Welcome to the next chapter of Lexus design and performance, the 2022 NX. It was completely reimagined to connect the driver to the vehicle and the world like never before. A new, highly intuitive Lexus Interface offers a 14-inch touchscreen display that becomes an extension of you. Lexus-first Digital Latch handles are so smart they help prevent the doors from opening into the path of a bicyclist or a vehicle approaching from behind.1 Lexus Safety System+ 3.0, the most advanced standard safety system2 ever in a Lexus, offers the ability to help warn of pedestrians in intersections.3 And more powerful engines are offered across the NX line, including the first-ever Lexus plug-in hybrid electric vehicle, the NX 450h+ AWD. Introducing a vehicle crafted to the highest standard of all: yours. Introducing the next NX.
