Can a design found at 12,000 feet make you feel more connected to the road below?

Can a vehicle become an extension of you in more ways than one?

Can you feel the G-forces of a curve that’s halfway around the world?
To craft the most amazing machines, you don’t start with machines at all. You start with people.

The 2021 Lexus IS

IS 300

An reimagined, aggressively sculpted exterior meets a 2.0-liter turbocharged inline-four engine with 241 horsepower. Forged on the rigorous, all-new Shimoyama test course in Japan, it features a more rigid chassis for improved cornering and greater responsiveness. Rear-wheel drive.

IS 300 AWD

Conquer every curve with a powerful 3.5-liter V6 engine that generates 260 horsepower. All models now feature Apple CarPlay® integration, Android Auto™, an available pinch- and zoom-enabled 10.3-inch touchscreen multimedia display and our most advanced standard safety suite ever. All-wheel drive.

IS 350 F SPORT

Command the road—and attention—with a 311-horsepower 3.5-liter V6 and 19-inch staggered-width wheels. The Dynamic Handling Package adds an optimized Adaptive Variable Suspension, Torsen® limited-slip rear differential (RWD) and lightweight carbon-fiber components. Available rear-wheel or all-wheel drive.
IS F SPORT shown in Iridium"

MORE THRILLING PERFORMANCE

To engineer a sport sedan this unrelenting, you must engineer a testing ground to match.

Combine unparalleled engineering and a test track destined to become an icon for world-class automotive performance and this is the result. Delivering pure exhilaration in three striking forms, this is the turbocharged IS 300, the capable IS 300 AWD and the daring IS 350 F SPORT. With a more rigid chassis for improved cornering and a low center of gravity for greater control, the 2021 IS line delivers a connection between vehicle and driver that’s more visceral than ever before.
THE PROVING GROUND
OF HIGH PERFORMANCE

When you design a course to push every limit, the result is more than a vehicle that’s track tested. It’s track born.

There are no shortcuts to extraordinary engineering. The only option is to go all in.

3.3 miles. 2.8 billion dollars invested. Hours spent calculating the camber and radius of every corner to engineer what could be the most demanding testing ground in the world: the Shimoyama track in Japan. All so the powerful G-forces we experienced there will be felt here—halfway around the world—by you.

As the first Lexus to be honed on this track, every element of the IS was refined to create optimal agility and the most linear response possible. From reducing body lean to increasing straight-line stability, the IS was pushed to perfection at every turn.

GREATER STRAIGHT-LINE STABILITY
An available Torsen® limited-slip rear differential distributes power to the outside wheels for greater traction and maneuverability at every turn.

OPTIMIZED VEHICLE POSTURE
An available advanced suspension system features anti-dive damping when braking and anti-squat damping when accelerating for greater stability in both scenarios.

ENHANCED CORNERING
An available Lexus-exclusive swing-valve shock absorber reduces vertical vibrations to offer added vehicle stability while simultaneously helping you maintain a level field of view, reducing driver fatigue.

REDUCED BODY LEAN
The IS F SPORT offers a newly optimized Adaptive Variable Suspension that’s more rigid and utilizes components that are up to 20% lighter. It features sensors that monitor G-forces and adjust damping through every turn to reduce body lean and improve response.
ALL-WHEEL DRIVE

Command more roads in more types of weather with the 2021 Lexus IS. With standard all-wheel drive, the IS 300 AWD features a 260-horsepower 3.5-liter V6 that accelerates from 0 to 60 mph in 6.1 seconds. While the IS 350 F SPORT AWD propels off the line in a mere 5.7s, by automatically allocating engine power between the front and rear axles from 30/70 to as much as 50/50, all-wheel drive can help provide enhanced traction and control on a wide range of road surfaces and conditions.
F SPORT
STYLING & PERFORMANCE

Unmistakable style meets unrivaled performance. The IS 350 F SPORT interior boasts a sleek and aggressive command center, a steering wheel trimmed in perforated leather, aluminum pedals and exclusive stitching. Plus, the F SPORT adds bold, 19-inch staggered-width wheels \(^2\) and daring Gloss Black accents around the grille, lower rocker and rear spoiler.

Boasting a potent 311-horsepower \(^2\) V6 engine and an available optimized Adaptive Variable Suspension for improved cornering and stability, each drive is more thrilling than the last. And for those looking to go all in on exhilaration, it emits a throaty engine note at higher rpm.

F SPORT BOLSTERED SEATS
Featuring enhanced bolsters and a unique foam-injected construction designed to cradle the driver during high-G turns, exclusive F SPORT seats wrap the driver from hip to shoulder. Their low position helps place the driver’s hip point as close as possible to the vehicle’s center of gravity for a more dynamic driving experience.

PERFORMANCE-INSPIRED INSTRUMENTATION
Nearly identical to the digital gauges in the world-renowned LFA supercar, the instrument cluster in the IS F SPORT features a digital display that moves in concert with a sliding bezel, expanding and retracting digital readouts when information is accessed.
ALL-IN ENGINEERING. 
ALL-OUT PERFORMANCE.

With a carbon fiber rear spoiler, exclusive BBS wheels and more, the Dynamic Handling Package pushes style and performance to new heights.

Take the exhilaration of the IS F SPORT to the next level with the Dynamic Handling Package. Offering more lightweight carbon fiber components for increased aerodynamics and additional drive modes for sharper cornering, it turns every drive into a thrill ride.

CARBON FIBER REAR SPOILER
Adding downforce at higher speeds, this aerodynamic addition will help you turn heads as quickly as corners.

ADAPTIVE VARIABLE SUSPENSION
This lighter, optimized suspension not only adjusts the shock settings on each wheel depending on road conditions but also tightens while cornering for reduced body lean and even greater response. It also features an enhanced layout to support new, wider 19-inch wheels.

STAGGERED-WIDTH 19-INCH MATTE BLACK BBS®WHEELS
These larger, staggered-width forged alloy wheels are not only lighter for reduced unsprung weight, they also improve grip for enhanced handling and responsiveness.

CARBON FIBER OUTER MIRROR HOUSINGS
The unique side mirror housings, exclusively available with the IS F SPORT Dynamic Handling Package, are designed with carbon fiber for added edge.
DESIGN

The wider stance and dramatic character lines of the redesigned IS capture your attention and evoke a visceral response. The hood and front fenders seamlessly flow together, leading your eye from the slimmer available Premium Triple-Beam LED headlamps to the larger 19-inch staggered-width F SPORT alloy wheels. And complementing the dynamic front, the aggressively sculpted rear features a singular taillamp that tapers into mere millimeters in the center.

MORE EVOCATIVE STYLING

From its boldly redesigned exterior to its wider stance, the 2021 Lexus IS looks as exhilarating as it feels.
DESIGN THAT CATCHES EYES, NOT THE AIR.

From its coupe-like silhouette to its sleeker LED headlamps, every element captures your attention. And little else.

While most automakers are content to play it safe when it comes to design, we looked elsewhere for inspiration: to an altitude of 12,000 feet, observing the wing suits worn by extreme skydivers. By analyzing a sport that tests the limits of human exhilaration, our goal was to craft a vehicle that evoked the same.

From the dramatic hourglass shape of its shoulder lines to the large front fenders that seamlessly unite with its elongated hood, each daring design cue harkens back to its aerodynamic inspiration.

SLEEKER LED HEADLAMPS
The new, available Premium Triple-Beam LED headlamps are slimmer and more striking than ever before.

WIDER STANCE
A full 30 millimeters wider than its predecessor, the 2021 IS is more aggressive at every angle. It also features widened front and rear fenders to accommodate its larger wheels.

REAR SPOILER
The IS 350 F SPORT features a distinctive Gloss Black spoiler that adds downforce at higher speeds.

ANGULAR CHARACTER LINES
With 360 degrees of flowing, continuous character lines juxtaposed by sharp edges, the 2021 IS looks as agile as it feels.
DESIGN

The 2021 IS combines modern craftsmanship with exceptional comfort. While the reimagined interior is designed around the driver—with elements like a shift knob and steering wheel trimmed in hand-selected leather—it rewards every occupant with new Circuit Red or White seating options. Located where your hands naturally rest on the steering wheel, an available heating element continually monitors and adjusts the heating level to help maintain a set temperature. Further refining the driving experience, a dual-zone climate-control system features individual settings to allow the driver and front passenger to adjust their preferred temperatures.

Seating throughout the IS is as adaptable as it is striking. The low-set, eight-way power-adjustable front seats provide peak comfort while standard 60/40-split fold-down rear seats provide remarkable versatility. Available heated and ventilated front seats also offer separate heaters and fans in the seat cushions.
**PURE STYLE, INSIDE AND OUT.**

With bold details throughout, every design element echoes pure performance.

Circuit-inspired design meets world-class craftsmanship with the reimagined IS. The slimmer LED headlamps with integrated daytime running lights are mirrored by the sweeping lines of the masterfully embossed IS F SPORT interior door panels. Every detail was considered, from new accent stitching along the dash to larger circular air vents reminiscent of jet turbines. Elevating the artful interior even further, it offers distinctive Ash ornamentation crafted with laser etching to maximize its tactile qualities.

IS F SPORT shown with Circuit Red NuLuxe® and Ash interior trim
MORE CONNECTED THAN EVER

From Apple CarPlay integration to our most innovative standard safety suite yet, this is the most advanced IS ever.
PEACE OF MIND, STANDARD

Introducing Lexus Safety System+ 2.5, a class-leading integrated suite of the most advanced standard active safety equipment ever included in a Lexus.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION
With enhanced radar and camera capabilities, this system now features left-turn intersection support for pedestrians and vehicles. It can also help detect the vehicle ahead, a preceding bicyclist in daytime, and a preceding pedestrian in daytime and low-light conditions. Should it detect a potential frontal collision, it can help provide steering assistance and can help automatically brake the vehicle to a stop.

LANE TRACKING ALERT WITH STEERING ASSIST
This system utilizes a camera to monitor visible lane markings. If an inadvertent lane departure is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

ROAD SIGN ASSIST
This system uses a built-in camera to help provide road sign information in the instrument panel. In addition to displaying speed limit information, the system can alert you of certain detected signs you otherwise might have missed.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL
This system now helps detect an upcoming curve and may lower your speed accordingly. It also helps you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and can automatically slow your vehicle—even to a complete stop.

INTELLIGENT HIGH BEAMS
To help provide greater visibility for you as well as other drivers, Intelligent High Beams offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then momentarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.

LEXUS SAFETY SYSTEM + 2.5
**CUTTING-EDGE CONNECTIVITY, CONNECTED TO YOU.**

Experience the latest innovations at your fingertips—and the forefront of driver convenience.

**ANDROID AUTO**

With Android Auto™, you can now seamlessly cast your device’s interface onto the vehicle’s multimedia display. Play your music via your favorite apps such as Spotify® and Pandora®, send messages through a range of commonly used apps like WhatsApp®, navigate with Google Maps®, and request information—all with your voice. Just say “Hey Google” to get started. For added convenience, Android Auto can also help shorten your commute by automatically finding alternate routes if it detects heavy traffic.

**AMAZON ALEXA**

Bring all the convenience of Amazon Alexa® on the road with the Lexus+Alexa™ app. Using only your voice, you can easily access thousands of the same functions you get with Alexa at home. Listen to audiobooks, stream Amazon Music®, make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart-home devices® such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa can even sync to your Navigation System® or provide on-the-go directions via the Waze™ app on compatible devices.

**APPLE CARPLAY**

With Apple CarPlay®, you can access the same familiar interface from your iPhone® through the vehicle’s touchscreen multimedia display. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri®, and get access to your favorite apps like Waze, Spotify and Apple Audiobooks. ™

**LEXUS ENFORM**

Lexus Enform® elevates connected technology and provides concierge-level convenience. From emergency assistance and available onboard Wi-Fi® to the ability to start your engine remotely® using your smartphone, smartwatch, the Lexus skill on Amazon Alexa built-in devices, or using just your voice with Hey Google®, our premium suite of connected technology offers peace of mind with every drive.

**PANORAMIC VIEW MONITOR**

The IS offers passionate design with optimal visibility, as seen in the available Panoramic View Monitor®. Four high-resolution cameras mounted on the front, sides and rear of the vehicle give drivers a bird’s-eye view of the near environment. Moving View and See-Through View options create a composite image of the vehicle’s surroundings as on-screen guides assist with parking and tight maneuvering.

**MARK LEVINSON® PREMIUM SURROUND SOUND AUDIO SYSTEM WITH 17 SPEAKERS**

Unlock a deeper appreciation of sound with the available 17-speaker, 1,800-watt Mark Levinson® Premium Surround Sound Audio System. The 2021 IS boasts the uncompromising purity of one of the most sophisticated 3D audio technologies available in an automobile: Quantum Logic® Surround. With improved tuning and a new amplifier that delivers twice the power of the previous system, it envelops every passenger in three-dimensional sound that rivals the finest home audio systems. The result: A closer connection to every note that resonates throughout the cabin.

**DELIVERY AND TECHNOLOGY SPECIALISTS**

To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime®. IS STYLES

IS 300
Standard features:
- 241-horsepower® 2.0L turbocharged in-line 4-cylinder engine
- Eight-speed Direct-Shift transmission with paddle shifters
- Rear-wheel drive
- LED headlamps, taillamps and daytime running lights
- SmartAccess® with push-button Start/Stop
- Double-wishbone-type front suspension and multi-link rear suspension
- 18-in alloy wheels
- Rain-sensing windshield wipers
- Electric parking brake
- Auto-dimming heated outside mirrors
- Drive Mode Select
- NuLuxe® interior trim
- Eight-way power front seats
- Dual-zone climate control
- Lexus Multimedia System™ with eight-inch touchscreen display
- Remote Touchpad™
- Voice Command with Bluetooth® and USB smartphone connectivity
- Lexus Enform Safety Connect™ and Service Connect™ included for the first three and 10 years of ownership, respectively.
- Amazon Alexa® compatibility
- Apple CarPlay® integration
- Android Auto® integration
- Lexus Enform Wi-Fi. 4GB/three-month trial is included.
- Lexus Enform Remote®. Accessible via Lexus app; works with Amazon Alexa® and Hey Google®. Included for the first three years of ownership.
- Lexus app (Enform Remote engine start, service scheduling, Vehicle Health Reports/Alerts and more)
- Lexus Safety System+ 2.5™ (Pre-Collision System with Pedestrian Detection®, Lane Departure Alert with Steering Assist®, Road Sign Assist®, All-Speed Dynamic Radar Cruise Control® and Intelligent High Beams®)
- Blind Spot Monitor® with Rear Cross-Traffic Alert®
- Backup camera® with dynamic gridlines
- 10 standard airbags®
- Complimentary scheduled maintenance services® (Please refer to the Warranty and Services Guide for details.)

IS 300 AWD
Includes IS 300 features, and adds or replaces:
- 260-horsepower® 3.5L V6 engine
- Six-speed transmission
- All-wheel drive

IS 350 F SPORT
Includes IS 300 features, and adds or replaces:
- 311-horsepower® 3.5L V6 engine
- Available rear-wheel or all-wheel drive
- Performance-inspired instrumentation with sliding bezel
- F SPORT heated leather-trimmed steering wheel
- F SPORT bolstered heated and ventilated front seats
- Embossed interior door trim
- Black Geometric interior trim
- F SPORT exterior styling, including unique front and rear bumpers, grille surround, lip spoiler and exhaust tips
- F SPORT interior styling, including unique front and rear bumpers, grille surround, lip spoiler and exhaust tips
- 18-in staggered-width Matte Black BBS® wheels with summer (RWD) or all-season (AWD) tires

PACKAGES

COMFORT PACKAGE
Heated and ventilated front seats
Heated leather-trimmed steering wheel
Power tilt-and-slide moonroof

DYNAMIC HANDLING PACKAGE (IS 350 F SPORT)
Includes IS 350 F SPORT features, and adds or replaces:
- Drive Mode Select with Sport S/S+ and Custom modes
- F SPORT-tuned Adaptive Variable Suspension
- Torsen® limited-slip rear differential (RWD)

A F SPORT heated Ash wood-trimmed steering wheel
Ash interior trim
SmartAccess® card key
Carbon fiber rear spoiler
19-in staggered-width Matte Black BBS® wheels,® with summer (RWD) or all-season (AWD) tires

NAVIGATION PACKAGE
Navigation System®
B 10.3-in high-resolution touchscreen multimedia display
Lexus Enform Destination Assist® included for the first three years of ownership.
Dynamic Voice Command®
Lexus Enform Dynamic Navigation® included for the first three years of ownership.

NAVIGATION/MARK LEVINSON® PACKAGE
Includes Navigation Package, plus:
- Mark Levinson® 17-speaker, 1,800-watt Premium Surround Sound Audio System
- Machined aluminum control knobs

OPTIONS

C Premium Triple-Beam LED headlamps
Power tilt-and-slide moonroof
