylinder engine
Max power output: 235 hp at 6200 rpm
Max torque: 236 ft/lbs at 3200 rpm
Acceleration 0–60 mph, auto: N/A
Top speed, auto: N/A
Fuel consumption, mpg, mixed cycle, auto: N/A
Environmental classification: ULEV II
Transmission: Six-speed Geartronic automatic

DRIVELINE

Transverse engine. Front wheel drive. Six-speed Geartronic automatic with lock-up function, winter mode and mode for manual shifting.

CHASSIS

Front suspension with spring struts (McPherson), anti-dive and anti-lift function. Active multi-link independent rear suspension. Anti-roll bars front and rear. DSTC (Dynamic Stability and Traction Control).

The rigid body and wide wheelbase enable optimal suspension performance, balanced handling and a high level of comfort. The front and rear suspensions interact to provide stable braking and smooth steering. The DSTC system cuts in if either of the drive wheels begins to lose traction or if a skid is imminent.

STEERING

Power-assisted rack and pinion steering. Tilt and telescopic steering wheel column. 2.8/2.6 turns lock to lock. Turning circle 36-40 feet (depending on tires).

BRAKES

Power-assisted anti-lock disc brakes (ABS), ventilated discs front. OHB (Optimized Hydraulic Brakes). HBA (Hydraulic Brake Assist). RAB (Ready Alert Brakes). FBS (Fading Brake Support). EBD (Electronic Brake Distribution) between the front and rear brakes. Diagonal-split braking system. Power Parking Brake (PPB).

Generously dimensioned anti-lock disc brakes and optimized hydraulics help to ensure a short stopping distance in all situations. Furthermore, they withstand tough use without fading. HBA helps you use your brakes to the full in an emergency situation, while RAB anticipates severe braking and prepares for it by moving the brake pads closer to the discs. FBS automatically compensates for the higher pedal forces required after long periods of heavy braking. EBD distributes the braking effect between the front and rear wheels to achieve optimal results according to load and driving conditions. The Power Parking Brake (PPB) makes moving off from steep gradients easier.

FUEL TANK

Volvo C70 A coupe when you need it to be.

To live life is to care about it.

Every moment in a Volvo is a moment designed to celebrate life. A life full of twists and turns, ups and downs; the little things as well as the big ones. Of course, to live life to its fullest isn't just about you; caring for others is important as well.

For more than eighty years we have helped save lives on roads around the world. Nevertheless, when it comes to improving automotive safety, we will never be satisfied. And while we're seeking new solutions, our existing safety systems are preventing many accidents from happening and providing some real protection when they do.

Our passion for life means looking after our children's children, too. Which is why we try to balance the needs of our company with those of society. With this bigger picture in mind, we develop engines and technology that have less impact on mother earth. This approach also explains why we pay so much attention to your immediate environment – in the car. Simply put, we care about you – and the whole circle of life.

Taking care of your ownership needs.

It's a simple idea; one point of contact for all your car ownership needs, whether it's finding the right financing or who to contact in an emergency. Get the most out of owning your Volvo.

Volvo Car Finance North America

If you purchase or lease your Volvo through Volvo Car Finance North America, you can take advantage of services designed to make financing simple and convenient. Quick Debit, for instance, enables you to have your monthly payment automatically debited from a designated bank account. For more information, call 1-800-770-8234 or visit www.volvofinance.com

On Call roadside assistance

Whenever you need us, we're just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist. Whether you require roadside assistance or maps and routing information for your next trip, refer to your On Call Card and dial 1-800-63-VOLVO – anytime, day or night. Your complimentary four-year membership activates the moment you become a Volvo owner.

Volvo new car warranty

Your new car warranty provides comprehensive coverage for four years or 50,000 miles, whichever occurs first. Additional warranties cover corrosion, seat belts, the supplemental restraint system, emission systems, genuine Volvo replacement parts and genuine Volvo accessories. Should you encounter any problem with your Volvo, simply contact the nearest retailer for assistance. Where your warranty ends, Volvo Increased Protection (VIP) plans begin. To purchase the additional protection of a VIP plan, contact your local retailer.

Complimentary Factory Scheduled Maintenance

Volvo is committed to a premium ownership experience for its customers. To further enhance your ownership experience, all 2009 model year Volvo's sold new through Volvo retailers in the United States will include Complimentary Factory Scheduled Maintenance. This program provides scheduled maintenance coverage for the first 3 years or 36,000 miles, is designed to compliment your Volvo warranty, and will help ensure trouble free operation of your Volvo. Coverage includes factory recommended maintenance including oil and filter changes, checks and adjustments as listed in your Warranty and Maintenance Records Information booklet, for the first four maintenance services at intervals of 7,500, 15,000, 22,500 and 30,000 miles

Service must be performed within 1,500 miles before or after each scheduled interval. Coverage is limited to scheduled maintenance items listed in the 2009 model year Warranty and Maintenance Records Information booklet. Normal wear items such as brake pads and wiper blades are not covered under the Complimentary Factory Scheduled Maintenance. An authorized retailer must perform maintenance. Offer is transferable.

Optional Factory Scheduled Maintenance program upgrades are also available that will allow you to customize coverage to meet your driving needs. See your Volvo retailer for details.

Volvo genuine service

The best way to ensure superior performance year after year is to bring your Volvo to your authorized retailer for regular maintenance. Our service advisors and factory-trained technicians are uniquely qualified to maintain your automobile. With the aid of advanced Volvo diagnostics, they follow all prescribed factory maintenance outlined in your service interval manual. Genuine Volvo Service is our ongoing commitment to you: to keep your Volvo performing smoothly long after other cars have given up.

Volvo mobility program

The goal of the Volvo Mobility Program is to assist persons with physical disabilities or hearing impairment achieve independence.
