The latest Land Rover LR2. An even more purposeful stance. Sportier and more sophisticated with a new look front and rear and new wheel styles and colors, the Land Rover LR2 is ready and prepared to tackle whatever life throws at it.

Its distinctive exterior is revised, with its sleek lines giving it a more immediate sense of purpose. There's an updated interior with an even greater choice of options and materials, adding even more excitement to the Land Rover LR2. Land Rover LR2's style and engineering deliver refinement, performance and economy. Pure, state-of-the-art Land Rover.

Vehicle exterior color shown in Ipanema Sand.

Land Rover LR2 is designed to put the driver in control. Land Rover's renowned command driving position is an intrinsic part of the vehicle's design.

The LR2 features Land Rover's legendary command driving position which brings a sense of control over the road and helps with maneuvering and parking in urban environments. The driver's seat is also optimized for comfort and support with six-way adjustment as standard (three memory settings are available) and the steering wheel can be adjusted for rake and reach ensuring that you can set the position that is right for you.

Interior image shows optional LUX package in Ivory Windsor Leather, optional navigation system and optional Black Lacquer Finish.

High levels of torque for lively acceleration and long-distance cruising.

The 3.2 liter straight-six in-line engine, which employs advanced technologies, including Cam Profile Switching and Variable Valve Timing for more power, a better spread of torque and more efficiency. The standard six-speed automatic transmission comes with CommandShift® which allows the driver to make manual sequential changes. Sport mode offers an even livelier performance.

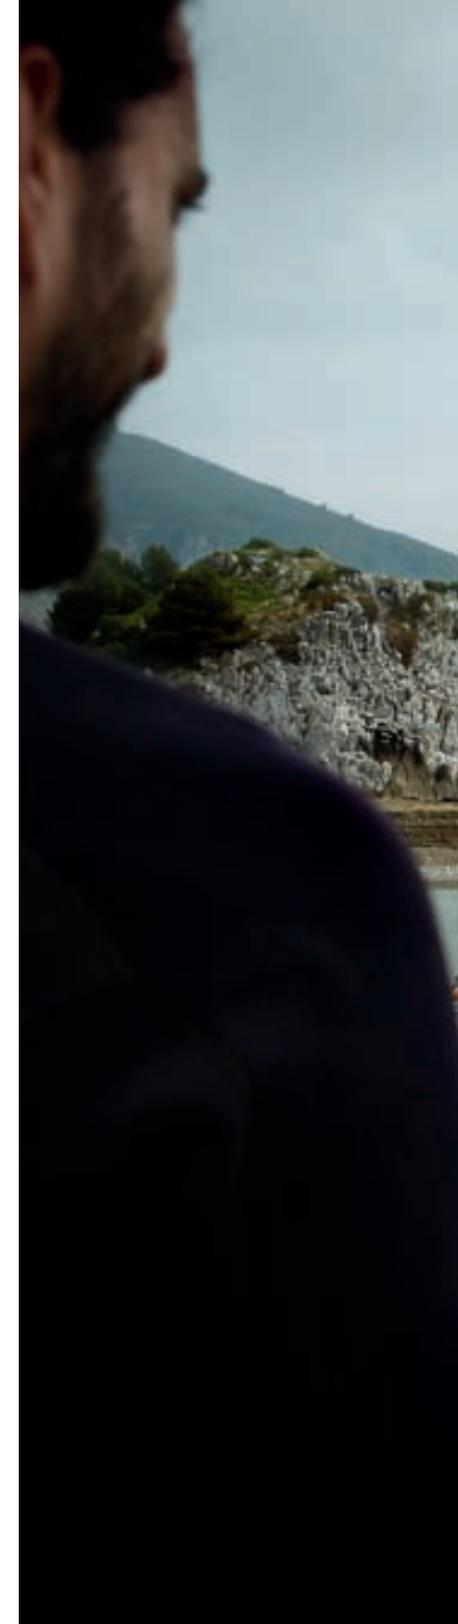

The refinement you expect from a premium vehicle. The perfect balance between ride and handling, but in a premium compact all-terrain vehicle. It makes driving Land Rover LR2 a pleasure, whether it's on or off-road.

Independent suspension with long wheel travel, coupled with an exceptionally stiff body structure, delivers sure-footed composure and agility as well as outstanding ride comfort. From the smoothest roads, to more extreme rough surfaces and poor weather conditions, the Land Rover LR2 delivers a sense of confidence and security.

Land Rover LR2 is ready to go where you want, when you want. That's because it's ready to take on tough terrains and conditions with long-established Land Rover qualities such as excellent entry/departure angles and outstanding ground clearance as well as taking full advantage of modern off-road driving aids.

On steep or slippery descents, the latest generation Hill Descent Control technology improves control by engaging smoothly and easily as soon as the foot brake is released. Land Rover's Gradient Release Control ensures smooth hill starts whether ascending or descending.

Effortless control on-road and off-road. Using any one of four different settings, Land Rover's unique Terrain Response® system maximizes traction across a wide variety of surfaces and different weather through the vehicle's electronic management systems and traction aids.

This exclusive capability optimizes driveability and comfort. It's like having a Land Rover expert sitting alongside you. Choose your setting – general driving, grass/gravel/snow, mud and ruts, or sand – which can be selected on the move via a convenient rotary dial located in front of the gear selector.

General Driving – tuned to give good vehicle dynamics in normal on-road driving and across a wide range of light off-road conditions.

Mud and Ruts – appropriate on unsurfaced tracks with ruts or soft, wet ground where some degree of wheel spin is important in order to maintain vehicle momentum.

Grass/Gravel/Snow – this setting maximizes traction and control on firm, but slippery, surfaces. Wet leaves and grass, gravel or hard-packed snow and ice.

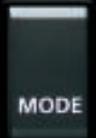

Sand – provides momentum in dry, soft sand, with the powertrain and traction control systems adapting constantly to the terrain.

TERRAIN RESPONSE® is as useful on-road as it is off-road. It actually adds to the on-road capabilities of Land Rover LR2, allowing you to maximize your vehicle's potential to go further and see more – all with outstanding control.

AIRBAG

In Land Rover LR2 everything is within easy reach. Interior aesthetics are now more integrated, with a choice of three new trim finishers on the fascia, including an optional Black Lacquered Finish, which comes with matching steering wheel finishers.

There is an updated instrument pack with clearer, more contemporary graphics. Steering wheel mounted controls for cruise control and audio system are at your fingertips for ultimate ease of use, while hands-free telephone operation for Bluetooth® enabled devices is also available. The standard air-conditioning system with dual zone climate control and humidity sensor maintains fresh air circulation throughout the cabin. The optional DVD satellite navigation system, with a large high definition Touch-screen, easy-to-use menu and the extensive point of interest database, makes finding your destination as simple as possible. And, adding further to the feeling of lightness and airiness within the cabin, all Land Rover LR2's are fitted with a panoramic sunroof incorporating an electrically operated front section. The glass is specifically formulated to filter infrared rays, providing light without unpleasant heat.

The Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc. and any use of such marks by Land Rover is under license. Image shown left features optional Black Lacquer Finish on the steering wheel finishers.

Your choice of technology can be as individual as your choice in music. Take your pick from two outstanding in-car entertainment systems, including a premium Alpine® Dolby ProLogic II 7.1 surround system with 13 speakers plus a subwoofer.

Plus every Land Rover LR2 comes with an 3.5mm auxiliary socket. Personal telephone integration (optional) of compatible mobile phones is available via the Bluetooth® hands-free telephone system. Sophisticated technology that adapts to you.

ALPINE is a registered trademark of Alpine Electronics Inc.
iPod® not included. iPod® is a registered trademark of Apple Inc.
The Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc. and any use of such marks by Land Rover is under license.

New Premium Windsor leather adds even more prestige to Land Rover LR2. Now even more luxurious, the interior has the quality and tactile ambience of a premium executive vehicle. The range of trim options means that the cabin can be tailored to suit the most sophisticated personal tastes as well as practical requirements.

Napoli leather comes standard in Almond, Ebony and Storm colorways. Seat facings are now available with softer, more supple Premium Windsor leather as part of the HSE LUX Pack, which also includes an upgraded driver's eight-way and passenger's six-way seat plus carpet mats with contrast binding. Premium Windsor leather is available in Ebony and Almond as well as introducing two new colors in Ivory and Tan. It underscores the distinguished feel of the interior and introduces significant visual enhancements to the vehicle. Light, airy and more contemporary than ever, Land Rover LR2 takes luxury to a new height.

Interior color shown in Ivory Premium Windsor leather with optional Black Lacquer finisher.

Interior image shows optional LUX package in Ivory Windsor Leather, optional navigation system and optional Black Lacquer Finish.

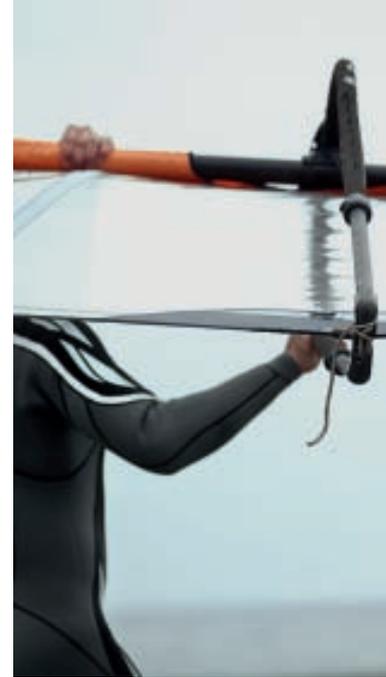

////ALPINE

Lux package seating shown with Almond Premium Windsor Leather.

Urban or country. Week or weekend.

First class accommodation for everyone and every thing. Inside Land Rover LR2, no-one travels second class.

Driver and passengers alike enjoy generous leg, head and shoulder room. With stadium seating putting rear passengers 1.9 inches/50mm higher than those in front, everyone can enjoy the view. Versatility is maximized too. There is a 60:40 split rear seat plus a reversible load floor cover – carpet on one side, a water-resistant, wipe-clean surface on the other. A 12v power socket located within the loadspace provides added convenience.

Always safely secure items when driving.

A whole host of technology and sophisticated primary safety systems are packed into Land Rover LR2.

There are large disc brakes all round, which, on the front are reverse vented to improve thermal stability under severe braking. This means cool air is drawn into the center of the disc, then vented out over the rim, and helps to provide outstanding stopping power. For superior traction the electronic center coupling at the heart of Land Rover LR2's intelligent four-wheel drive system adapts continuously and instantaneously to the conditions. Pre-engaging at rest to reduce wheel spin from standing starts, it also engages instantly whenever traction loss is detected on the move.

Getting tough with safety. The immensely strong monocoque body and inner safety cell, protected by meticulously engineered front and rear crumple zones, absorb energy on impact. While ultra-high-strength steel is used in the construction of the body, dual-phase steel, which requires special pressing because of its resilience, is found in key components such as the front windshield pillars and lower side sills. The result is a first class, weight-efficient safety cell.

Seven airbags, fitted as standard on all vehicles, play a key role in helping to protect all occupants.
Driver and front passenger airbags for head and chest protection.
Driver and front passenger side airbags for side impact protection.
Full-length curtain airbags provide head impact and rollover ejection protection for all occupants.
Driver's inflatable knee airbag for additional lower body protection.

EBA

Emergency Brake Assist

CBC

Cornering Brake Control

ETC

Electronic Traction Control

Land Rover LR2 is packed with a number of advanced stability control systems, all fitted as standard.

Enhancing traction by reducing engine torque and applying a unique braking force to each individual wheel, they offer both safety and capability where you need it.

EBA Emergency Brake Assist. Increases hydraulic pressure during emergency braking and can improve stopping distances by up to 15 percent.

ETC Electronic Traction Control. Senses when wheel slip is occurring and uses the braking system to minimize wheel spin.

CBC Cornering Brake Control. Enhances rear-end stability when braking in corners.

DSC Dynamic Stability Control. Designed to correct over - or under-steer, it interacts with the engine and brakes to help maintain stability.

RSC Roll Stability Control. Detects critical levels of roll and applies braking to increase the turn radius to help maintain stability.

So whatever obstacles might come your way, Land Rover LR2 gives you outstanding control.

DSC

Dynamic Stability Control

RSC

Roll Stability Control

Make it unmistakably your Land Rover LR2 with your own choice of wheels.

Nothing adds that touch of individuality quite as much and truly puts a personal stamp on a vehicle. There are two, stunning new designs.

■ Standard □ Option

Please note: When choosing vehicles fitted with specific wheel and tire combinations or optional wheels and tires, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tires may offer certain styling or driving benefits, but may be more vulnerable to damage, please discuss your requirements with your authorized Land Rover Retailer when selecting your vehicle and specification.

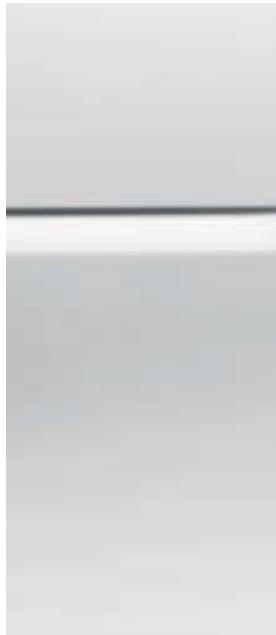

EXTERIOR COLORS

BALI BLUE - METALLIC*

BALTIC BLUE - METALLIC†

FUJI WHITE - SOLID†

GALWAY GREEN - METALLIC

IPANEMA SAND - METALLIC

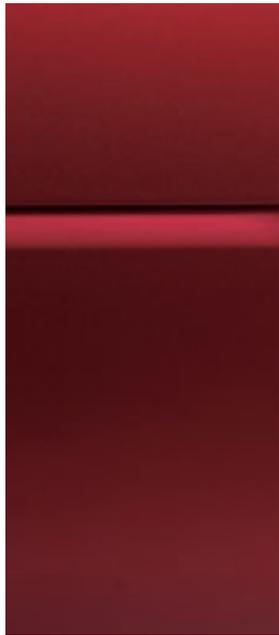

KOSRAE GREEN - METALLIC†

We have one in your color.

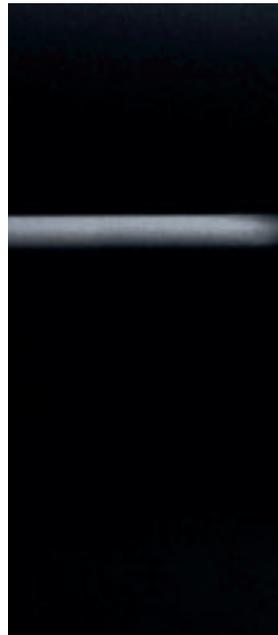

There's something for every taste in our range of exterior colors with three new striking colors added: Fuji White, Kosrae Green and Baltic Blue. The paint process for Land Rover LR2 involves five key stages, including a three-coat electrostatic paint application and rigorous anti-corrosion wax protection.

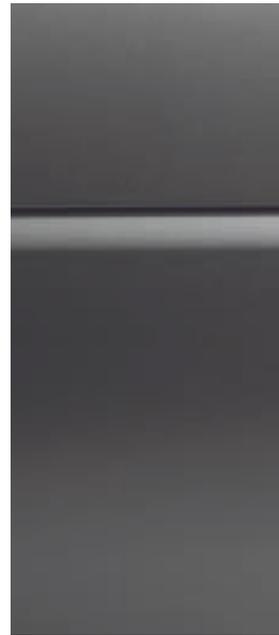

LAGO GREY - METALLIC*

COMMAND DRIVING POSITION Land Rover's renowned command driving position brings a sense of control over the road and helps with maneuvering and parking in urban environment. A six-way adjustable driver's seat and a steering wheel that is adjustable for rake and reach adds to the driver's comfort and well-being.

STEERING WHEEL CONTROLS Steering wheel mounted controls at your fingertips for ultimate ease of use. The intuitive technologies available includes cruise control, audio system and an optional hands-free telephone operation.

CLIMATE CONTROL Standard air-conditioning system with dual-zone climate control, with pollen filter and humidity sensor maintaining fresh air in the cabin, keeping you and your passengers comfortable.

Land Rover LR2 can be Bluetooth® connective enabled as standard on some models. You'll be able to make and take calls via the vehicle's audio system (subject to telephone compatibility).

FRONT SEAT AND TRIM MATERIALS The standard trim colors are available in Ebony, Almond and Storm Grey. The HSE LUX package introduces Premium Windsor leather in Ebony and Almond as well as in two additional colors Ivory and Tan. The drivers seats provides excellent support with standard six-way adjustment. Additional options include driver's seat memory package and driver's seat eight-way adjustment.

REAR SEATS Everyone enjoys the view with stadium seating putting rear passengers 1.96 inches/50mm higher than those in front. Full-sized rear seats can accommodate three adults in comfort. Storage space includes door bins with integral cup/bottle holders. Incorporated within the rear center armrest is additional stowage with twin cupholders.

CENTER CONSOLE STORAGE The rear of the center console features an additional storage box for small items, a 3.5mm auxiliary socket for MP3 players and a power socket, which can be used to recharge PCs and other low-wattage electrical equipment.

IN-CAR ENTERTAINMENT An outstanding choice of two in-car entertainment systems, all with MP3 compatibility:

- Standard - Alpine® branded audio system with single slot CD player, 320-Watt amplifier, auxiliary input and nine speakers.
- Optional - A premium Alpine® Dolby ProLogic II 7.1 surround sound system, 480-Watt amplifier, auxiliary input and thirteen speakers plus a subwoofer.

Note: Sirius Satellite Radio* is available on the Land Rover LR2 HSE.

*Subscription not included.

SATELLITE NAVIGATION The optional DVD satellite navigation system, with a large, high definition Touch-screen, easy-to-use menu and extensive point-of-interest database, makes finding your destination as simple as possible.

PANORAMIC SUNROOF The standard panoramic sunroof – with a fixed rear section and electric tilting/sliding front section – adds to the feeling of lightness and airiness within the cabin. The glass is specially formulated to filter the sun's infrared rays, providing light without unpleasant heat. Both sections also include a convenient blind.

LOADSPACE The versatile rear loadspace can be expanded by folding the 60/40 split rear seats to provide a flat load floor – and up to 58.9 cubic feet/1,670 liters of space. With 49 inches/1.25 meters between the wheel arches there's always room for more awkward loads.

CONVENIENCE FEATURES Life with Land Rover LR2 is so practical thanks to thoughtful technology. Features include: an electrochromatic rear view mirror for automatically minimizing the dazzle of headlights at night. Rain sensing wipers and twin map lights are conveniently located in the roof console above the rear view mirror.

SAFETY Ultra-high-strength steel is used to construct an immensely strong monocoque body and inner safety cell protected by front and rear energy absorbent crumple zones. Seven airbags are fitted as standard on all vehicles.

STANDARD FEATURES

Engine & Transmission

- 3.2 liter In-line six-cylinder engine
- Six-speed automatic transmission with CommandShift®
- Full-time intelligent all-wheel drive.

Suspension & Steering

- Independent front & rear suspension
- Power steering with manual tilt and reach adjustment
- Terrain Response®.

Safety & Security

- Remote control central locking on all doors, and tailgate
- Push button Start/Stop
- Perimetric security system
- Anti-lock Braking System (ABS)
- Emergency Brake Assist (EBA)
- Electronic Brake-force Distribution (EBD)
- Electronic Traction Control (ETC)
- Cornering Brake Control (CBC)
- Dynamic Stability Control (DSC)
- Roll Stability Control (RSC)
- Hill Descent Control (HDC)
- Driver & front passenger airbags, front seat side airbags, full length side curtain airbags & inflatable driver's knee airbag
- Four-wheel disc brakes with mechanical handbrake
- Two rear ISOFIX child seat anchor points
- Rear seat head restraints - all three positions.

Interior

- Rear seat split 60:40 design
- Central storage compartment in fascia
- Dual cup holder in center console
- Glove box
- Electric windows with one-touch operation on the front
- Alpine® 320-watt audio system with single slot CD player and nine speakers
- MP3 auxiliary audio socket
- Electro-chromic auto-dimming rear view mirror
- Automatic climate control with air filtration
- Trip computer with message center
- Auxiliary 12V power sockets - front, rear and loadspace.

Exterior

- Premium body colored front & rear bumpers
- Heated, electrically adjustable exterior mirrors
- Halogen headlights with headlight courtesy delay
- Bright finish twin bar grille
- 18 inch alloy wheels.

Bright Finish Twin Bar Grille

EMERGENCY EQUIPMENT

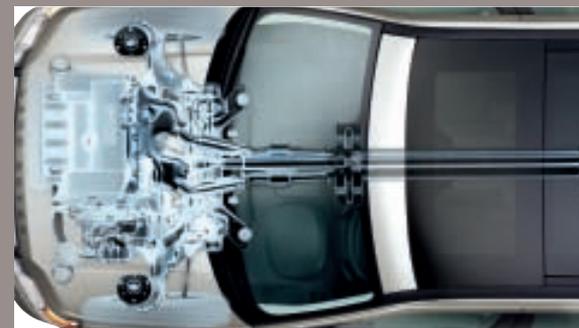

Temporary spare tire	■
----------------------	---

REMOTE CONTROL AND START/STOP BUTTON The remote control includes the following functions: locking and unlocking of the doors and tailgate, a 30 second courtesy headlight delay and activation of panic alarm. In order to start the car the remote has to be docked into the fascia and the correct procedure followed using the Start/Stop button.

TERRAIN RESPONSE® Land Rover's patented Terrain Response® system adds to Land Rover LR2's breadth of capability. Any of the four settings – general driving, grass/gravel/snow, mud and ruts, or sand – can be easily selected by simply turning the rotary control. In addition all vehicles with Terrain Response® are also fitted with Hill Descent Control and Land Rover's Gradient Release Control systems.

PERFORMANCE WITH REFINEMENT A compact, advanced 3.2 liter straight-six engine with Cam Profile Switching and Variable Valve Timing delivering more power, a better spread of torque and greater efficiency.

COMMANDSHIFT® The six-speed automatic transmission with CommandShift® is standard. CommandShift® provides manual sequential gear changes and Sports mode provides an even livelier performance.

STABILITY CONTROL SYSTEMS Land Rover LR2 comes with a host of stability control systems as standard, designed to enhance traction by reducing engine torque and applying a unique braking force to each individual wheel where driving conditions dictate. They include: Anti-lock Braking System (ABS), Electronic Traction Control (ETC), Electronic Brake-force Distribution (EBD), Cornering Brake Control (CBC), Emergency Brake Assist (EBA), Dynamic Stability Control (DSC) and Roll Stability Control (RSC).

HEADLIGHTS Standard halogen headlights with impact-resistant polycarbonate lenses. Optional Adaptive Xenon projector lamps providing crisp blue-white light letting you see further and automatically swivel with the direction of travel to improve the view of the road ahead.

Headlight leveling is standard. Vehicles fitted with Xenon projector Headlights adjust automatically.

LAND ROVER LR2 VEHICLE KIT

Add style or add practicality. You can add both with Land Rover LR2's exceptional range of specialist accessories. This is the perfect opportunity to tailor the vehicle to your personal activities and tastes, as well as adding distinguished styling cues.

The truly comprehensive range features carrying and towing options as well as exterior and interior styling additions. Importantly, all Land Rover LR2 accessories are available individually, at any stage in the vehicle's life – not just when it's new. Seasonal or year-round, extreme sports or touring activities, the great outdoors or the demands of urban life – we've got everything you need to get geared up. In fact, Land Rover LR2 is as versatile as you need it to be.

Vehicle shown left is accessorized with Raised Roof Rails and Cross Brace Kit, Cross Bar Kit, Bright Finish Mirror Caps, Bright Finish Fender Vents, Side Protection Tubes - Stainless Steel and 19 inch Triple Sport alloy wheels and tires.

CARRYING & TOWING - ACCESSORIES

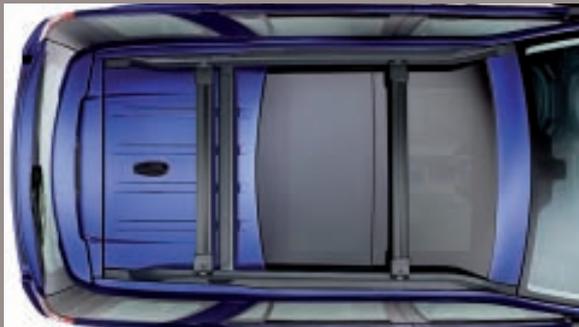

Aqua Sports Carrier*
LR006846
Carries one surfboard or sailboard and mast, or one canoe or kayak. Load capacity 99.20lbs/45kg.

Luggage Box*
VPLDR0003
Lockable for security. Opens from both sides. External dimensions: 62.99 inches/1,600mm long, 37.79 inches/960mm wide, 16.14 inches/410mm high. Volume 450 liters.

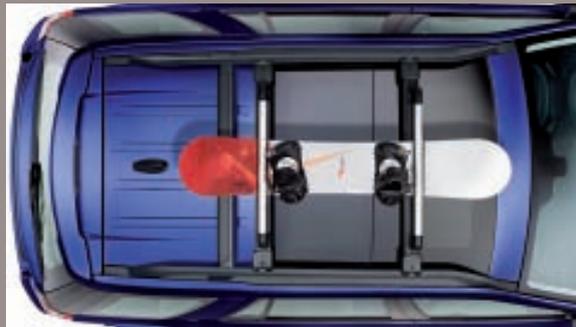

Luggage Rack*
LR006848
Load capacity 125.66lbs/57kg on Roof Rails and Cross Bar.

Raised Roof Rails and Cross Brace Kit*
Panoramic Sunroof vehicles LR007220

Cross Bar Kit*
LR002417
Easily removed when not in use. Vehicle height when fitted 72.91 inches/1,852mm. Vehicle must have accessory Raised Roof Rails and Cross Brace Kit fitted. Shown above, sold separately.

Ski and Snowboard Carrier*
LR006849
Lockable for security. Carries four pairs of skis or two snowboards. Incorporates slider rails for easy loading. Load capacity 79.36lbs/36kg.

Lashing Eye Kit*
VUB503160
Six additional tie-down points for use with Crossbars T-slots.

Ratchet Strap
CAR500010
Nylon tie strap for securing items to the Crossbars and Luggage Carrier. 196.85 inches/5 meters long, 0.78 inches/20mm wide. Supplied individually.

*Roof Rails and Cross Bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio systems, if fitted.

Roof Mounted Bike Carrier

LR006847

Lockable bike carrier designed for holding a single bike. Raised Roof Rails and Cross Bar will accommodate up to three bike carriers.

Tow-Hitch Receiver

LR002744

Tow your boat or trailer with help from this sturdy, lockable hitch receiver. Handles up to 3,500lbs/1587.6kg trailer load capacity and a 330lbs/149.7kg tongue weight capacity. Convenient and easy to remove from the vehicle when not needed. Stores neatly in accompanying bag.

Towing Electrics - (not shown)

These sockets deftly mounted in your Land Rover LR2's rear bumper, provide electric power and rear lighting for your trailer.

N6S 764-Pin (2007-08 Model Years) LR003108

N6S 764-Pin (2009 Model Year onwards) VPLFT0003

Drawbar and Adapt-a-ball Kit

LR006441

Working in conjunction with the Tow-Hitch Receiver, this accessory includes a 12.5 inch/317.5mm tow bar, three different sized adapt-a-balls and a locking pin in a sturdy carrying case. Requires the Tow-Hitch Receiver.

WHEELS – ACCESSORIES

LR002804 - Rim only
Recommended tire size - 235/55 R19

Center Cap

Shadow Chrome Finish - RRJ500030MNL
Bright Polished Finish - RRJ500060MUZ

19 inch, Triple Sport Alloy Wheel – High Gloss Finish
LR002801 - Rim only
Recommended tire size - 235/55 R19

Center Cap

High Gloss Finish - RRJ500030MCM
Bright Polished Finish - RRJ500060MUZ

18 inch, 5-Split Spoke Alloy Wheel – Sparkle Silver Finish
LR002798 - Rim only
Recommended tire size - 235/60 R18

Center Cap

Sparkle Silver Finish - RRJ500030MNH
Bright Polished Finish - RRJ500060MUZ

Snow Traction System
LR005169

For 17 inch and 18 inch front wheels only.

Please note: When choosing vehicles fitted with specific wheel and tire combinations or optional wheels and tires, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tires may offer certain styling or driving benefits, but may be more vulnerable to damage, please see your authorized Land Rover Retailer for further details. Wheel rims are not supplied with center caps.

The alloy wheels shown on page 29 may also be available as an Accessory fitment, please speak to your authorized Land Rover Retailer for further details.

TOURING – ACCESSORIES

Electric Cool Bag

(not shown) - VUP100140L
Powered by the 12 volt auxiliary socket.
Thermostatically controlled temperature.
Easy clean interior surface. Height 14.96 inches/380mm,
length 14.96 inches/380mm, width 8.66 inches/220mm.
Volume 14 liters.

Bulb Kit

LR003013

Tow Strap

(not shown) - STC8919AA
Includes storage bag that can be attached as
a warning flag to the strap. 6613.86lbs/3,000kg
maximum load capacity.

Touch-up Paints

A comprehensive range of touch-up paint sticks
and aerosols to help your Land Rover LR2 look
as good as new despite those minor chips and
scrapes. Please see your authorized Land Rover
Retailer for further details.

INTERIOR STYLING - ACCESSORIES

VPLFS0014
Heavy duty fabric protects loadspace up to window height. Covers loadspace floor with second row seats folded.

Rigid Loadspace Protector
LR002424

Loadspace Rubber Mat
LR002516
Waterproof with retaining lip and non-slip surface.

INTERIOR STYLING - ACCESSORIES

Nutmeg Carpet Mats
LR007817

Ebony Carpet Mats
LR002486

Rubber Mat Set
LR002483

Audio Connectivity System
VPLFE0002

Link lead installation to integrate iPod® Nano Gen 1, 2 and 3, iPod® Video 30 + 60 + 80Gb, Classic, iPhone™ and iTouch into the vehicle audio speaker system, using the steering wheel controls (where fitted) for track selection and volume. In addition the link lead also acts as a charger for your iPod® device. iPod® not included.

Front and Rear Sill Tread Plate Kit
LR002525

Finished in highly polished stainless steel.

Rear Sill Tread Plate Kit

Part of the Front and Rear Sill Tread Plate Kit (LR002525 shown left).

Waterproof Seat Covers
Sand*

Front Seats LR005059
Rear Seats (with armrest)**
LR004929

Waterproof Seat Covers
Aspen*

Front Seats LR005058
Rear Seats (with armrest)**
LR004928

*Protects seats from mud, dirt and wear and tear. Machine washable. Includes headrest and armrest covers. Colors shown may differ from the actual product.

**Not compatible with large rear head restraints. Please see your authorized Land Rover Retailer for details.

Our plan for a sustainable future.

We take our responsibility to our planet very seriously, with an integrated and innovative approach for a sustainable business and lower carbon world. As a company we are committed to:

Reducing our dependency on fossil fuels and the production of man-made CO₂ emissions...

Using fewer resources and creating less waste...

Enthusing our employees and stakeholders for sustainable business development

At Land Rover we do this by investing in four key areas:

e_TERRAIN TECHNOLOGIES. EFFICIENT POWER SYSTEMS; LIGHTWEIGHT STRUCTURES, REDUCED EMISSIONS

A joint £800m investment into new technologies designed to reduce CO₂ emissions and improve fuel consumption. We are targeting a 25 percent reduction in joint fleet average tailpipe CO₂ emissions within the next five years. Beginning with an intelligent Stop/Start system on Land Rover LR2 diesel manual, followed by Intelligent Power Systems Management (IPSM) with Smart regenerative braking on all Land Rover LR4, Land Rover LR2 and Range Rover vehicles, to the announcement of our new compact Range Rover, e_TERRAIN TECHNOLOGIES form a fundamental part of our carbon management plan.

SUSTAINABLE MANUFACTURING. USING FEWER RESOURCES AND CREATING LESS WASTE

World class manufacturing facilities, certified to ISO14001 since 1998. As a company we are targeting a 25 percent reduction in operating CO₂ emissions by 2012, 25 percent in waste to landfill and 10 percent in water consumption, based off 2007 levels. Going forward we are measuring our total operating carbon footprint and setting targets to reduce it; since 2006 this integrated approach has included the carbon offset of all manufacturing assembly CO₂ emissions from our Solihull and Halewood plants. But it doesn't stop there. Every new vehicle is designed to be 95 percent recoverable and reusable – with 85 percent that's recyclable and a further 10 percent that can be used to generate energy.

In 2009, we reduced our CO₂ emissions by 26,550 tons, water consumption by 50,721,034 gallons and 1,300 tons to landfill

CO₂ OFFSETTING. INVESTING IN RENEWABLE ENERGY, TECHNOLOGY CHANGE AND ENERGY EFFICIENCY PROJECTS

For every ton of CO₂ emitted during the manufacturing assembly of all our vehicles, Land Rover invests in carbon reduction projects that reduce an equivalent ton of CO₂ elsewhere. In addition, we enable our customers to offset their first 45,000 miles/72,000 km of driving in their new vehicles. We do this in the UK as well as countries in Europe, the Middle East and Asia. Independently administered by ClimateCare and governed by a body of climate change experts, CO₂ offsetting allows us to take action now, to reduce our impact on the environment as part of an integrated carbon management plan.

Land Rover currently has 19 emissions reduction projects in our plan to offset approximately 2,500,000 tons of CO₂ by 2012...

Our customers in the Middle East have contributed over \$1,650,000 to this target since October 2008...

We have three Gold Standard projects in the portfolio: energy efficient stoves in Uganda and Ghana and wind generation in Aliaga Turkey

CONSERVATION AND HUMANITARIAN PARTNERSHIPS. WORKING PARTNERSHIPS FOR CONSERVATION & SOCIETIES GAIN

Our vehicles are designed for purpose, so are used by conservation and humanitarian organisations worldwide. Working with our five Global Conservation partners and the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover is proud to support the important work of the Royal Geographical Society (with IBG), The Born Free Foundation, Earthwatch Institute, Biosphere Expeditions and the China Exploration and Research Society.

As part of our Sustainability policy Land Rover has actively promoted responsible off-road driving since 1990...

This year Land Rover launched a new three-year global initiative with the IFRC entitled 'Reaching Vulnerable People around the World' through which Land Rover aims to support IFRC's life saving work. To date Land Rover has given over £2.5m worth of support to IFRC, including vehicle donations and funds raised
