TOTAL REFINEMENT | LIMITED INTERIOR IN SEA SALT/INDIGO PREMIUM LEATHER
UNRIVALED ATTITUDE | TRX IN FLAME RED
BUILT FOR WORK, PLAY AND EVERYTHING IN BETWEEN

CAPABILITY
Bring on your big jobs and huge payloads. Ram 1500 offers eTorque technology, multilink coil spring rear suspension and available Active-Level™ Four Corner Air Suspension.

SAFETY/SECURITY/COMFORT
Comfort doesn’t just come from spacious up to six-person seating; it also comes from peace-of-mind available technology like LaneSense® Lane Departure Warning Plus® and Blind Spot Monitoring (BSM)™ with Rear Cross-Path and Trailer Detection.
ADVANCED AIR BAG TECHNOLOGY
The six standard air bags help provide protection and peace of mind to vehicle occupants. In the event of a front-end collision, the front air bags feature adaptive venting technology, opening a vent within the air bag cushion that adapts to the occupant size and severity of the crash.

SIDE-IMPACT DOOR BEAMS
The robust beams built into every Ram 1500 help reinforce protection against side impacts.

HIGH-STRENGTH STEEL
The frame takes the concept of durability to extremes. 98 percent of the steel used in the frame is high-strength steel.

FRONT FRAME RAIL SECTION
In the event of a frontal offset collision, dynamic front crumple zones with front splayed frame rails and tire blockers help protect against cab intrusion.

MASSIVE BRAKES
At nearly 15 inches in diameter, the front and rear rotors are built for superb stopping.

CLASS IV HITCH RECEIVER
Trailering is part of Ram DNA. The available Class IV hitch receiver helps make it happen.

REAR-AXLE THERMAL MANAGEMENT SYSTEM
This available technology controls lubricant viscosity—a real contribution to the impressive efficiency.

SMART SHOCKS
Frequency Response Damping (FRD) shock absorbers adapt to varying surfaces and driver demand.

PROGRESSIVE-RATE REAR SPRINGS
They automatically adapt to payload while helping maintain a level profile and remarkable ride quality.
With systems that can automatically help adjust braking, provide guidance when parallel and perpendicular parking or alert the driver of lane drift, Ram 1500 offers a host of standard and available Safety and Security technology features. The available smart Blind Spot Monitoring (BSM) with Rear Cross-Path and Trailer Detection even scans the blind-spot zones beside and behind the vehicle to help provide safe trailer maneuvering while automatically sensing and accounting for the length of the trailer. When equipped, the available Automatic Emergency Pedestrian Braking uses radar technology to help determine if a collision between the vehicle and a pedestrian appears imminent. If so, available Full-Speed Forward Collision Warning Plus activates the vehicle’s brakes.
TOW LIKE A PRO

From boats to sleds to jobsite equipment, Ram 1500 has the capability to tow huge loads. Available advanced towing technology, like self-calibrating Trailer Reverse Steering Control, Digital Rearview Mirror with an LCD monitor and real-time video display, Trailer Light Check and the Trailer-Tow Power-Folding Mirrors with an available 360° Surround-View Camera System, provides peace of mind while you’re on the move.
702 HP | 650 LB-FT | 4.5 SEC
FIERCELY POWERFUL, EXTREMELY CAPABLE

6.2L SUPERCHARGED HEMI® V8 ENGINE
Only available on the Ram 1500 TRX, the legendary 6.2L Supercharged HEMI V8 engine ensures this monster can charge from 0–60 mph in just 4.5 seconds. The supercharger provides near-instantaneous torque, has a maximum speed of 14,600 rpm and produces 11 psi of boost.

5.7L HEMI V8 ENGINE WITH eTORQUE
The available 5.7L HEMI V8 engine with the eTorque Mild Hybrid Technology System blends performance-enhancing and efficient technologies with the addition of an available extra 130 lb-ft of supplemental torque.

395 HP • 410 LB-FT

5.7L HEMI V8 ENGINE
The available and renowned 5.7L HEMI V8 engine offers the legendary power and capability you’ve come to expect from the HEMI name.

395 HP • 410 LB-FT

3.6L PENTASTAR® V6 ENGINE WITH eTORQUE
The 3.6L Pentastar V6 engine with eTorque uses advanced technologies like wide-range Variable Valve Timing and two-step variable valve lift to deliver power and efficiency. The eTorque motor also provides an available extra 90 lb-ft of supplemental torque.

305 HP • 269 LB-FT

3.0L ECODIESEL V6 ENGINE
Powerful and efficient, the available 3.0L EcoDiesel V6 engine achieves an incredible 480 lb-ft of torque.

260 HP • 480 LB-FT
DETAILS MAKE THE DIFFERENCE. We’ve built our trucks to be as accommodating as they are capable. Available features like the lockable RamBox® Cargo Management System, a multifunction tailgate, foot-controlled steel deployable bed step, in-bed LED lighting and more bring convenience to your travels.
STAY CONNECTED. The advanced Uconnect® system offers convenient available connected services and features. Both novice and expert users will enjoy the ease of use. Go to driveuconnect.com for details.
A DIFFERENT LEVEL OF CAPABILITY. TRX was designed to be the ultimate high-performance, sandstorming full-size pickup. Bilstein® Black Hawk® E2 active damping shock absorbers maximize handling, comfort and bottom-out resistance on high-speed sand runs. Intense power comes from the SRT® developed 6.2L Supercharged HEMI® V8 and TorqueFlite® 8-speed transmission. The robust 35-inch Goodyear® Wrangler® Territory tires offer control and stability in shifting conditions.
